-The List of ①②③Truhtes Necessary for Democratizing-

08/4/15, 17

①People can be Fundamentally Free

by securing {food, housing with energy}.

**②People be Equal (God order) VS Satan ideolgy**

**-Satan ideolgy-**

People is devided those who are dominated and those who dominate.

(1)What makes fundamental humann relation ? : it is **give(produce) & take(consume)** :

**②What is personality in relations ?**

:it's give>take, or give<take.

(a) **master=rich, child** : it's give<take. →

Too wealthy make troublesome nobilitism

Fear for decline of nobilitism makes **satanization** (hatred against opposer =suppression, bitter living, and war)

more welath<egocentricism>  
right wing  
nobilitism

Satanization vs

Democracy  
liberalism  
less wealth<egouniversalism>

(b) **slave=poor, grown up** : it's give>take. →

**③People must discriminate those who is oppotuntist with Satan and not those !!.**

(a) **People must be equal is God order**, whereas, (b) **wealth** (money, ...) is limited.

(c) Hence the surplus must be restore to who are exploited for realizing equality.

(d) Those who is against theme(c) is Satan, against whom we must make fight.

### ③ The Victory is Voting for Politician the Justice.

#### —DENOCRATIZING PRINCIPLE—

You must discriminate **politician the oppotunist with Satan** from **non Oppotunist** by careful co-research by collecting possible facts of their policy and action. It is all the everything of politics for democratizing. Then you could win the victory only by the actions.

- (1) Above all, people must be acquainted with the truths of the world structures as logic mentioned in above (2) which are all very evident facts.
- (2) In the world, a total amount of wealth (money, resource, ...) are finite. Then they say that wealth can be created by more labour in producing, though only by such ways, the situation never can be changed from as it has been.
- (3) Actually to tell, the necessary wealth may be sufficient for all the people's appropriate standard living (ASL), if <give and take dealing> is rational.

☞: The deciding ASL is kernel and serious problem, since it depends on people's philosophy (their tradition of living and so on) and economics methods employing in the deciding. Tough as it is, it has the minimum condition to live.

- ① People can be Fundamentally Free by securing **{food-housing-energy}**.  
The trinity are obviously finite in their quantity.

(4) Then you shall recognize the kernel problem whose standard of living goes up and whose that of down. Fear for decline of rich (nobility) makes **Satanization (hatred against opposer)**. After all, any political problem shall be concentrated in this unique one! One in established benefit regime is likely hate opposer.

(5) The obvious solution of Satanization is unique as that people in higher position never can cease their fear for dropping down unless he has come down to **stable lower ground**. It is the fear that causes all of the evil in the world. **God's true will lies in there (the fable of Satan).**

(6) It is such simple but rigid fact for which the evil dominates fear. It's look like shouting of adult warning child on higher dangerous tree of fruit.

(7) Thus you must discriminate **politicians the oppotunist with Satan** from **non-Oppotunists** by careful co-research by collecting possible facts of their policy. It is all the everything of politics for democratizing. Then you could win the victory only by the actions.
