

Dear Deadly Planet Friends

2012/7/15,18

You may consider it normal world where 99% people are sane, but 0.00...1% is not. But the fact is entirely upside down !!!.

Then you must not become desperate by following deadly diagnosis, but consider it destined way to the final salvation. This report is mere a messenger of facts. It is you who determine our future option.

From the Point of No Return to the Final Catastrophe Point .

Time left for the total salvation is very few !!, then can all of you really want it left unconcerned ???!,

Note the years interval from tipping point to the last catastrophic one is not short as few decades.

Which would become terrible desperate decades of hell the supreme !!!.

At now, 3 options might be possible, suicide by Abomb war, extinction by fireball earth, and barely salvation by operation Global Ramadan !!!. The established elites at now world seems to have been wishing the war (operation ENDGAME) !!!.

If they could have known the deadly reality, Everyone would act for the Total Salvation !!!.

[1]:The point of no return.

(1)Climate: planetary collapse before 2100? (nothing comment on the methane catastrophe)

<http://www.agoravox.fr/actualites/environnement/article/climat-effondrement-planetaire-119781>

The planet is about to reach a "point of no return", or tipping point. Which could, according to researcher, occur within a few years.

(2)Arctic Methane Emergency Group predicts 2015(+/-)2? the point of no return.

<http://www.ameg.me/>

<http://www.realclimate.org/>

[2]:The Final Catastrophe Point .

(1)Hitler's marvelous future prediction on (2039).

http://inri.client.jp/hexagon/floorB1F_hss/b1fha400.html#04

* Following are what Hitler told <translated citation from book 『after 1999』 (Syoudensya co in Japan) by Suzuki>

.....
Separation of the two pole would have been evolving more and more. After 1988, people would have been more and more being divided into those who are less, but new type dominator and those who are many, but ruled. One operate and rule on all over and the others are operated and ruled without consciousness. Evolving is not only in humanity, but also in the nature. As humanity would become so, also the nature would reveal big change in earth and universe. After 1989, humanity would encounter and access to unprecedented huge catastrophe by universe. In my youth, I wrote it in the "Mein Kampf". Somedays, mankind would have been terribly revenged from the nature. It is the state after 1989. Mankind would have become boast to break natural law, so the nature would have revenged them to cause them disasters.

Which is to lead mankind to a supreme state where none could have imagined.

After 150 years since I was born, the supreme is coming in 21 century, for which I can clearly visualize by astral sense. It's a incredible supremeness.

Whether those may be superficially democratic or socialism nations world, substantially NAZIS would have been ruling in both of those nations by competing and killing with our NAZIS weapons. The society would have become what I had been wishing, as stronger ruler dominate weak major. Then is also a era of convulsion of nature.

Mankind would have been terribly revenged from the nature. Also the climate would have been divided into severe cold and severe hot, fire and ice, big flood and big draught, both of which would alternately attack on earth.

Mankind as being of now would not have been at that time, because till 2039/January, mankind would have evolved to something different from now mankind, or they would have been degenerated.

(2)Jucelino Nóbrega da Luz's future prediction(2040~2043).

Jucelino Nóbrega da Luz.-Website(news in English version).

<http://www.jucelinodaluz.com.br/english/index.htm>

The letter to Mr Al Gore(1988).

The enviromental problem that await future generations must be resolved now,or life on this planet will be extincted in 2043.
and our ,planet can "F ry" untill 2040...

(3)Arctic Scientist told a possibility of (decadal scale).

<http://www.independent.co.uk/news/science/vast-methane-plumes-seen-in-arctic-ocean-as-sea-ice-retreats-6276278.html>

"I am concerned about this process, I am really concerned. But no-one can tell the timescale of catastrophic releases.

There is a probability of future massive releases might occur within **the decadal scale** , but to be more accurate about how high that probability is, we just don't know," Dr Shakova said.

(4)Author's coarse calculation by physical modeling of methane eruption in Arctic sea floor(few decades).

http://www.777true.net/GLOBAL-DECLARATION-WAR-on-CARBON-with-Geo_Engineering_Part_C.pdf

P(30,31,32/35).

(5)Author wish more precise analysis on the above mentioned model.

[3]:From Prosperity as strong delusion to Poverly as strong will to co-live !

From the vanity Elites now to righteous Leaders for coming future?!

From no Repentance(Correction) to yes Repentance(Correction).

From the upside down World to Righteous World(by global turning).

(1)The established WEST elites(subs of Bilderberger)wishing status quo seems to have been wishing war(operation ENDGAME) !!!.

They never have been refering **the Methane Emergency(Wild Climates)**,because the countermeasure need emergent global turning to **denev carbon energy regime**.The countermeasure is to take **extremely severe austerity policy for people**,which turn to hesitate them in the action<innetia of vanity prosperity=the conservatism>.After all,the elites now will not admit own past fatal fails, but claim nothing fails

<**no repentance(correction) in the strong delusional<upside down> world going toward hell**>.

Although,unless the coutermeasure,we would be in supreme hell for long time, **which would become evident more and more as time goes on**.

(2)Now you should survey **outstanding challenging persons hitted by the establishment in order to make global solidarity !!**.

Certainly the problem we facing is not so easy,but decisive to survive.Then people would be devidened to those many who become despair and less who become aggressive to challenge the problem.Although,even the former could not easily opt to suicide and would encounter severe future livelihood. After all ,most of such them could not help to become the latter challengers in facing the deadly future reality.It is **the deadly reality** that would change people to challenge as time goes on.

Then especially note that time for salvation is not so much !!!.

[4]:Planet Cooling Technology .

(0)Stop to global suicide by Abom war(Armagedon). None never be trapped by any provocations(=false flag wars).

This is possible !!!. Israel and Iran are not to fight with,because they had commonly known their historical responsibility.

(1)Arctic Geoengineering for intercepting heat transfer to methane catastrophe(method of coming heat shielding and heat output enhancing as for ice lid in Arctic).

This effective technology must be established **within this year !!!, Author beg all of your cooperation !!!!!**

(2)Emergent non carbon energy=A possibility of Hydrogen Gas generated by CDW(charge density wave radiated by nothing energy by N.Tesla) in order to establish substantial non carbon energy regime.

$0 = + E(\text{available energy}) - E(\text{negative gravity field energy}).$

CDW could break chemical bonding in water to generate hydrogen gas. **Author beg all of your cooperation !!!!!**

<http://www.777true.net/BWG.pdf>

*This site now has no description on **chemical effect by CDW**,which is to be upload before long.

Emergent oceans surface cooling by deep sea cooler water :

Once having the realization could start cooling to establish stable global climate,however the implementation size is outrageous !!!.

Author beg all of your cooperation !!!!!

Truly yours.

motoji-suzuki@key.ocn.ne.jp ,

(7) Risk of abrupt or irreversible changes Anthropogenic warming could lead to some impacts that are abrupt or irreversible, depending on rate and magnitude of the climate change{p53}.

http://www.ipcc.ch/pdf/assessment-report/ar4/syr/ar4_syr.pdf

(8) "No one can say right now whether that will take years, decades or hundreds of years," she said. But one cannot rule out sudden methane emissions.

<http://www.spiegel.de/international/world/0,1518,547976,00.html>

(9) See P45/45 which seems to suggest both

http://cdf.u-3mrs.fr/~henry/presentations/hydrates_paris6.pdf

(10) What will climate change do to our planet? : This is our future - famous cities are submerged, a third of the world is desert, **the rest struggling for food and fresh water.**

<http://www.timesonline.co.uk/tol/news/science/article1480669.ece> (no link at now)

<http://www.777true.net/What-will-climate-change-do-to-our-planet.pdf> (Japanese tr)

This was unique, only, first and last site having revealed terrific reality of **people's daily life in the coming wild climate (hell world)**. Maybe, in the later, he recognized **non-being of upper 2°C world**, which might have made no link at now. However, reader had better to read full paper. It could not be too sufficient saying that **without imagination of coming climate reality** is having been allowing idle in countermeasure against climate becoming wild.

(11) Prediction report of ice cover diminishing in 2013 in Arctic.

<http://www.beyondzeroemissions.org/2008/03/24/Dr-Wieslaw-Maslowski-ice-freesummer-arctic-2013-or-sooner-loss-of-reflectivity-non-linear>

(12) 神代康隆, 神の計画書「黙示録大予言」, 学研. 1983, Tokyo.

Mankind has been being conspired to be extincted by some secret mad cult. Prophecy is not accurate predicting, but has been being conspired to be realized so.

(13) **Hitler's grievous prediction on future world**(Japanese).

http://inri.client.jp/hexagon/floorB1F_hss/b1fha400.html#04 <the some extractions>

* After 1989, mankind would have gotten more and more diverged into two type. One are less but new type rulers and the other are most, but ruled.

* NAZIS would have been defeated.

* Then **reincarnated NAZIS military** with strong ally would have come. They would have come with catastrophe of revenging by nature. **It is this ultimate goal.**

* Mankind would have been terribly revenged from nature. Climate would have diverged into two type of fever heat and severe cold, heat and ice, big floods and big draughts, which would have attacked alternatively.

* In January 2039, mankind would have evolved to something else, but not mankind. Or they would have been extincted.

(author)☞: Hitler's basic ideology was **eugenics** and the **NAZIS** was the realization. Note the military industry complex with CIA are just the reincarnated NAZIS. The operation paper cilipp, after the war, imported to USA many NAZIS person who had reincarnated the NAZIS in USA.

http://inri.client.jp/hexagon/floorB1F_hss/b1fha400.html#01 <the some extractions>

* I will tell you what future society would have revealed. At first, filtered aristocrat class would have revealed by survival struggles. And there would be new middle class, ignorant public,

new type of slave, mass for serving others, **not becoming-adult collective**. And there would be **new aristocrat**, special leader upon such them. In this way, there would have established new class regime in domestic and abroad by hegemony struggle process. And then **Eastern would have become gigantic experimental lands**....As the consequence, new European social order were to be created (the words told to Rauschnig).
(author)☞: The Eastern may be Japan the isolated prison nation for **various experiments**.

Historically Japan had been nation without being invaded by nothing effort, so they are too naive to protect exterior temptation or isideous manipulation by Western. And also recent western nation people seems to have become well resemble to betrayer and tail wagging Japanese. Hitler loved dog because they hate own fellow and are obedient to master.

(14) **Arctic Geoengineering by AMEG (Arctic Methane Emergency Group).**

(15) Direct Solar Heat Usage for cooking and bathing,

(16) **Water Fuel Technology.**

<http://waterfuelcell.org/index.htm>

<http://www.panacea-bocaf.org/meyerswatercell.htm>

<http://www.panaceauniversity.org/Ravi%20Cell.pdf>

* This converts to 4.66 CC of H₂/sec which converts to 16.776 Lits / hour 16.776 x 2.4 watts (Faraday/lit/hour generation) = **40.262 Watts.**

Ravi seems to be generating the equivalent of 40.2 watts as per Faraday with just **6.12 Watts.** This would mean he is **generating 550% excess** as the above works out to $40.2/6.12 \times 100 = 656.86\%$ $656.86 - 100$ (Faraday) = **556.86% OU !!.**

(17) **Charge Density Wave Technology.**

<http://www.777true.net/BWG.pdf>

* Now author is trying to describe **chemical effect** (water splitting) **by CDW.**

<http://www.777true.net/Water-Electrolysis-by-Charge-Density-Wave-could-Create-Energy.pdf>

WFC uses ordinary water **without conductive electrolyte**, this is not a common Faraday (DC = **direct current**) **electrolysis process**, but the WFC uses charge density unipolar pulse wave (**CDW**) with resonance effect with High Voltage to split the water molecule. Then CDW can be radiated **by nothing input energy** but except dielectric loss of water. Now author try to expose you that.....

[1] : **CDW could be radiated into water by nothing energy but conductive loss one.**

[2] : **CDW could generate hydrogen gas from water splitting .**

[3] : **As the consequence, output energy of generated gas could be more than input one.**
