—Global Confidenses the Trial<climate & economy the emergent crises>—

Now facing global and unprecedented {Climate Change Catstrophe(CCC) and the Economic Downturn yielding abrupt and tremendous poors}, we had better to reconsider current global regime competitive and excess doing **the cpitalism**. It has no more time to escape form the emergent crisis coming soon. Above all, people must exchange their established thoughts to **genuine facts** as first as possible.

#### Introduction:

A Spaniard banker facing the global financial crisis said "the **lack of confidence** in the total is causing an almost total parylysis from which no-one is escaping<<http://www.breitbart.com/article.php?id=081221154025.lrw134xi>>.

President elect Barack Obama facing both economy and climate unprecedented crisis said **genetic reseach** will be among his top priorities.

<[http://rawstory.com/news/2008/Obama\\_Science\\_key\\_to\\_our\\_survival\\_1220.html](http://rawstory.com/news/2008/Obama_Science_key_to_our_survival_1220.html)>.

A Phillippine sociologist obeserving the global crises refered to"option for **global social management** or("and" by author) **globa social liberation**".

<<http://www.fpif.org/fpiftxt/5765?message=Not+a+valid+email+address> >

Above all, making total confidense could not help to be a genuine, fact, reality, actuality and truth. Yes, only genuine (science and ideology) could realize it!.

Then sometime, a fact is extremely incovinient not only for minor people, but for all of people. If you recognized and allowed them, author will try to describe **facts the unfavorable, but the emergent necessary**. Since the world almost people has been teribbly decieved by giantic and long historical falses. Therefor, above all, you must **exchange** your brain of past stubborn contents into new genuine ones.

If it was a truth, the value entirely never depends on whether person who tell it be king or beggar. Fundamental situation of scientists is merely a **messenger** who faithfully reports facts told by solution of equation, or by experimental instruments. In this report, author tried it being as scietifical as possible, so he employed method that scientific facts are derived from **standard thoery** or at least its prolonging roots, and as for ideology(how to live), they are derived from **religeous revelation**. In anyway, author tried to suppress to employ own peculiar opinions, however to say so, *some uncertain assumptions* are inevitable, thus its sucess or failure would be entirely depend on **reader's correcting**.

☞: [exchange](http://www.777true.com)<<http://www.777true.com>>to <<http://www.geocities.jp/sqkh5981g>>.

**[1]:Genuine Science and Religion never contradict with each other !!:**

**① Everything is due to logic the supreme science<kernel key of contradiction>:**

If something went in trouble, it was caused from wrong, mistake, and false. Thus the unprecedented crisis of now has been caused entirely from gigantic wrong. You must survey the wrong without any prejudice and must admit them frankly. Those are all called **contradictions** caused from simultaneous both being of truth and false. Especially human being is likely to do mistakes by illusions.

(1) This world is constituted from affirmative and negative, night & day, good & bad, Any concept never can be recognized without its negative being.

(2) **Non-contradictional nature of the ordered material world:**  
A merchant said, this spear can penetrate any shields, and this shield can protect from any spears. Then a passerby asked him, try to thrust the shield with the spear!

Any both affirmative and negative proposition never can realize simultaneously. It's an essential nature of **the material world** in which, we never can observe simultaneous **realization(=true)** images of affirmative and negative stage.

**(3) Basis of Material Science the causality with incompleteness:**

Once it becomes non-contradiction, a cause=A shall determine unique and only result=B, which is called **causality**.

Assigning input=a, b determine output=c

Assigning input=x determine output=y

<b>A (cause) → B (result)</b>
a + b = c. : algebra
x → f(x) = y : function.

☞: Yes, in this world, there are many so called **probabilistical phenomena** which are due to **information lack**. For example, you never can tell the largest number.

**(4) Basis of Religion the allmighty:**

What is negative of material world?, it's the **vacuum world** where anything become possible. **The logic theorem** states that allowing contradiction enable anything becoming **true** (a realizability).

**It's the allmighty world!** It is the world where anything of both {+a and -a} are realized so they are cancelled with each other. These facts can be proved in elementary particle theory. The more details could be seen in these site.

<<http://www.777true.com/Firstproblem-USA.pdf>: Appendix A2>.

<<http://www.777true.com/Jucelino.pdf>: not English, but Japanese>.

As was mentioned, it is the allmighty world, that is **the other world of God**.

(5) **Prophecy by Revelation the scientific validity:**

It's become possible by communication with the other world of allmighty. The communication is possible by **B wave** <<http://www.777true.com/BWG.pdf>> or so called **astral projection** <<http://www.777true.com/Jucelino.pdf>>.

☞: The full explanation needs a book contents volume, though they are summarized.

The kernel concept is entirely up side down. That is, physical vaccume world is not mere an empty, on the contrary, it is **comeplete full world** where anything of both {+a & -a} are realized so they are cancelled with each other to be zero. For example, an elementary particle and its pair of anti-particle {+q & -q} are created from nothing <their physical quantities are  $\pm$  symmetric to be cancelled with each others except mass energy cancelled by gravitational guage particle>, and are instantaneously anihilated to nothing. Not only elementary particles, but also **any of their compounds** such as {+H & -H} must be with the pair in vaccume. The fact is strictly proved by so called Quantum <Guage> Field Theory (QFT). Then H could be even a **humanbeing** of us, so it become a validity of **astral projection. B wave** is a space propagation of such {+q & -q} called dipole, of which fact is also proved by QFT. Humanbrain is tranmitter and reciver of polarlized B wave due to activities of **electrically charged neuron cells**.

Left figure is called **vaccume polarization** reaction of creation from nothing and of anihilation into nothing. It is universal nature of physical vaccume world. .... is gravity of nega-energy.

② **Emergent prophecies by Jucelino Nobrega da Luz the great Brazillian prophet:**

<<http://www.jucelinodaluz.com.br/>>. It is Portguise, then Google translator is available. He is substantially authorized by the UNITED NATION.

(1) Encontering him last year on TV show had entirely changed recent activities of author. It is the **climate change crisis (CCC)** which has not been comprehended well by most of global people induldged in competitive bussiness activities.

"Prolonging the current situation would cause our extinction at 1943".

The time limit of changing people's decisive mind is 12/31/2007. In 2008, ice cover had been melted in the north pole ocean, which is very serious.

Even though, there still be possibility of relife, author think so.

By anyhow, it could be possible by reducing atmospheric Green House Gas (GHG) concentrations with **growing vegetation in ocean and land**.

(2)The actual rate of CO2 reduction is **80%**, while Kyoto Protocol is mere **5%**.  
☞:This is evident by counting up so called **carbon budget**=(emitt-sink)ing.  
<[http://www.globalcarbonproject.org/global/pdf/GCP\\_CarbonBudget\\_2007.pdf](http://www.globalcarbonproject.org/global/pdf/GCP_CarbonBudget_2007.pdf)>  
emitt9.0(7.5)-sink4.9=4.2Pg in atmosphere increasing/year. Then the rate is  
4.2/7.5=56% which is less as 25% due to stopping **current excess momentum**.  
Even such stingy 5%, people were quarrel against with each others. Thus most of  
climate scientists had become silent with deep disapair in state of **ensemble  
mind synchronization**(a thousand IPCC scientists). Yes, 80% could not be no more  
ordinal, it's a very bitter **war time regime without war**. Then how to realize the  
global emergent regime ?, an idea is <<http://www.777true.com/GREATCHANCE.pdf>>.

☞:Listen music "Save the children" in album What's going on" by Marvin Gaye  
(1971), in which he songs, "Who's willing to try to save the world that's  
destined to die !". <[http://en.wikipedia.org/wiki/Marvin\\_Gaye](http://en.wikipedia.org/wiki/Marvin_Gaye)>

(3)It is our giantic failure of causing such serious state of now,  
so we need mind reforming by deep regrets. Above all, destroying the great  
mother nature is painfully regretful. Modern technology is good at making  
lifeless goods, while it is terribly agaist lifefull fields. It is our silly  
ability.

Since a civilization causing own extinction is entirely up side down !!.

☞:Note that a conspiracycal world become up side down in order to decieve  
massive people<Allen Daress, technique of conspriracy(not read by author)>.

(4) So once again we had better to return to as possible life as in full nature.  
Now author is calling for great migration of people into village life.

### ③The Apocalypse:The symbolic revelation of St John.

In the past, the Apocalypse of the final judgement(doomsday) has been variously  
debated among experts. A kernel is "sudden realizing" of the thousand year  
kingdom of bliss. The kingdom is told to be establishd when old regime dominant  
of Satan against Messia would have been destroyed. Satan is often related with  
number 666 which means incompleteness, or ruin. Then a modern civilization  
causing own extinction may be said imcompleteness of Satan. That is, at least  
modern humankind after the industrial revolution, they might have become member  
of Satan groupe. Remarkable feature of Satan aginst God is up side down.  
Facts are often found to be up side down.

☞:Heart Sutra's a kernel point is that material world is **up side down illusion**.

#### ④ Satan rebelled against God's command of bowing to Adam<Al Qur'an>

I am higher than them, because you made me from smokeless fire, while Adam were made from clay. Thus Satan was throwned into hell maze for long time. Then note that curious **methan clathrate** is a kind of ice containg dense methan gas and is fired without smoke. Commercial **oil and gas** having realized modern era and is considered the evil compound causing climate change crisis(CCC) and may be a kind of smokeless fire. Note that

(1) Satan consider himself higher rank<**nobilitism** (the hereditary)>.

Note that high status person who fear own decline tend to become Satan.

Therefore, for social stabilty, people must be equal in God.

(2) What Satan dose is often **up side down**<opposer against God, **deceptive** world>.

(3) Satan is **hate groupe leader** against religeous humankind.

He had become hatred against God and his faithful humankind by the banishment.

Bush(connecting UK imperial,...)entirely satisfies above three conditions.

It is told that in USA, there exist two opposing major powers. One is **military-industry compelex with CIA**, they connect also with nobilities the hereditary (**imperial**s). They organize nationalistic **rightist terrorisms**. Their danger and anachronistic ideology consider that nation and the people are being exploited by the nobility the dictator due to their eugenic ideology(Hoegell)<sup>(1)</sup>. They also tend to think that revolution is more terrible than war defeating<F. Konoe>.

The other power is international entrepreneur's groupe who against former power. Howeve to say so, they usually has been making compromise.

(4) Nothing is making person more cruel than fear of person in crisis of own decline. Japanese emperor Hirohito decided to make war against USA(1941) even though he knew little possibility of win. Akimaru organization<sup>(4)</sup> estimated possibility of winning war by economical method and concluded defeating. Then his most fear at that time was domestic revolution by spiking out nation people's frustration by withdrawing military force in China.

## [2]:The Capitalism Reconsideration:

### ①It's the end of an illusional history of capitalism:

(1)Anything has own upper limit,so also economic growth never could be exception.

This theme had been debated in the Rome Report(**the limits to growth** in 1972), in which they forecasted a catastrophe by unstable exponential increasing.

<<http://www.clubofrome.org/eng/home/>>. In any advanced nations,method of capitalism has been wellcomed due to **full liberation of people's desire**.

(a)Though they had too much done to cause own extinction by climate change crisis.

(b)Simultaneously they had showed miserable vulnerability of capitalism causing global abrupt and tremendous people's poor by the economic downturn.

It is too stupid in high technology era that none could make regime of stable employment opportunity(or **livelihood security**).On the contrary,old time had more stable job getting chance than now.Our all of efforts has been intending to secure own life,while being sentenced jobless instantly causes its denying.

CCC is also too stupid to cause own extinction.**All of those are up side down !!**

Those are entirely due to selfish corporate instinct in mechanism of capitalism.

They has been no thinking on the total stabilized and ordered system due to localized thinking<accelating egocentrism>.

(2)The actual current state of global climate had already come nearly to a point of no return.<Certainly this conclusion needs more accuracy in science view>.

Prolonging current roots would cause own mass extinction in few decades.

(3)The effective final relief could not help becoming **global rationing economy**.

Because **the effective Carbon reduction rate 80%** never be realized by ordinal ways.It has to become global war regime without hot wars.

☞:The validity of outrageous **80%** is as follows.The thermal capacity of globe is almost the huge amount of **ocean**,of which response is very slow as in few years.

Hence,a temporal budget balance could not assure to stop natural source emitting increasing due to momentum of temperature rise.That is,so called **spontaneous feedback** now has been acting.

To stop it,the excess reduction rate such as 25% must be necessary.It could be said that an incomplete action could not be effective at all.Many recent reports are likely to tell pessimistic,however,it is not that we had lost means at all to recover in the principle.

## ②The outrageous difficulty in most people minds:

- (1)For ordinary people, exchanging thoughts is far difficult if they had been for long time in illusion of pleasure. Yes, it is a special kind of **narcotism**.
- (2)Outrageously difficult problem is not only narcotism, but also so called **ensemble synchronous paralyzing in thoughts with the narcotism**.

A man tends to synchronize his opinion with **overwhelming others**. It is not that they synchronize with important truths. This is well-known vicious experimental law in psychology.

## ③Divide and rule people without sincere communication with others:

It is not only a problem of fascist nations, but also superficial democratic nations. In the author's view, there is no nation of genuine democratic nation on earth, or at least as far as he knows. Europe and USA have been dominated by persons who are almost colleagues with so-called minor establishments and hereditary. Their most concern has been protecting his high status from decline. For the purpose, they had developed various methods of dominating people with deceiving. One kernel of those is divide and rule strategy employing in dominating against colonial nations by UK. In modern era, people has become rather rich with competitive and busy business, so they tend to be lonely except workplace. As the consequence, they tend to become more politically isolated with others. A lonely man is likely target of brain washing by workplace and mass-media at individual home. Because they have no information source except workplace and mass-media, all of which are connected with network the capitalism center.

## ④The gigantic conscious corruption and decadence of global mass media:

### (a)the original aim of global mass media:

The commercial mass media at era of abrupt capitalism growing with that of communism had been created and oriented to **mass deceiving** people of labourer class. Yes, they have been originally and essentially anti-communism. Today they are mere well-fashioned messengers of the capitalism center. Current thoughts of people are results of sophisticated brain washing by them. Consequently most of people has been subconsciously in relying on capitalism regime (perhaps partly due to failure of USSR and other communism nations), and they never can think of another possibility of social regime except those who really are awakened and have very intelligence. Even though most of such them are rather idealistic, but not actualistic partly due to the dogma of classical Marxism. That is, no theory evolution in Marxism fitting today's situation.

As for **many essential and serious up side down facts**, those throughly rejecting by them are now described in our website<<http://www.777true.com>>.

(b) **inducing ensemble synchronous paralysis:**

The 9/11 event may be a typical exmaple where almost people now has recognized the outrageous fact that it was caused not by Musulim terror but by Bush themselves in order to flame up the excuse for invading middle east area. In conspiracy world, its entirely ordinal that fact becomes up side down for **mass decieving**. Then problem is now when almost people had already known fact, while they could not effectively act to **establishing justice at a whole**. Why do they so?. Its caused from people devidened and paralyzed facing unprecedented outrageous fact that own nation killed many own nations people. <See [4](3)>. Now we outsider could not help to expect their future.

(5) **The giantic unconscious corrupse and vulnerability in education regime:**

The most remarkable feature of today the global high technology era is an **excess expertization** of people who are ignorant on unconcerned field knowledges.

The most typical and serious example is the CCC(climate change crisis). After all, people are not becoming intellectual as for total problems, but ignorant even on their serious survibal problems.

(a) In any nations, they has been making efforts in education for seeking more rich living. It may have been caused especially from supeficiall sucess in USA where unprecedented prosperity had realized in human history by technology and commercialism due to high performance educations. It also entirely has been caused from American capitalism the exess competition and exess consuming.

(b) Once people had recognized many serious results of truthes mentioned in [1], global education could not help to exchange their contents from ancient one to new genuine one. That is, the recoverization of religeon.

(c) After all, most of our efforts in modern technicalized era has been against with the essence of religeons which has been ordering us modesty and honesty. At any rate, we had too much done in technicalization and commercialization.

Modern technology is good at making lifeless goods, while it is terribly against lifefull fields. It is our silly ability.

(6)By anyhow,once we could have reformed our minds,we could do anything.

Then the minds must be once again synchronized with all together in necessary global actions.

(7)As has been seen in above,author could not mention anymore except one which are simple principle like matters.

**[4]:The mind of high society : entrepreneur,high level official and nobility.**

In [1]④(4), author disclose the essence that nothing is making person more cruel than fear of higher level of persons in crisis of own decline.A very ugly aspect of history is how much they has been making outrageous conspiracies against their opposer considered to cause their status decline.Especially monarchism, capitalism and dictatorship in fascism nation is the worst.As for this problem, it should be concentrated in that of today of capitalism the international with hidden threatening of coming fatal the CCC(climate change crisis).

(1)A champion's work is unique to defend his status against many challengers.

Essential cause of **the stubborn & fatal conservatism** is entirely due to it.

(2)Marx appealed **solidarity** of people in **the labourer class**,but actually to tell,it is **capitalist class the international** who had made it.

(3)For example,"**Freemason**" the wellknow international secret society had been established by elites of nobility and their subordinates.They had succeeded to establish **international personal connections in dominating class** of each nations.Also **skull & bonds** the ultra right wing had become famous due to evil Bush and his colleague<**CIA & the military industry complex(MIC) in USA**>. They has been deeply connected with establishment of NAZIS and CIA.The latter had been done by secret importing of NAZIS persons after the war<paper-clip> Then note Bush is **kinship with imperial UK** connecting also that of Japan,etc. Consequently USA superficially democrat nation had become **invisible fascism one** by their sophisticated conspiracy networks embedded in dominating class of corporates and beurocrat.Typical example is the assassination of J.F.Kenedy in which they hid true criminal(CIA &MIC).Also Japan occupied by USA after the war has been entirely similar status. Refer many concerned books or websites.

Their cruel and anachronistic ideology is nation and the people are being exploited by **nobility bureaucrats the hereditary**.Its entirely invisible anti-democracy and anachronistic movement with **conspiracy,violence,and wars** even in modern era.

Also note era without wars is mere a white paper of history, it's too tedious to be suitable for humanbeing (by G.W.Hoegel\*). Thus their conclusion is **perpetual war time strategy flaming up enemies including even global Climate Change Crisis**. \* W. J. Dulant, the story of phylospy, 1926, NY. USA.

Why such outrageous matter could be told?. It is evident that any of **their mass media** has not disclosed reality of the CCC the unprecedented emergent crisis with possibility of mass extinction of us.

(4) Maybe they consider also even **ownself extinction** with many many peoples.

Why such outrageous matter could be told ?.

Since **the CCC** would become possibility of mass extinction of us , which would not allow even their survival. **If not, then what the CCC would do ???**.

**Yah !!, this is the most kernel point of view in present for everyone.**

☞: People are deividened to those who dominate and who are dominated.

This is called **Satan ideology** relating above mentioned in (3).

That is, we could not win without overcoming Satan. Then note that Bush's retirement is mere a beginning to win.

**[5]: The solidarity making to overcome the evils.**

(1) As has been mentioned in above, **we the global popular class** now has been defeating at all as for **the solidarity making to overcome the evils**.

(2) Then the **nucleus** of making solidarity should be selected but **decisive facts** only by which people could make necessary and emergent unite with each others.

(3) Selecting fact must be due to genuine and scientific and genuine ideological (religious) one. For example, author selected them as the 1st: People are equal in God.

the 2nd: People could be free by securing food, housing and energy.

(4) The problem is releasing **total synchronous paralysis on the emergent facts**.

Please read introduction words described in the top page of this website.

Once upon a time, author engaged in truck driver happened to join a labour union by seeing their advertisement board and soon retired it. Then the representative gave me farewell words toward my back. **It's solidarity making !**. Once upon a time, author engaged in factory electrical engineer and soon retired. At that time, he happened to see veterinary advertisement "gifting cat". Then the madam gave me farewell words toward my back. **Make her happy !**.
