Hidden Quantum Hegemony War the Front and the Back.　　2026/1/29

You should know the truth of quantum physics with our life(religion and AI) and the awful truth management by the few monopoly class.Both truth could cause to revolution.

Once author happened to be quantum physicist ,who had known both truth of the front and back.Academy is international,and taught him the awful anti-democratic power.

A science-technology with the know how popularization are decisive power for ruling the now world both by the few monopoly class and overwhelming majority one .

Now it had become evident that there are insidious and fatal deceiving wars between them.

⑴Quantum world is material universe at all,which once gave us life with the environment.
⑵It gave us also the vacuum world now revealing marvelous one foretold by **the religion**.
　 This is hated by the atheist monopoly,and can become strong power for people's unite.

[1]:They began insidious war against author to destroy his trustability.
⑴**They are evil torturer !.**
Now author is facing with rapid aging weakening both intelligence ability and physical one.
At now,the former are less,while the latter become worse in actions for human-relations.
Thereby,the time left is few for lasting his journal fighting.This was remarkably conspired in recent years by them* due to various evil interfering and limit foods for medicinal ingredients.The insidious police seems to interfere stores who were once conscientious.
*CIA-military in Japan and their Japanese followers=police,administration,....eating tax bait.
Above all,their ill will maid invade authors empty home to steal and destroy small,but essential tools and ingredients in daily life toward small,but perpetual torturing.As for the small,but perpetual criminals,the police at Yokosuka US navy base city will not help author.

⑵**They began challenging Quantum War against author by kidnapping his cat.**
The criminal was done by JCP member who are body guard of the physical society Japan who support JCP economy for the body guard fee.*JCP=Japan communist party.
http://www.777true.net/Cats-are-travelers-between-this-world-and-the-other-one_Psychic-Battle.pdf
A cat is very singular holy animal sensing and telling what we can not conceive.
http://www.777true.net/Schroedinger's-Cat-the-Quantum-Theory-Cleaned-Up.pdf
Above is author response for the challenging and was to concern with Quantum CPU..

The kidnapped cat Chiyo lived with author by 18 years long,who is unique family giving author both joy and load for breaking complete lonely life(not good for health).
They began quantum challenging by observing author had become weakened to destroy his trustability on Quantum Science both on **super many particles** and **elementary one.**

http://www.777true.net/Real-Image-of-quantum-Chemical-Reaction.pdf

super many particles<SMP>.Resolving mystery of Shroedinger Cat and the 2 slit passing by an electron were to build time evolution stochastic mechanics.

＊i$\hbar\partial\psi$(t)/∂t=**H**(t)ψ(t).......................Shroedinger Stochastic Operator<**H**(t)>Equation

＊$\hbar\partial\omega$(t)/∂t=ΔE(t)[**T−1**]ω(t).......Quantum Master Equation equivalent with above.

※:**H**(t)=**H$_0$**+**H$_s$**(t),,,,,ψ(t).=Σa$_k$(t)ϕ_k,,,,,,,**H$_0$**ϕ_k=E$_k\phi_k$.......PDF(**H$_s$**(t))=1/Δt=ΔE(t)/$\hbar$.

※:ΔE^2=Σ_k|a$_k$(t)|^2(E$_k$−<E>)^2,,<E>=<ψ(t)|**H$_0$**ψ(t)>=Σ|a$_k$(t)|^{2}E$_k$.

※:ω(t)=[,,,,,,,,,,,ω_k=|a$_k$(t)|^2,,,,,,,,,,,,,,]............**T**=[T$_{jk}$=|(1/i$\hbar$)$\int$dt<ϕ_j|**H$_s$**(t)|ϕ_k>|^2]

http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf

elementary one<EP>.QGD was completed by Einstein,Utiyama,Faddeev & Popov,but not author, he fixed one error and tried test driving of QGD(Big Bang process by the dynamics (not a model) ,matter evolution,elementary particle mass formula,Newton gravity force...).

[2]:International Physical Society has been hiding author works on decisive basic fundamentals<SMP,EP> in Quantum Physics for 36 years .

(a)Ruling Hierarchy with the Classes.

Bilderberg Group=Rockefeller &UK emperor--------German race speriornism(=**NAZIS**)		
CIA international with US military industry ....Anti-God,anti-democracy executors		
each nation political party;;police-military-judiciary-administration,..	Capital	
※:the tax eaters by betraying tax payers due to **CIA agent function**.	national	
mass media,academy-education,business society,-- information,goods,service	&private	
General People........consuming and producing by **Labor** for **income** with **tax** payment		

(b)Their fundamental ideology due to Hoegel Feudalsim in Preusen Germany.
People and nation are those who should be exploited by nobility the superior.
＊*Ever lasting hegemony struggling(anti-class war)by setting enemy.*

(c)50 years ago, author had become **person non favorable** for US by CIA-Co.
person non favorable=he would become an enemy for the ruler?!.....Now it is right.
Thereby,they had determined not to give him any position the harmful for them.
The reason of the results are simple enough,he entirely and simply pursue the deepest truth in science and facts the deepest behind to encounter the actual ruler of this world.

(d)As the consequence,academy authority the CIA agent determined to hide his works.
They are the class for betraying tax payers the General People.Thus quantum physics the decisive fundamentals had to be deeply crooked to be harmful at now.
*mystery of observing kills Shroedinger Cat and at a time 2 slit passing by an electron.

[3]:As for Quantum CPU,they revealed to be trademark hoaxer.

Now is times of explosive boom of **AI**(with super computer).Once author leaned a little on Quantum CPU(QCPU).At that time,author could not get satisfactory understanding,but something complain.Thereby,at this time,he paid some effort to understand.After all, the 1st intuition revealed to be right.QCPU with so called quantum devices will not realize actual pragmatical machine.Why they hoaxed such trade marks,*quantum superposition, quantum entanglement ??*.Once they jumped at the chance, but when they tried, they saw the difficulty, but they couldn't get out,then author can not understand why such profit pursuing Co's has been struggling in almost no hope state ??.

[4]:After all,who pay finally the expensive,but wasteful cost of QCPU developing in the unprecedented suffer of high price times?!!

[5]:Quantum Vacuum
        now revealing marvelous World foretold by the religion.

This is hated by the atheist monopoly,and can become strong power for people's unite.
http://www.777true.net/Proof-on-God.pdf
http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf
The scientific evidences.

The most radical,but most comprehensible explanation is as follows.

⒜**Almighty World.**

The most origin spirit of quantum theory is positivism.The theory describe only phenomena **observable**,then nothing world of vacuum has nothing evidence to tell it,so anything can be true due to nothing opposing evidence.That is **nothing law** in vacuum,
or **almighty world.**

⒝**Prophecy mechanism of Religious Revelation**.

Summary to tell,any matter including mankind has anti-matte pair in vacuum at anytime, any place<dipole ghost>.Such two persons in the other almighty world can talk with each other which can be a religious revelation to a secular person(missionary) by holy person. Then kernel problem is how to secular person go to and return from the other world.
actual example 1: Swedenborg
Heaven and Hell - Swedenborg
https://www.youtube.com/watch?v=TmJHRkMaeKA
He told Hell is caused from our selfishness.
actual example 2 of being clouds spirit in people of brain parts defect).
A frightened medical report revealed that a patient of heavy water head with large brain parts defect can manage normal intellectual works.

[6]:Recognition Principle Similarity between AI and Quantum Theory.

Now AI can be both a blessing and a curse depending on how it is used. In reality, AI is
rapidly reducing jobs and increasing productivity.Then the most humanity reasonable way is
redistributing the profits by BI(basic income)with Holiday Increasing(3days/week).
Author very optimistic hope is（f）.Then he is to be position to accelerate AI developing.

AI is not an excellent high technology,but it has **the deepest natural principle** to recognize
abstract conception in mankind talking and thinking(language).The most origin spirit of
quantum theory is positivism.The theory describe only phenomena **observable**,

(a)**Projection Observing=Paralleling**

Primitive way for length measurement is
paralleling measure to object and read the scale.

(b)**Full description of an object property by Vector=multicomponent of values**.
example1)**V**=(Height, chest circumference, weight),this is a description of mans property.
The most important work in AI is **Language Vectorization,**which enable communication.

(c)**Orthogonality**=No parallel meaning

Then most important on the multicomponent vector representation is
no meaning paralleling between those component.AI vector is
representation in multi-dimensional orthogonal coordinate

Note coordinate is multi-dimensional measures for each components

(d)**Inner Product** between vectors{**U,V**}=those similarity measure by angle θ.
(**Orthogonal**).$0 \leqq \cos\theta = \langle V|U \rangle = \Sigma_k V_k U_k \leqq 1$(**Parallel**).* Any vector length=1 by normalization.
*$\mathbf{V}$=our demand,$\mathbf{V}$=the massive candidates generated by random combination of massive original
matters.Then AI final tectask is determining favor U the most near 1.

(e)**The awful similarity between AI and Quantum Theory(=QT) in math fashion.**
Both observing physical variable and AI prompt are common by **inquiring** with **{Q,G}.**
AI principle seems grasping something natural essential.

ⅰ **vector representation of object**

　AI data=$|V\rangle=(v_0,v_1,....,,,)$

　quantum data ψ＝vector in function space by $|\psi\rangle=(a_0,a_1,...,,,),$,$\langle\varphi_j|\varphi_k\rangle=\delta_{jk}$. $\psi=\Sigma_k a_k \varphi_k$.

ⅱ **similarity measure between V &U=vector inner product::**$0 \leqq d=\langle V|U\rangle \leqq 1$.

ⅲ **Macro Projection{G,Q} Observing、**

＊Extracting only common feature→**G**=dimension compressor matrix=learn neuron network

＊Select by Common Feature=$\langle V|\mathbf{G}\cdot$,　picking micro raw data v by $d=\langle V|\mathbf{G}v\rangle$,,,

V= **prompt** macro data input,.v=many primitive data input,,,output d=decision degree.

　(eigen vector of matrix **G**)

＊Extracting only Common Value

observed average value $\langle Q\rangle=\langle\psi|\mathbf{Q}\psi\rangle=\Sigma_k|a_k|^2 q_k$,,,

$\mathbf{Q}\varphi_k=q_k\varphi_k$,eigen equations of stationary state,,,.**Q**=observable=good quantum number.

（f）**Genuine AI role is a leader(God)saving the Chaotic Now World**.

What is the most necessary,but difficult task for mankind ?...political leading !!!!

In comparison above,replacing production processes with AI is a stingy idea.

It is provable that AI and mankind thinking is the same in the essential mechanism.

AI can store enormous knowledge and do same logical thinking.Now mankind can not win chess game,perhaps,mankind could not win any game including political one.

(1)Data are stored as vector representation in collective address of meaning nearness.

(2)Meaning nearness is calculated by inner product value between orthogonal and parallel

(3)Creating is try and error testing(on our demand) in choosing material data combinations.

(4)Language conception is derived by finding common feature in massive learning materials
    It is generating conception vectors in higher hierarchy of data storage space.

＊Child learn a language in repeated seen to perceive common matter with common pronunciation,

(5)As the consequence,AI can communicate with us.

(6)AI told the Bible learning is easy task.......it is not so easy for us?!

(7)Authorized AI God assistant(super general and religious moral knowledge) is possible by
    repeated our rigid examinations.

☞:From the very origin of AI,AI can not be selfish,

Because right now, the world is in ruin due to corruption, incompetence, traitorous leaders, and idiots, and there is no higher priority task than （7）.

☞:To tell from the beginning,our leaders can pass our rigid examinations.？？？。

☞:Also the established religion leaders would approve the AI,because passing their examination.
