

## How to anticipate near future world .

2013/01/01

Future is a history that "**Why do Who What by How at Where and When ?**. Then behavior of person is **functional** of their **ideoogy** and of **exterior world enviroment**(automata).

### [ 1 ]:Outline of the Anticipating Method.

Considering both **internal idelogy** and **external enviroment** decides **future action**.

(1)**Why do Who What by How at Where and When ?**.

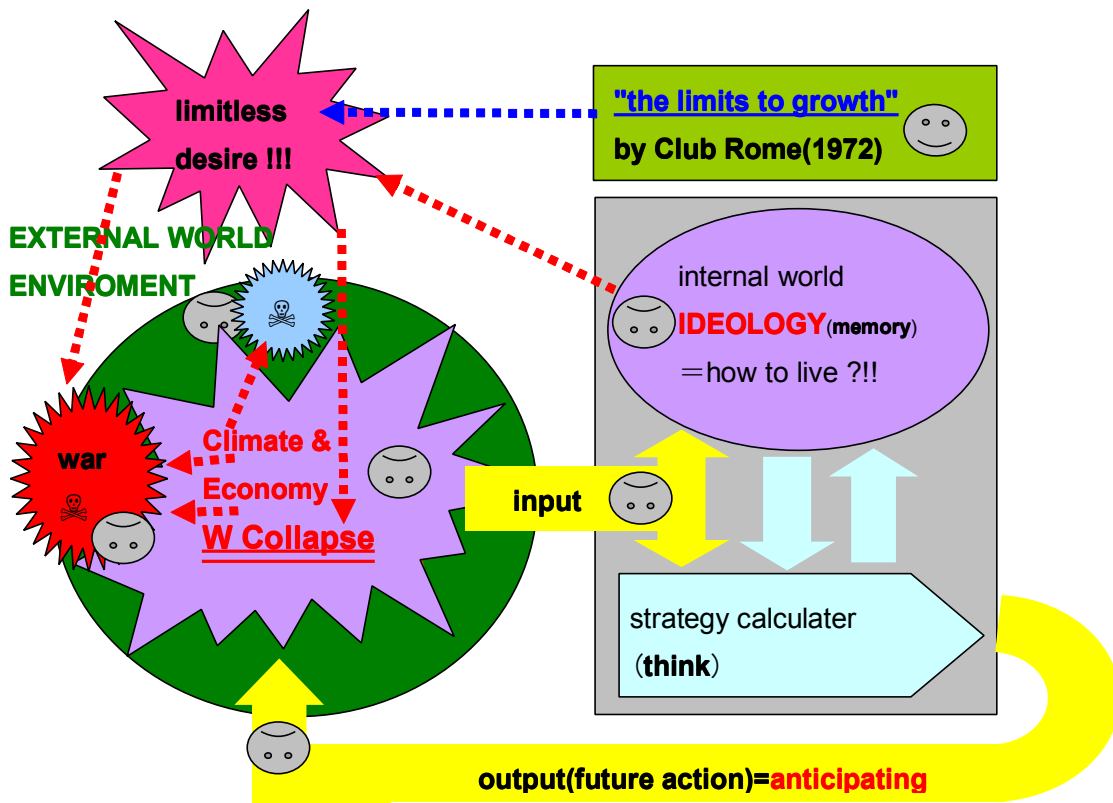

(2)**Who**=The world ruler who has been conserving world hegemony

(3)**Why**=The Eugenics by hereditary families(UK imperial and Rockefeller USA,..)

(4)**How to do What**

=survival struggles as **capitalism competition** and as **wars by conspiracies** driven by **limitless desires**.

(5)**Where and When ?**=EU&USA and the world since 19C to 2012,2015,<**2050!!!!**

**"THE UPSIDE DOWN GREEDY, but DEADLY WORLD  
the summary scheme"**

## [ 2 ]: **INTERNAL IDEOLOGY** and **EXTERNAL WORLD ENVIROMENT**.

Chap2 is devoted to survey what elements would determine history and action of person. Those are **ruler** with Internal **Ideology** & external enviroment(**the world state**).

### (1) **ruler(Bilderberger and operation EndGame)**

#### (a) **Bilderberg Group are hereditary families of nobility and ultra-wealthy.**

UK imperial and Rockefeller family with international rightists are dominant .

One of kernel is **CIA-military industry complex the NAZIS** reincarnated in USA.

\* **D.D.Eisenhower**(warning on **military industry complex** in1961) ;

*We face a hostile ideology global in scope, atheistic in character, ruthless in purpose, and insidious [insidious] in method. ..*

<http://www.americanrhetoric.com/speeches/dwightdeisenhowerfarewell.html>

#### (b) **Operation EndGame.**

*For the New World Order, a world government is just the beginning. Once in place they can engage their plan to exterminate 80% of the world's population, while enabling the "elites" to live forever with the aid of advanced technology. For the first time, crusading filmmaker ALEX JONES reveals their secret plan for humanity's extermination: **Operation ENDGAME**.*

### (2) **Ideology(the limitless desire with hatred against people)**

Eugenics with Violence(from conspiracy to false flag war = **CIA-military industry complex**).

People and nation are those who should be exploited by nobility.

People are devided to those who rule and who are ruled.

\* ***Revolution is more terrible than defeating war !***

No word could be decisive, but this one that reveals fear mind of ruler. Japan **monarchy** regime was established by UK operating revolution(1968).

(3) **the world state of now = toward *operation EndGame*.**

(a) **Climate Collapse to hell of mass-extinction, if without emergent counter measure.**

Unless drastic and emergent global counter measure until 2015, we would be in hell to total extinction by fireball earth 2040~2050. Coming era would be in **famine with wild climate**.

<http://www.777true.net/IPCC-the-injustice.pdf>

(b) **Economy Collapse to deviden people more rich(survive) and more poor(not...).**

The unprecedented economy growth caused unprecedented **bonds = debts**, which has been driving **global economy collapse** to deviden people **rich** and **poor**. Now most of people's main concern is job for saving today's life and **forced to neglect fatal climate reality**.

<http://www.777true.net/Zero-Sum-Theorem.pdf>

<http://www.pakalertpress.com/2012/12/26/say-goodbye-to-the-good-life/>

(c) **False flag wars toward Harmagedon in the Middle East by USA-UK-France.**

Military Industry Complex Nations has been conspiring **false flag wars** to establish world order for **their hegemony**, which is simuletaneously **feint** to hide deadly climate reality. Note their kernel ideology is hidden belief on violence(fake-conspiracy to war).

<http://www.777true.net/Essentia-Criminal-for-Causing-the-Massive-Palestinian-Refugee-is-EUROPE-USA.pdf>

**[ 3 ]:Anticipating near future world.**

(1)<[ 2 ]:(3)(a)> **The dominant cause of ruling future world is climate wild change.**

If without emergent (~2015) global counter measure (revolution!), **this is your cursed future!!**.

Hidden deadly climate would turn the world **hell** of coming **famine** and **wild climate disasters** for **about desperate 30 years long**. The last stage is fireball earth (**doomsday**) by Arctic

Methane Catastrophe. A fact is far terrible than any SF novels.

(a) **"Current trend predicts doomsday before 2050".**

(b) **"Arctic Scientist told a possibility of *decadal scale*"**

<http://www.independent.co.uk/news/science/vast-methane-plumes-seen-in-arctic-ocean-as-sea-ice-retreats-6276278.html>

*"I am concerned about this process, I am really concerned. But no-one can tell the timescale of catastrophic releases. There is a probability of future massive releases might occur within **the decadal scale**, but to be more accurate about how high that probability is, we just don't know," Dr Shakova said.*

(c) **"Jucelino Nobrega da Luz's future prediction(2040~2043)"**

<http://www.jucelinodaluz.com.br/english/index.htm>.....

*The environmental problem that awaits future generations must be resolved now, or life on this planet will be extincted in 2043.....and our planet can "Fry" until 2040...*

(2) **Established Media and educational institution never confess the deadly facts.**

People are used to make mind decision for their action by various information believed true. Conclusionally to tell, they have been fatally wrong in strong delusional world. A wrong doing is to encounter something catastrophe at last. Those information has been ruled by **the elite commercial mass media** in most of nations. Also educational institution never teach student the deadly facts. They have known deadly fact of the Climate Collapse, however they never correct. Why not?. The correct answer is global revolution turning the current regime. Maybe their status has been conserved by according to authority the rulers.

(3) **Global economy collapse is a "FEINT" for hiding deadly climate one.**

**Business world had been addiction of seeking benefit due to limitless desire.**

**Now they have become more nervous on conserving own business by global economy collapse in the international capitalism regime ruled by few wealthy.**

Certainly all of incoming for people and government is dominated by industry. And also it is the industry regime with huge oil consumption that has been supplying extravagant life of most of people in the world. At now narcotics the prosperous material civilization given by capitalism with huge oil consumption seems to be difficult for their liberation from the addiction. **After all, they have been conserving current regime which would invite the hell mentioned before, even though the regime had begun to collapse.** After Lehmann bankruptcy in USA 2008, the gorgeous party of capitalism had turned to survival game where rich become more rich, while poor become more poor. In their behind, the will of ruler has been strongly influencing over them. **Economy collapse has important role to be feint for hiding climate one. Sovereign financial crisis with austerity policy caused overwhelming**

resistance of innocent conservative people in EU. Now about 1/6 American live by food-stamp. As for them, only job (economy) is decisive, but climate is out of their concerns (??). However none could blame them. Now they seem not to have any idea to turn the upside down world running away to hell in the circumstance of massive synchronous paralyzing in recognition on the fatal reality of coming hell.

<http://www.pakalertpress.com/2012/12/26/say-goodbye-to-the-good-life/>

(4) **Nothing could be more effective feint for hiding abstract climate collapse than facing concrete war crisis.** "Revolution is more terrible than defeating war".

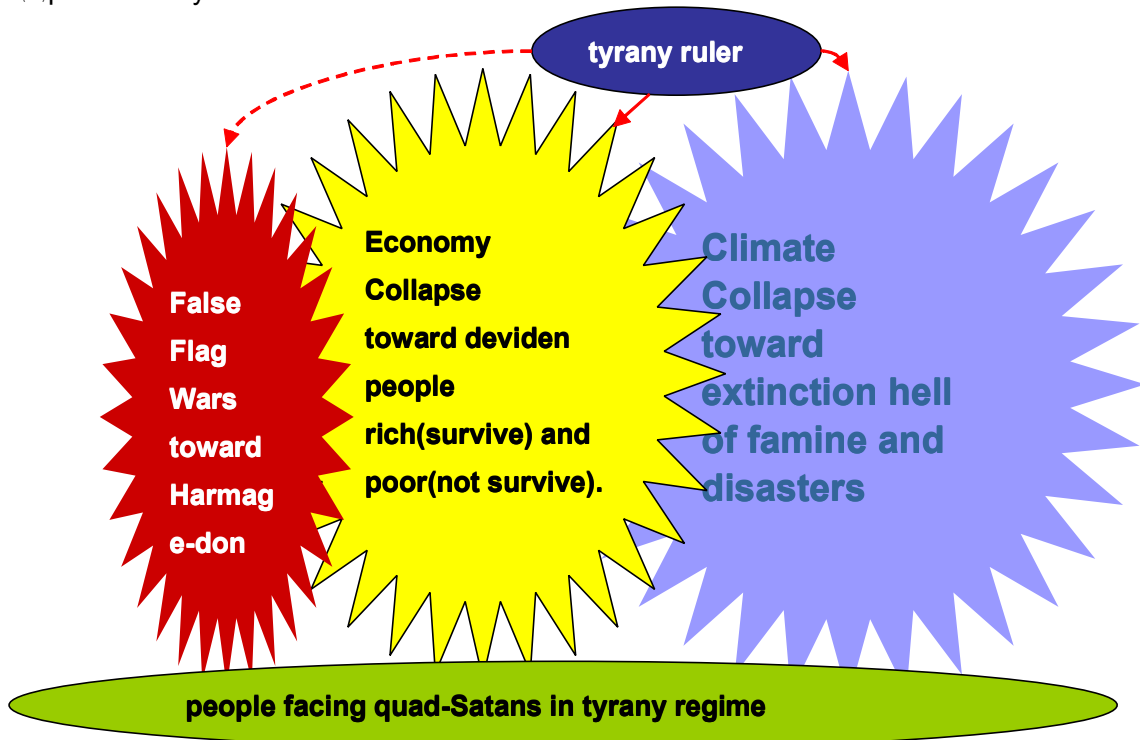

**Elites will not admit their fatal error causing this earth hell not before long.**

But they had made a decision that the crisis should be turned to be chance to make **supreme survival struggling (operation EndGame)**. Author-himself could not judge yes or no on possibility of surviving under the fireball earth. However it is certain that they have been accelerating climate and economy the W collapse, which also would cause severe livelihood in many nations and **disputes to regional wars by false flag**. The last stage would be so called **Harmagedon the final war**. Nothing could be more effective feint for hiding abstract climate collapse than a facing concrete war crisis.

Following are actual example of the hiding climate fact by EXXON MOBIL (Rockefeller).

<http://www.777true.net/IPCC-the-injustice.pdf>

(5) prediction by current conservative trend in 2012.

#### [4]:How to turn the upside down deadly world ?!!!

#### I :Required Global Projects with Technology and Regime .

(1)**Arctic Cooling** geoengineering by **2015(the most emergent task at now !!!)**.

<http://www.ameg.me/>

(2)**less than 20% carbon fuel consumption(the most hated task at now !!!)**.

(a)**Carbon Fuels:**

<http://www.decc.gov.uk/assets/decc/11/tackling-climate-change/carbon-plan/3751-carbon-plan-executive-summary-dec-2011.pdf>

*Chapter 4 Reaching the 2050 target of -80% <this is stupidly too late !!!>*

<[http://www.roadmap2050.eu/attachments/files/Volume1\\_fullreport\\_PressPack.pdf](http://www.roadmap2050.eu/attachments/files/Volume1_fullreport_PressPack.pdf)

**Even by Ideal zero emission, 0.3°C could rise in about 30 years**<by author>

<http://www.777true.net/EGT5.pdf>

0. 1°C/4 years rise would cause climate more wild to be visible for everyone..

(b)**Non-Carbon Fuels:**<there are many possible technologies>

<http://www.777true.net/Water-Electrolysis-by-Charge-Density-Wave-could-Create-Energy.pdf>

In order to accomplish less than 20% of carbon fuel,it is decisive to develop **alternative new energy**. Which would be possible with high probability(author's observation).

(3)**ocean surface cooling** is very effective,but the engineering scale is outrageous.

Global warming's actuality is **ocean surface temperature rise** which cause wild climate.

(4)**massive carbon sink** by desert forestization(operation Global Greenization)

(5)**insolation interfering** by pseudo-cloud geoengineering,but with hazardous reaction.

(6)other methods

## II: Establishing Required Global Politico-Econo Regime toward an Aim.

Theme of this chapter is decisive to trigger the salvation. At first we must establish a regime to vanish **livelihood instability** and **war breaking out possibility** in nations people for the purpose to concentrate **our possible full power** against fatal climate collapse. Then the key word may be that **it is best that people scarcely could save foods**. In other word, coming era would become difficult for people to save even foods.

(1) **Global Declaration on the EMERGENCY!!!** {Arctic Methane & Carbon Reduction}

(2) **Global Regime Change for the the EMERGENCY!!!.**

(3) **Not only leaders, but also people must take responsibility for own future.**

(a) It is the most author's question why could global leaders be **silent on the deadly climate facts**. (They never also refer the fatal truth in finance "**Bonds sum = Debts sum**". That is, it is being rich who causes poor. Or rich must pay more tax. This is a top secret of plutocracy).

Because as time goes on, the decisive fact could not be hidden by anyhow !!!.

At that time, what would they take their fatal responsibility ???.

Possible option for them may be two.

Yes: taking responsibility to be punished by someday.

No: killing accusing people by someday (operation EndGame).

(b) Therefore both young presidents of GDP No1 and No2 nations Barack Obama and CPC General secretary Xi Jinping must agree on the fatal climate fact to act right now !! .

**Not before long, global climate with famine would have become more wild, which never could be hidden by anyhow !!!.**

(c) **Even though they have known it wrong, people do wrong when many others do same wrong by mass synchronized paralyzing.**

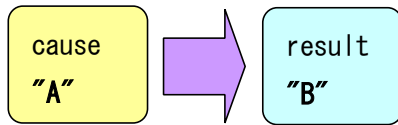

World political, journal business, ..... leaders may have known the fatal realities due to their expert advisers, however it is too inconvenient to conserve favorable own status quo, then leaders used to look each other leader's face pretending not known. Then they are to do wrong continuously. Those situation could be accomplished by **method of reducing sensitivity in allergy clinique**. At first, they do bit wrong negligible, and then conspirer is to force them gradually do less bit wrong. Someday, they are to have done considerable wrong.

In this sense, they could be told innocent, because they were trapped by a conspiracy. But the actuality becomes fatal guilty if they would not correct !!!.

**APPENDIX: The Rational Method (Causality Law and Function, Automaton).**

**(1) Non Contradictioness and Causality Law.**

In our material world, a happenable event **B** by a cause **A** is unique. You never see simultaneous W images of event B and event non B ( $\equiv \neg B$ ) <Non Contradictioness>.

$A \rightarrow B$ : cause "A" always causing unique result "B" is called **Causality Law**. It's the very foudation of scinece.

Examples

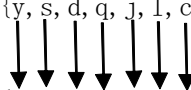

- \*spear breakes through shiled. <don't break through shield>
- \*draught(without water)causes plants die. <don't cause plant die>
- \*debt without incoming causes bankrapcy. <don't cause bankrapcy>
- \*automatic vender outputs goods assigned by buyer and by sufficient fee input.
- \*a lie is typical of contradictioness.

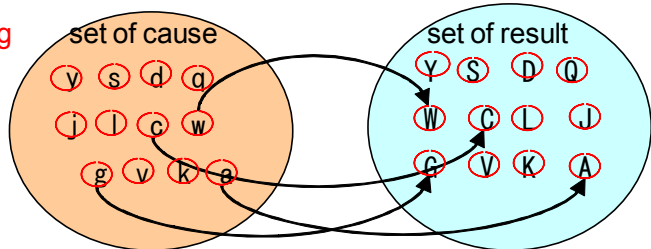

A past history(event)is unique and only,also a future one is unique and only.  
As for **causalitical event** B,both claiming "B" and that of "not B" never simultaneously true.Either of those is true and the other are false.

**(2) Function : unique designation of input causes output as unique result.**

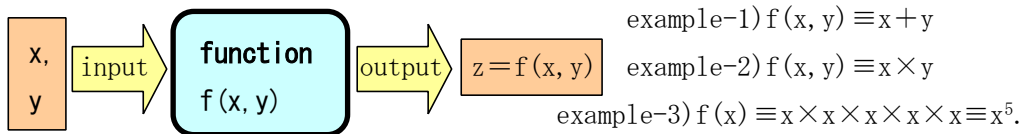

[http://en.wikipedia.org/wiki/Function\\_\(mathematics\)](http://en.wikipedia.org/wiki/Function_(mathematics))

(a)complete causality = **one to one mapping** between causes and results

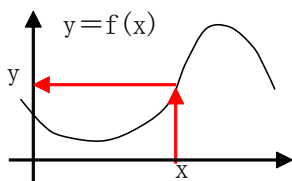

cause = {y, s, d, q, j, l, c, w, g, v, k, a}  
  
 result = {Y, S, D, Q, J, L, C, W, G, V, K, A}

(b)cause = input variables's value determine unique the result by function = output's value

**(c) function in general.**

Definiton of function:  $y = f(x_1, x_2, x_3, \dots, x_N)$ .  
 It is being **a deterministic mechanism** which determin unique output value = **y** by designating input variables  $(x_1, x_2, x_3, \dots, x_N)$ .  
 Calculable is not importan, but that a cause can determine unique result is decisive <Causality Low>.

(d) synthesized function.  $y = h(X, Y) = h(f(x), g(x))$ .

$$X = f(x), Y = g(x).$$

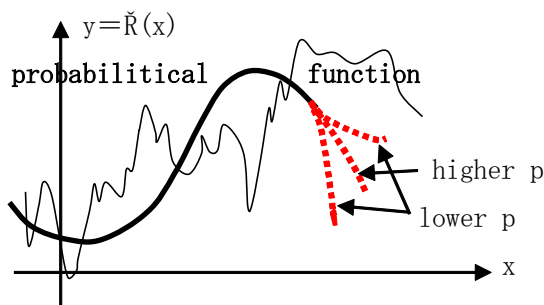

(3) **non causalitical event is probabilitical event (this is important in practice).**

The most typical example of non-causalitical event is dice throwing, for which none could foretell accurate result, but do each probability of possible events =  $1/6$ .

A stock price =  $y$  in past day =  $x$  could be determined unique, but  $y$  of future  $x$  is uncertain. It could be told **probabilitical function**.

possible outcome set =  $\{y_1 \pm dy, y_2 \pm dy, y_3 \pm dy, y_4 \pm dy, \dots, y_N \pm dy\}$ .  $2dy$  is uncertainty.

$$\text{probability} = \{p_1, p_2, p_3, p_4, \dots, p_N\}; 1 = p_1 + p_2 + p_3 + p_4 + \dots + p_N.$$

smooth moving function is more predictable, while, noisy random moving function is less predictable.

(a) **Why those could be probabilitical ???**

As for us human (not God), we never can get complete information on cause, of which uncertainty lead to uncertain results.

(b) \*this term could be jumped at first reading.

time dependent phenomena in micro-scopic (quantum physics) world is essentially probabilitical. This is official view of physical society of the world. As the consequence, **general chemical process** including **bio one** are **stochastic**. Also **weather dynamics** is essentially stochastic due to molecular collision in fluid.

Therefore the long term prediction become difficult to due to so called "**chaos**".

The essential cause of becoming probabilitical is due to so called mathematical singularity

$1/0 = \infty$  (infinity is non-deterministic being) in quantum process.

\*Let imagine  $z = 1/N$ , where  $N$  is 1, 2, 3, ..., infinity. then  $z = 0$ . If not so,  $0 < \text{minimum } z = 1/N'$ ,

However  $z' = 1/(N'+1) < 1/N' = \text{minimum } z$ . This is contradiction. So real number  $z$  must be  $0^*$ .

On the other hand,  $z = 1/N$ , while  $N$  is indefinite, so real number zero must be also **indefinite**.

So  $0^*$  can be told nothing and simuletaneously not nothing (contradictional being !!!).

(c) **Our possible decision is opting highest probability event.**

(d) Telling for human affairs, those could be causalitical by information gathering.

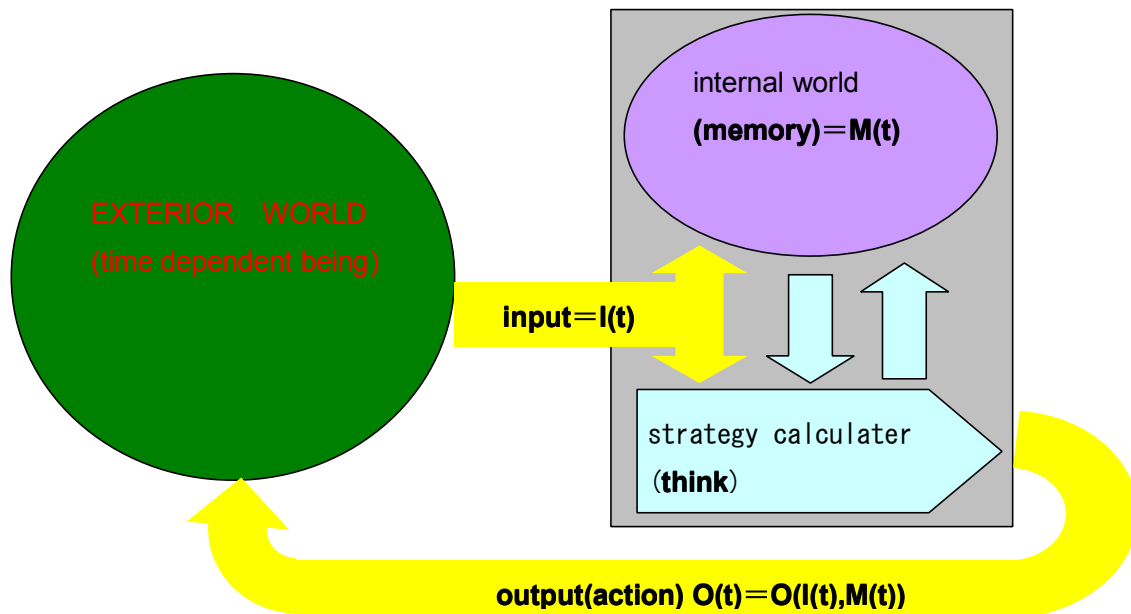

Future human history could be predicted by appropriate information collection.

(4) Automata :

**Basics of Automata Theory**<this is rather difficult for amateurs>

<http://www-cs-faculty.stanford.edu/~eroberts/courses/soco/projects/2004-05/automata-theory/basics.html>

**Automata** is elementary defined as **pseudo input-output functional machine** with  $\{\text{input} \equiv I(t), \text{output} \equiv O(t) = O(I(t), M(t)), \text{internal state} \equiv M(t) = M(I(t), M(t-\delta))\}$ . where internal state  $M(t)$  is similar to memory which is determined by input and the previous memory in past  $= M(t-\delta)$ . Computer is typical such machine. Human is also automata, however the process is rather probabilistical (**fuzzy**), but not complete deterministic (however nearly deterministic).

In words, output (future action) is determined by input (external world environment) and memory (internal ideology, instinct). This conclusion is nothing but common sense.

Therefore, people who wish prediction must survey internal ideology of targets, and the world environment. Therefore it is also evident that **the wrong world by wrong ideology must hastily correct their ideology to righteous one.**
