

For your own sake, Write your Future Scenario !!!

2015/4/2.

Since 2007, author has been engaging in collecting and arranging information on the **climate crisis** and the **realizable policy** as countermeasure. As the fact, recent few years had revealed more evidents of **coming wild-nized climate era** (strong drought, flood, hurricane, heat & cold wave, etc, of which last stage is **global extinction**), and also many people-themselves had noticed its seriousness. However, there still will not be **massive synchronized effective actions** against the crisis. Why at all not ???.

To tell from the very beginning, **massive oil consumption** with mass CO2 emission has been the most basic function of **modern global civilization**, then the problem is to accuse the pleasure civilization. **Global Capitalism Regime** is entirely co-body with oil consuming.

Thus, it is due to **the overwhelming global scale difficulty** and consequent **massive synchronized incompetence**, which has been making most of people silent or neglecting.

Above all, **betrayal of intellectual leaders** in authority in politics, bureaucrat, **research-education institution** and **mass media** has been decisive and fatal.

They has been well aware of the possibility of coming global extinction. **Rockefeller the global empire regime** now has been trying to suicide with global people.

<http://www.777true.net/Oil-and-Military-the-Deathperate-Industry-has-been-causing-the-world-desperate.pdf>

Intellectual leaders now in each nations are almost children of Rockefeller the big papa.

<http://www.777true.net/Men-in-the-Hell-and-Men-in-The-High-Place.pdf>

This is decisive and fatal fact that have been derived by researching since 2007.

Then author beg you to try to **write your own Future Scenario !!!**.

Certainly for a while, your tomorrow would be same as yesterdays, however yourself had already noticed that which never could last forever.

It would be your severe, but the most precious work by activating your full ability.

Of course, collecting and analyzing future data is not so easy, thereby you should consult and make on plan for co-researching with your trusted friends.

If you are company employee, future scenario of your company is indispensable.

If you are farmer, coming future scenario of climate in your region is indispensable.

If you are public officer, future scenario of bureaucrat would be decisive on revenue.

The revenue would be depend on economy which depend on coming global climate.

If you are military men, future scenario would be decisive by politics-economy, which is to determine peoples alive or death in coming global climate environment

Above all, author beg genuine **climate scientists** to write and disclose global climate scenario with **nothing countermeasure** and with **full countermeasure**.

APPENDIX:HOW TO ANTICIPATE and PLAN FUTURE.

Future prediction is impossible, but only by decent **scientific theory** and extra-ordinal **prophecy**. Also many experienced knowledges in history would be useful especially for behavior of human in abnormal environments. But note that experienced knowledge could be useful only in **case repeated** in history. Unprecedented global abrupt climate change is out of our mankind experience. Author trusts prophecy by man and woman of extra ordinal ability. However even such them confessed that a future is uncertain. Also that **a future would be changed by our will**.

I : The Bible Predictions.

(a) Especially **the Apocalypse by John** is highlight and marvelous, which is doomed future prediction by the saint. The ideology of the Bible is teach of **repentance** toward building ordered society to co-live by **justice, truth and philanthropy (= God)**.

☞: This is entirely the same as **Al Qur'an**, of which teach is very concrete in believers political life toward **social welfare**.

Before the Bible, mankind were ruled by violence without ordered society. Note what is **the worst skill of mankind**? It is **POLITICS** toward co-live. That is, so called **Liberation Theology**. **Violence** is nothing, but injustice, lie, and hatred. If the violence ruled, mankind future would be doomed. While God ruled, there could not be **doomsday**. After all, it is mankind being against God that would cause this world doomsday. Note what the Bible telling entirely agrees with the situation of today's world where false flag wars are going on.

(b) **Stupidity and Danger of the extreme fundamentalism in Christianity.**

Act as the Bible predicted! This may be so called **the fundamentalism**. Therefore realization of doomsday is way along with God. This is entirely wrong, as was mentioned, the Bible's substantial calling for us is nothing, but **salvation by repentance = revolution !!**

☞: **Christianism's original aim was political revolution,**
but the defeating had turned it teach on moralism.....Johann.Wolfgang.von Goethe.

It is **nothing repentance** that would cause our world doomsday. Note this is also decisive simple **logic**. It is **our decisive and fatal failure** that would that cause our world doomsday. Do you think is this something wrong ???.

Revelation

3:19 As many as I love, I rebuke and chasten: be zealous therefore, and repent.

The Bible,1 John

<http://bible.org/netbible/>

5:3 For this is the love of God: that we keep his commandments. And his commandments do not weigh us down,

2. Al-Baqarah

286. Allah burdens not a person beyond his scope. He gets reward for that (good) which he has earned, and he is punished for that (evil) which he has earned. "Our Lord! Punish us not if we forget or fall into error, our Lord! Lay not on us a burden like that which You did lay on those before us (Jews and Christians); our Lord! Put not on us a burden greater than we have strength to bear. Pardon us and grant us Forgiveness. Have mercy on us. You are our *Maula*(Patron, Suppor-ter and Protector, etc.) and give us victory over the disbelieving people."

The Bible,Ephesians. <http://www.bibleetnombres.online.fr/biblekjv/ephesian.htm>

6:12 For we wrestle not against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this world, against spiritual wickedness in high places. Wherefore take unto you the whole armour of God, that ye may be able to withstand in the evil day, and having done all, to stand. Stand therefore, having your loins girt about with truth, and having on the breastplate of righteousness; And your feet shod with the preparation of the gospel of peace;Above all, taking the shield of faith, wherewith ye shall be able to quench all the fiery darts of the wicked.

II : Scientific Prediction<Theory the fundamental>.

(1)**To see is to believe**<foundation of **LOGIC** the tool for judging truth>

http://www.777true.net/Logic-the-most-simple_but-supreme-way-for-recognition.pdf

What is **true** ?,It is something realizable and visible. Thereby,**not true**(\equiv false,lie) is invisible and non-realizable. Why do you say for such too evident trivial things ???.

Not true is something non-realizable, which means very important suggestion for us.

Non realizable something can not realize an order sustainable<destruction, failure>.

Thereby, only true can build something righteous<**a decent order sustainable!!!**>

Now our world has been going toward **climate collapse**<an order non sustainable>.

Thereby, we can conclude that we have been doing something fatal wrong !!!.

Thereby, now **the world is upside down !!!**

<http://www.777true.net/The-Upside-Down-World.pdf>

Thereby, we can not survive, unless we would have **reformed something** fatal wrong !!!.

This is nothing, but **repentance** or **revolution**, which agrees with the Bible teach.

(2)**Fact is unique and only<but not double image of realization>.**

{**A** and **not A** \equiv **contradiction**} never simultaneously be true (\equiv false, lie).

A weapon merchant say "this spear can break through any shields, and that shield can block any spears". Then a passerby asked the merchant "If you try to break through the shield with that spear, what will happen ?",..... Ancient China Fable

Either of something **A** or something **not A** is true and the other is false. Both never can be true simultaneously. That is, a fact is unique and only at a time. This is the basic to realize massive **agreement** by **logic<THEORY>**.

(3)**Causality Law<the most fundamental for prediction>.**

Our most concern may describe as "**if cause A, then the result B**< $A \subset B$ >".

If the result and cause is strict **one to one relation**, it is called causality law.

This is the most fundamental for prediction in scientific ways.

If one to many, this is non-causality<see (4)>

example1) CO₂ gas absorbs infrared ray (radiated heat) from ground and emit space or ground direction again. This is fatal scientific fact both in observation and theory.

example2) Total debt and the total bond is equal.

There is no debt without bond. Thus increasing rich increases debt in someone(nation). Decreasing rich decreases debt in someone(nation). Can you find this theorem in economics text books ?? **Printing money by central bank** is own debt, which must be vanished to zero by repayment from debtors in someday, or we would face **inflation** by some degree, or.....

(4) **non-Causality means Probabilistic Phenomena due to information defect in cause.**

example3) A dice throwing is typical and we must assume equal probability = 1/6 for each outcomes due to nothing information <**non-biased estimation**>

example4) micro quantum particle such as molecule's chemical, or dynamical reaction is probabilistic. Smoke molecular movement in atmosphere is also probabilistic (**random**), so their trajectory is to disappear at last. This serious fact implicates difficulty of fluid dynamics of atmosphere. It is difficulty of **long time prediction** in weather forecasting <few days in local>.

example5) **strategy option <game theory ?>**

A concern for us is dealing between us and competitor. It's similar with "rock-paper-scissors".

(1) count up possible strategy options by competitor {a, b, c, . . . , X}

(2) making winning strategy with estimated probability {P(a), P(b), P(c), . . . , P(X)}

* above (1)(2) = **information research and analysis-synthesis** are decisive to win.

(3) cost for each option {C(a), C(b), C(c), . . . , C(X)}

(4) profit by winning {W-C(a), W-C(b), , W-C(X)} $\rightarrow \sum_{j=a}^X (W-C(j)) P(j)$

(5) failure cost for defeating {D+C(a), D+C(b), , D+C(X)} $\rightarrow \sum_{j=a}^X (D+C(j)) P(j)$

* **There is always possibility of defeating by winning strategy failure.**

(6) expected cost: $P(X) <W-C(X)> - (1-P(X) <D+C(X)>) = P(X) <W+D> - C(X) - D$

(7) actual profit = $+ <W-C(X)>$, and actual defeating cost = $- <D+C(X)>$

count up possible options by competitor	a	b	.	j	.	X	expected value
probability	P(a)	P(b)				P(X)	
counter cost	C(a)	C(b)					
profit by winning	W-C(a)	W-C(b)				W-C(X)	$\sum_{j=a}^X <W-C(j)> P(j)$
defeating cost	D+C(a)	D+C(b)				D+C(X)	$\sum_{j=a}^X <D+C(j)> P(j)$
expected cost		*		..	$* = P(j) <W+D> - C(j) - D$

In actual case, information could not be complete in general, so estimation on possible outcome rate (**probability**) is very important.

Frankly to tell, **conclusion of climate science had already been determined to be unique !**

Current trend would not allow being of 2050 world by Methane fire blasting.

<http://arctic-news.blogspot.jp/global-extinction-within-one-human.html>

<http://www.777true.net/Rapid-Temperature-Rise-in-Arctic-a-simple-verification.pdf>

THE actual effective EMERGENT COUNTERMEASURES are,

(1) **Emergent Arctic Cooling Geo-Engineering to stop Methane Catastrophe**

(2) **Emergent more than 80%-CO₂-cut.**

See (4)(a)(b).

<http://www.arctic-news.blog.jp/>

That is, **nothing salvation** by current trend <global policy by COPs agreements>.

Climate debate for 20 years long had nothing accomplishing effective

countermeasure, But those are entirely **idling to consume precious times** for against climate crisis. Nothing countermeasure would cause **global extinction** before **2050 !!!**.

(3) To review climate science, reader must be familiar with math and physics.

<http://www.777true.net/The-fatal-failure-of-IPCC-climatology-Why-is-IPCC-impossible.pdf>

.....

(a) : IPCC has nothing simulation on **temperature recovering to now state**.

Also this is fatal. By temperature rising only, it is too evident that globe becomes full disastrous toward extinction.

IV: **non-carbon Energy Technology = GLOBAL ENERGY REVOLUTION !!!**.

http://www.777true.net/Part_6_non-carbon-Energy-Engineering.pdf

It is nothing, but this problem which determine our destiny in future. So global engineers should try to develop these technology by the top priority task !!!

So far author has been researching, **ENERGY REVOLUTION** had already been possible. However **the big oil merchants** has been interfering by their strong wealth. Now there are ignorances and wrong bad reputation by **insidious conspiracy**, which has been ruling on this problem. The real effectiveness and better possibility has been interfering and hiding.

(1) **Amazing Saphonian Blade-less Wind Turbine !!!** .

This is revolutionary technology overcoming ordinal wind turbine efficiency and cost !!!.

(2) **Water becomes fuel !!!: the supreme energy technology,**

Show the experiment and verify the truth by global someone, which would determine our future destiny !!!!! Oil industry has been hating this !!! (now on revised version !!)

<http://www.777true.net/Water-Electrolysis-by-Charge-Density-Wave-could-Create-Energy.pdf>

It's not ordinal DC electrolysis, but water molecule splitting into hydrogen gas (and oxygen one) by unipolar pulse (**charge density wave = CDW**). Positive unipolar pulse CDW in water is stream of **hydrogen + ions themselves** which is terminated at cathode by electron capturing with simultaneous hydrogen gas generation. Hereupon, CDW can be radiated from anode (**capacitive antenna**) without large energy, but with small ferroelectric loss one. Generally to tell, a capacitor (without ferroelectric loss energy) never consume electric power. The secret mechanism of energy creation is due to **quantum gravitational field (the creator of this universe from "nothing")**, Full comprehension on following site is professional oriented $O = +E(\text{available energy}) - E(\text{negative gravity field energy (attraction force)})$.

Above all, we must save global peoples life in the emergency by somehow. Once the world took **semi-war time regime**, people could be saved as a **soldier** in saving minimum life.

The main aim of this report is to ask you to write this **economy scenario (way of life toward co-live) in the restricted conditions for climate emergency**. Following are a model sample, but not complete.

VI : **mind reading for establish good human relations in unprecedented situation.**

Our human life has two fundamental aspects of **technological** one and **mind** one.

The former is expected to get **good numerical values** {income, production amount, goods price, etc}. This situation may determine peoples mind of satisfaction or dissatisfaction, however, **religion** and **ideology** with peoples mind has not countable aspect. Though as it might be, a **logic** is decisive to live with many. In this meaning, there is nothing greater than a Religion, because those had wholly understand **the weakest point of human mind**. Which would become more evident in coming climate crisis world.

The simulation is decisively necessary.

After all, we could not help to admit that our and following generations are step stones to **establish stable ,peaceful,glorious world** after the RAMADAN ending.

PS:Following music had caused author's a motive to research climate crisis.
