

GLOBAL DECLARATION WAR on CARBON with Geo-Engineering

(part_B: The Serious and Emergent Realities
of on going Climate Disasters in the World)

You have been entirely deceived,
The fact is terribly upside down !!

PART-B: The Serious and Emergent Realities of on going Climate Disasters in the World.

At first people not in disasters should be blamed for not try to know their sin that their dairy carbon emission has been causing climate disasters at every where in the world.

[B1]: Disasters Category:

- (1) Extreme climates: intensified Draught, Flood, Typhoon-Hurricane devastate **Life Infrastructures and Agriproducts**.
- (2) Sea level rise invade **landsink** in coastal line and ilands nations by Glacial retreat and Shrinking ice sheets,
- (3) Ocean acidification attacks **carbon sink ability decline** of ocean, which would be fatal.
- (4) Declining Arctic sea ice cover is to cause **methane catastrophe possibility**.

[B2]: Serious, Emergent Realities at almost nations in the world.
