

All People Testing & Basic Income Are Decisive to Tackle against Corona.

All people's PCR testing can find people coming back business and patients to hospital at once. This was found possible both by short time and expense. Also you could verify it.

<http://777true.net/We-could-Win-Virus-by-Testing-All-Nation-People-in-a-short-Time-&-Expense.pdf>

Note the Unprecedented Global Economy Crush at now would last for at least few years? by best, if worst, for more than 10 years?. Thus temporal Emergency Subsidies could not work for essential relief, but ineffective waste causing stronger government finance crisis?.

Problem is least payment, but most effective relief method to recover stable economy.

Then we must judge business necessary and not, but do relieving all people's livelihood.

(1) Spain introduces basic income scheme to tackle poverty

Measure affecting about 2.3 million people in need guarantees income of maximum \$1,126 per family, government says.

<https://www.aljazeera.com/ajimpact/spain-introduces-basic-income-scheme-tackle-poverty-200530080443046.html>

Spain population=4700.0000, employed~2000.0000, → $230.0000 / 2000.0000 = 10\%$!

This challenging good news would trigger the global popularization ?!!

(2) Basic Income the Summary on the Annual Finance Stability .

① Unconditionally all nation people is assured to gain minimum income for their livelihood.

This is also to assure stable consumer market size in any social & economic state.

This fact make it very ease to change regime drastically in institutions and technological.

② Those whose income is larger BI is almost no change in their income.

③ Many may fear for tax increasing, however it is not annual one, but initial only.

After all, initial tax rate (government budget) increase is about Jobless Rate which is considered increase of family dependent. It is a cost for sharing suffer of jobless by all people. Note "fundamentally" no tax increasing in coming years by canceling the payment and the income in government finance. See details in **APPENDIX-1**

Vivid life is circulation of blood, vivid economy is circulation of money, but **not stagnant**.

④ **What is Basic Income? Introduce overseas past years experiment examples**

<https://earthlab.tech-earth.net/what-is-basic-income/>

It was past experiments in Finland, Canada, and Switzerland, but those seem used for advertisement of failure! ?.. Author don't know Finland politics, but the other countries are conservative. Opposers against large tax increase are deceived <account principle in outgo and income matrix>, some accuse increasing in lazy persons, which unrelated to the main economic rotation, whether it is a lie or a truth.

APPENDIX-1: Basic Income is decisive Drug to Treat the Deadly Livelihood.

<http://777true.net/Prompt-Wartime-Regime-against-Bio-Weapon.pdf>

① Corona Economics(Basic Income=BI)the Consistency in the Simplest Model.

Al Qur'an; The Heifer 219: <modified by author by Japanese translation>

And if you've asked how much you should give zakat(donation)?, answer the surplus..

<https://www.clearquran.com/002.html>

Government's **any amount** of rational BI payment never increase debt, but balance by setting **nothing surplus of BE**, National Finance as usual has been increasing Government Debt due to **NGO corporate surplus increasing** <Zero Sum Theorem on total debt and bond>.

BE=Business Essential is defined as active economy actors in Corona Economy Regime.

ECONOMICS the Income & Outgo Matrix. <column=outgo↓, row=income←>

<http://www.777true.net/Quick-Guide-to-Economy-Network-Dynamics.pdf>

Following is a numerical example.

	Government $G_E=70$	Bank	B-Essential 140	B-non Essen	Home ↓ 130
Government		0	$70(G_E)-30$	0	$G_H=30$
Bank	0		0	0	0
B-Essential=BE	$E_G=40$	0		0	$E_H=100$
B-non Essen	0	0	0		0
Home ←	$H_G=30$	0	$70+30$ =salary	0	

The Design Algorithm:

① Green row is fundamental demands = consuming pay by home(100) and government(40).

② By **jobless rate**, BI ratio is determined in total consuming sum $\equiv 100 = 30 + 70$,

③ Tax total = Government pay ($\equiv 40$) + BI pay (30) = $40 + 30 = 70 = G_E$..

④ See ③(2); Tax Home $\equiv 30$, \rightarrow Tax BE = $70 - 30 = 40$.

⑤ Salary Home by BE = BE income① - BE tax④ = $140 - 40 = 100$

BI = $H_G = 30$ is high rate in home consuming = $30/100 = 30\%$, which could be **also jobless rate !**

Thus Bi becomes evident to be **stable without debt increasing** in government.

* reference: *Macro-Economics Circulation*

<http://www.mitsunobu.server-shared.com/c-econo1/c36.html>

Note this is the principle, but not the actuality in each nation budget planning. This actual task need the professional's more complex calculation toward the managing.

APPENDIX-2 : Coming New Constructing the Fundamental Strategy.

This is economy reincarnating method. Economy dynamics is **positive feedback** one, thus once it declined, no recover again, unless **something large demand inputting**,

Such they had made a fatal fail, **the destroying climate** by massive oil consuming, Now it had become too serious. A nation had become not to assure **all people's stable life** by anymore. Above all, accelerated climate disasters would attack mass foods supply and basic infrastructure. **None is more dangerous for ruler, but collective hungry people seeking foods to survive !!**

(1) This is also decisive the highest priority problem of us all at now.

Note such they had done the Corona with mind state of **do or die**. So it is us who is too stupid not knowing the imminent crisis. Now we are paying unprecedented cost as outrageous non stop victims rise by Corona. **Thereby we must drastically change our mind (the as usual) toward recognizing the fact unfavorable (climate crisis now heading global extinction !!).**

Our life (as usual) is not rigidly stable, but too fragile by drastic Environmental Change! Learning tolerance in life is decisive to survive in coming more vulnerable world.

Global Corona riot is caused only by air contamination, but the consequence is large enough to destroy simultaneously many lives and large scale business. Thanks to those, almost global inhabitants equally and simultaneously have learned **tolerance** in tough life for the interval. In modern age, except wartime, we were living time of growing pleasure life only, but not of suffer. This high fee lesson must not be of no use, but of use in coming more and more dangerous crisis. If once again we would fail by having forgotten the tolerance, we could not have salvation anymore.

(2) Business as usual had died, so it's nothing, but new business to reincarnate.

Economy dynamics is **positive feedback** one, thus once it declined, no recover again, unless **something large demand inputting**, For an example, it is the new-deal policy in the great depression era. It is a big demand made by public sector, but not free market side. However the inputting is also possible by NGO side's big fund.

(3) Following Big Inputting would Cause Big Future Benefits.

Following are emergency strategy to construct so called essential business.

Not mentioned important task is scaling up **Foods and New Energy Supplying**.

Climate engineering contains also technology of direct fixing climate dynamics process.
