

-Unless global turn to correct, saving food become difficult as time go on-

By anywhat one tell, global surplus heat were positive, temperature never go down. Even though, **forcused global intelligence** could save this fatal planet.' 10/11/23

[1]:The fatal Climate Facts, but not become Disapair !!.

(1)The unprecedented abnomalization of global climate in 2010.

In 2010, you could recognize the global climate disasters, big floods in Pakistan and China caused by transfered hudge evapolated water from hotter equator zone, and the transfered dried air caused unprecedented big and long days fires in Russia. In Japan, heat up summer lasted more than a month. In the other hand, south America encountered unprecedented colder winter caused many cattle and people died. In this way, the disasters attacked **the foods product** (and living infrastructure) to cause higher international prices.

(2)The essential cause=surplus heat input on globe (radiative forcing= $1.6W/m^2$ ).

You could account  $\{Debt = Income - Outgo\}$ , which now has been punishing all of us.

So long as debt (the surplus heat input) was positive, none could turn temperature down, which would cause more climate disasters on (foods & houses) on globe.

Bigger fluctuation would cause extreme climate of hotter and colder due to **increasing of heat exchanging between hotter equator and north(south) pole zone.**

<<coarse interpretaion on the big fluctuated hotter and colder climate>>

Push & pull fluctuating forces are increasing among hot input and cold output.

(3) **Possibility Increasing of Methane Catastrophe in lid-less Arctic.**

Serreze: Arctic is “continuing down in a death spiral. Every bit of evidence we have says the ice is thinning.” ,September 9, 2010

(a) <http://climateprogress.org/2010/09/09/julienne-stroeve-nsidc-scientist-arctic-sea-ice-melt/>

(b) [ice-freesummer-arctic-2013-or-sooner-loss-of-reflectivity-non-linear.](http://www.beyondzeroemissions.org/2008/03/24/Dr-Wieslaw-Maslowski-ice-freesummer-arctic-2013-or-sooner-loss-of-reflectivity-non-linear)  
<http://www.beyondzeroemissions.org/2008/03/24/Dr-Wieslaw-Maslowski-ice-freesummer-arctic-2013-or-sooner-loss-of-reflectivity-non-linear>

Note both observed data (a) and theoretical prediction (b) agree with nearly 2013.

(c) “No one can say right now whether that will take years, decades or hundreds of years,” she said. But one cannot rule out sudden methane emissions.

<http://www.spiegel.de/international/world/0,1518,547976,00.html>

(d) Methane releases from Arctic shelf may be much larger and faster than anticipated. ScienceDaily (Mar. 5, 2010)

<http://www.sciencedaily.com/releases/2010/03/100304142240.htm>

[ 2 ]: **Never be despair !.**

Above mentioned facts would cause you dismay, or feeling of checkmate in game, but becoming despair may be conspiracy.

(1) **Arctic decline could be stopped by constructing water gate preventing evil ocean heat input at narrow and shallow Bering strait.**

Now it's mere an authors hope, but may be not impossible, if all of you wish.

While dangerous heat input into Arctic were prevented, we could manage to yield more time (about 30 years) to deduct CO2 drastically to establish stable climate. Now author could not have detailed data, but coarse estimation implying its successful possibility. Why is it conspiracy ?. For example,

(2) **Why could it be told conspiracy ?. For example, ....**

(a) Those who know the most reality on CCC are scientists (IPCC), however they don't seem to have sentenced the severe fact to policy makers, etc. Above all, if you knew the reality of **nothing effective results against CCC**, you could agree. Their frequent excuse is that a climate science has uncertainty in anytime anyplace. However a policy decision could be executed by comparing probability (expected value) of between yes or no. The climate decline never be hidden any more. Those who had been deceiving would be punished before long years.

(b) Forestization is effective and executable, but such big movement could not be seen in the world stage, but the contrary are accelerating.

[http://www.sciencedaily.com/videos/2007/0407-possible\\_fix\\_for\\_global\\_warming.htm](http://www.sciencedaily.com/videos/2007/0407-possible_fix_for_global_warming.htm)

(c) Above all, increasing carbon energy has been accelerating by capitalism the globalization. Yes it's upside down world the very evidence of conspiracy.

<http://www.sciencedaily.com/releases/2010/11/101121160229.htm>

A mass deception (false) for people is making upside (true) down.

..... Allen Daress the former CIA chief secretary.

[3]: **The most difficulty now is outrageous concealing on the facts against all.**

In the matter of course, you would have doubt why they could do such outrageous danger conspiracy causing possibility of own perishing. One possibility is that, by warning not easily recognizable for them, they could not turn the status quo due to outrageous inertia of capitalism proliferating. By anyhow, they could neglect inconvenience for the time being (the mass paralyzing of innocent). The 2nd possibility is **operation EMD GAME** conspiring final surviving struggle by making intended, but hidden big crisis (CCC) causing mass perishing due to their eugenics ideology (NAZIS). The 3rd is the very Fundamentalism in Christianity foretelling the final judgement and the doomsday (John's revelation). In meaning of the 3rd, the 2nd (the Satan) becomes very faithful to God's will to punish mankind who follow Satan and could not correct own error and sin.

This chapter is devoted for psycho analysis on why we have been in failure and on how to overcome those. Those may be more serious than climate facts.

(1) Why those has been neglected until the situation had become so worse at now??.

This is the kernel point in Climate Change Crisis (CCC) problem. Conclusively to tell, it's may not problem of science, but is that of stubborn will of the status quo (hegemonism in global capitalism). They never admit the fatal failure.

(2) "We face a hostile ideology global in scope, atheistic in character, ruthless in purpose, and insidious [insidious] in method" by D. Eisenhower in 1961.

<http://www.americanrhetoric.com/speeches/dwightdeisenhowerfarewell.html>

This is the warning against fascism in USA by military-industry complex. Some of them were imported to USA from NAZIS being against Jewish power. The NAZIS has been surviving with their dangerous obstinate philosophy.

(3) A despair ruling in ending era of white prosperous Euro-USA the modern civilization promoters.

Note that UN and IPCC chiefs now are not white men, but Korean and Indian, who are in status deciding mankind destiny. It does not seem an accident, but an intentional by those who should be blamed in facing possibility of global catastrophe. Once they had been proud on their success of prosperity of material civilization, however, now it turned to fade and to become even catastrophic. In the other hand, Christianity messaged by Jewish people terribly persecuted for long time, now reveals the reality (prophecy on the doomsday). Thus they noticed own failure and are freezing due to now era becoming outrageous awful one, but can not find the excuse. Thus the philosophy considered genuine for long time in modern times has revealed to be upside down. They consciously or uncsciously turn to opt suicide.

#### (4) **Operation END GAME.**

##### (a) **the back ground.**

This madness ruling now becomes wide in global, atheistic in character, ruthless in purpose, and insidious in method. By global solidarity, people must emergently be awoken for this evil ruling and escape from confusious upside down now state becoming gradually hell. By anyhow, those have been terribly and outrageously deception by narcotism the modern material prosperity. Once people became interested in gaining commercial profits with material prosperity pleasures, they used to be too busy in bussiness to care on actual Satanic appearance of global capitalism, which, in fact, has simuletaneously and hiddlenly been promoting mankind perishing. People who have established to save basic foods and housing tend to pursue their vanity against others. A global capitalism growing now is in fact relying on those absurd vanity motive. It also true that being poor in livelihood might cause richer others contempt. The terrible example of ultra vanity nation may be USA the show-window of capitalism toward world. Cosequently people endeavor to get higher income with more pleasures, which turn to promote extremely wasteful commercial soceity. This decadance would propagate to world wide. Thus the too much doing is to cause own catastrophe such as CCC with oil. Traditional agriculture civilization was stable one, while too industrialized one is not stable due to enormous carbon energy consumption. **A local covinience could never be global one.** A modern local mankind became too selfish than ancient one who had foreseen global mankind destiny (the religions).

(b) **Making crisis is favorable chance in hegemony struggle: essence of the madness.**

The typical example is the secret society Skull and Bones became famous due to the Bush family (supported Nazis establishment and imported Nazis person to USA after the war to establish CIA), whose philosophy is outrageous that "

I: people and nation are being exploited by dictator nobility hereditary.

II: perpetual struggle against enemies setting up.

Those were due to G. W. F. Hegel the Prussian philosopher in 18 century.

"An era of peace without conflicts is mere a white page in history. It is too tedious and not suitable for mankind". They are told becoming unrest in peace.

<http://www.777true.net/German-destiny.pdf>

(c) With incredible hatred motive, defeated Nazis survivors in USA pledged revenge against the global Jewish power and they gathered power in US military industry complex with CIA. Then they noticed CCC in the early times, and then also thought of it as an opportunity to make the final struggle (operation END GAME).

"We face a hostile ideology global in scope, atheistic in character, ruthless in purpose, and insidious in method" by D. Eisenhower in 1961.

<http://www.americanrhetoric.com/speeches/dwightdeisenhowerfarewell.html>

(d) People must notice United Nation has been their sub-organization.

A typical example may be IPCC (1988/8) and COP3 (Kyoto protocol). IPCC scientist's very efforts of the studies of predicting climate now has become indispensable, though, at least until now, result for saving planet are substantially nothing effective. For what has been all those?, those are wasting time not to escape from catastrophe. On the contrary, COPs has been absurd shows how people became selfish in debating on CO2 reduction for preventing catastrophe.

(e) Warning by religions may be correcting errors and sins of mankind, and be the prophecies on punishment on mankind who could not correct.

Then note that God never wish punishment, but mankind-themselves would have caused own world hell (suicide involving many other species). Bad is mankind who has been adhering and could not correct **the status quo causing planet perishing**.

[4]:The Heavenly World Wish the Planet Saving.

Religious prophecy is valid in comprehensible genuine science.

[5]: **Forcusing Global Intelligence could save this fatal Planet.**

Dangerous heat input into Arctic with methan catastrophe possibility could be prevented by constructing water gate at Bering strait. Stopping temperature rise also could be accomplished by sinking atmospheric carbon by growing large scale vegetations including algae in marine. By anyhow, now it's time to make global solidarity to **Forcus Global Intelligence** on these emergent problem. So none has time to waste in any local disputes anymore. The possible future may be one when anyone must judge it better to be able to save only food.
