

08/4/30, 5/1

—WESTERN CIVILIZATION THE GIGANTIC DECEPTION :
THE GLOBAL THERMLIZED CRISIS HAD ALREADY BEEN KNOWN
TO THEM FROM TIME ANCIENT—

There is nothing accidental, but all is intentional in history (F. D. Roosevelt).

If it was true, then what would **the climate change crisis (CCC)** be ?.

Now the time is attention on the economic growth in Asian nations, for which white Europe-American opinion seems intending to put Asian responsibility of the global warming (GTC). As for the responsibility, almost the accumulated GHG (green house effect gas) had been caused by them (advanced nations), especially **America** is the overwhelming worst nation. If you carefully surveyed various affairs concerning CCC history, you could find **the many fatal deceptions**.

The conclusion is extraordinarily upside down that the world now has been in an gigantic illusion caused by subtle, gigantic but fatal temptation called material prosperity due to mainly caused and accelerated by the competitive capitalism.

It is quite analogous to a sort of narcotism being paralyzed to self-ruin.

❶ CAUTION at the INTRODUCTION.

Telling fact is not unusual to cause someone becoming hatred. Some case might cause serious conflict between them, and also it is not rare that such case had been a trap for making excuse for evoking conflict-itself as their wish.

In the world, there is definitely a certain force who wish ever lasting struggles.

Even though being such dangerous possibility, author dare to say that desirable outcome must be their correcting their affair-itself accused.

Since a **deception** (error and lie) shall absolutely causes certain kind of **catastrophe** in order of system the concerned.

It entirely a logic theorem <CONTRADICTION and SYSTEM ORDER RUIN>.

② The beginning was words for the definitions all deceptive.

<<In the actual world, a contradiction is dominant entirely in words>>.

(1) Do you have suspicion on the words such as environment, being friendly with earth, ecology, global warming, etc, all of which sounds as if they were something abstract, softly, slow and mild. Though the actuality is entirely upside down. They would become awfully bitter before long if the status quo would be prolonged. "It would be evident when Arctic permafrost begin to thaw. Then the process would release potentially catastrophic amount of methane in to the atmosphere. And also they say it was "too soon to tell" if the increasing signal an Arctic thaw" <N. Y. Times, 08/4/24>. Supplementary to tell, it has already become fact that Arctic had begun to thaw, and methane is stronger GHG effect (trapping and reflecting thermal radiation from and to earth) than that of CO2. That is what they (IPCC scientist in Valencia '07/11/17) said abrupt and irreversible disaster.

☞: The article does not refer to the detail of methane emitting from Arctic. To tell from as far as author knows about them, Arctic permafrost thawing, at first, cause temperature growing of sea in positive feedback acceleration, then it evoke attendant thawing of methane-hydrate in the seabed and in the northern lands especially Siberia. That is, the distinction of polar bear might become also an introduction to that of human being in southern districts. Actually to tell, east Africa had already encountered such hell.

(2) The evil mass media never release such serious warning to massive public.

Though author happened to cite above (1) from big mass media as NY. Times, people in general never be known such news in daily life by the media, as was mentioned in the context of (1). After all, information dominates historical process relating people, so they are to be the most accomplice.

(3) The especially notable facts warning the crisis.

Author consider them who revealed for the sake of humankind. In anyhow, all of (a)(b)(c)(d) seems to be all religious.

(a) The prophecies in the holy Bible⁽¹⁾ <the detail shall be in the later>.

(b) The prophecies in Al, Quran⁽²⁾ <the detail shall be in the later>.

(c) The Rome report <limit to the growth (1972)>.

(d) The Brazilian prophecy of Jucelino Nobrega da Luz⁽³⁾⁽⁴⁾.

- (e) Swedish Chemist Svante August Arrhenius had found CO₂'s GHG effects in **1896**.
- (f) Kenji Miyazawa fairy wrighter, Lotus sutra believer, and agriculture enginner who had already known CO₂'s GHG effects even in 1932. Lotus sutra may be most closely to Islamism teach in people's equality. Lotus sutra believer had positive attitude for politics. Their ideology is devotion, though, one of the believer Kanji Ishihara had been initiative leader on invasion to China.
- (h) [Jamse Hansen](#), NASA scientist who testified the global warning at **1988** in Congress of USA.

③ Thermal irreversibility in physics the historical view.

(1) Newton dynamic equation is reversible by reversing accelerating force on mass.

Then motion may become time reversal.

Though, a heat flows from high temperature point to lower one. They never can be spontaneously reversible by anyhow without external means (such as refrigerator).

If it could, so called perpetual motor can be made by thermal method.

- (2) Consequently, scientists had been suffered in finding cause of irreversibility. The challengers on irreversibility were all cursed such as [Boltzman](#) of tragedy.
- (3) Even in 20th century, they had made up incorrect theorem for irreversibility.
- (4) After all, it was found to be **lack of causality law**. Imagine that you buy rail way ticket by throwing two dice, one of which determine go (odd) & back (even), the other determine stepping number of stations, you may notice it hard to get back starting station. After all, microscopic world do move as so.
- (5) Due to such affairs, the time evolutionary equation for collective of molecules had not actually absent until **1988**. And also they had concealed my discovery of genuine theory, when author had known actual aspects of international academy. Thank to them, then author and his concerned had to encounter hell. Why so ?
- (6) That time had already come to point of beginning debate on global warming. Author had substantially been enforced house arrest situation since then by restriction on income and legal right so on.
- (7) In this world, there are person who had known their future not by ordinary science, but by extraordinary way (such religious prophecy since ancient era). They might be two groups of angel and satan, each of them has been against with. Retrospecting author's own carrier, both of them had invisibly influenced on him to activate certain direction. Then such they seem not to necessarily be only in this world. Ofcourse **angel are the patron of humankind**, therefore, it is you who opt angel or satan.

(8)**Time and Energy(heat)** <acutual aspect of their duality>.

For being day, night must also be, for justice, also evil,....., thus, this world is constituted from affirmative and negative, which is called **duality**.

Complete monotonous being is nothing, since humannbeing never recognize something without its complementary being(duality). It can not be noncontradictional logic of affirmative and negative. Hence nothing is **contradiction** which can be out of logic restriction. It is simuletaneously the world of allmighty being.

Hereupon, people must know fast changing time of modern world which is entirely due to the consuming huge energy by us humankind. In the past world, anywhere change was slow tempo due to small consumption of energy. This fact can be expressed strictly in dual nature in dynamics (canonical conjugation of physical variable "time and energy"). Then it also proved that quick change need more energy, stable slow change needs less energy by physics view point.

(9)**The supreme final stage of energy is heat(thermal activation).**

Energy transforms its appereance as kinetical, elctirical, atomical, chemical, .., but they finally has become thermal one(heat). Then heat tend to call for severely their equality as temperature distribution in space, as is analogous for wage in man world. If equality had been broken down, there must be something flow to establish equality. **Thermal disturbance** is seen in bottom of boiling kettle. Inner side of boiling kettle is small actuall model of thermalized globe.

(10)Then note amount of man consumed energy itself is entirely no concerned, but GHG emitting is to cause break down of in and out flow of **gigantic sunshine energy**. It is quite analogous to break down of sewerage. Consequently, thermal temperature itself and the local inequality on globe shall cause various flow disasters such as typhoon, hurricane, flood, drought and sea level increasing.

(11)Then the shortage of foods, water, etc and housing shall attack our living basis.

④The deep aspect of humanbeing and religeon as warning for people :

①The tale lost paradise of Aadm and Eva :

By God, Adam and Eva were given paradise where they could live without suffer of labour, but they were ordered not eat apple (fruit making man wise). However they had broken the promise by subtle snake tempting. Thus they were thrown down from paradise to where they had to work to live with suffer of labour.

-The Holly Bible Old Testament-

God is allmighty being, but humanbeing is always incomplete. Even though, such defect of incompleteness of humanbeing, they were to become arrogant by their Intelligence accomplishing prosperity of civilization, however such incomplete intelligence were to cause their own fatal destiny at last.

Then who is the snake ?. It is Satan.

②The tale lost heaven of Satan :

God ordered angels to keeldown befor Adam, then all of them did so, but, only Satan rejected. Then God asked Satan, why did not so?. Satan replied, "I am higher than him, because you made me from fire, but he was made from clay". Consequently, God angried and ordered him thrown down to earth from heaven. Thanks to God, I had been in terrible maze, so I will revenge him by ambush attacking on people who are in straight road to God from side of left, right, front and behind. Thus they would lose thanks and believe on God.

-Al' Quaran chap 7, P204 (interpreted in English by author) from Japanese edition , by original translator Toshihiko-Izutsu, Iwanami bookstore, 1957, Tokyo-

The feature of Satan may be his **allowgance** and **hatred** against people.

Note that his muttering on ambush attacking on people. It is contraversal for who once had been in terrible maze. The acutual is not ambush, but chasing just like as the big migration of German race (4~5th century) from north to south. Thus Satan who against God is the being upside down. To tell for the evilconspiracy world just like as CIA⁽⁵⁾⁽⁶⁾⁽⁷⁾⁽⁸⁾⁽⁹⁾, they often become entirely upside down in order to deceive people who has been clinged to orodinary common sense. An ordinary man is too difficult to recognize affairs being upside down due to clinging to common sense. Thus a deception is to realized as something upside down. Then also note that acutual is sometime more curious than that in novels.

A1:What is becoming rich?: The excess adaptation as vanity competition.

<<The true appearance of competitive capitalism the international>>.

In the following author is to make world commonsense upside down. Reader must carefully analyze its reality. Then you shall notice own incomprehensibility. To see is to believe, and people is likely to be awfully deceived by appearance. Then, what is becoming rich ?,

- (1) Tolstoy said that a happy home is similarly happy, but an unhappy home is variously unhappy. It might be also say as similarity make people happy in certain minimum condition to live. Hence unsimilarity make them unhappy. Then how do we recognize unsimilarity ?, it may be caused partly from their appearance.
- (2) If people became rich enough to live, then what would they do?. They tend to pay much for their appearance (Look at way of king life, their dignity is due to.....)
- (3) Once a person had become rich, what would they be?. Some satisfaction and caution on their status. Some of them may become rather proudly, cold for others with disdain for poor and with caution of own decline (satanization).
In a sense, world of rich become that of superficial **vanity competition**.
It can not be also denied that a discriminatory is partly due to appearance.
- (4) The aim of economic growth is at first satisfy needs to live. That are securing minimum necessary foods, housing, energy. If they had been accomplished, then what would they seek?. Route of more and more luxury goods producing and consuming. Once having accomplished industry to live (food, energy, house), then what's to do? They have to prolong & cling the route making extravagant goods by competition.
- (5) It is the destiny of competitive capitalism the international. It also the destined way to evade people's hostility against the capitalists.
- (a) Corporate (& bureaucrat) monopolism growing with invisible fascism against people.
This had become the most serious problem in USA and Japan.
- (b) Income gap and decadence growing in people by competition and by extravagancy.
- (c) Income gap growing in nations by competition.
- (d) Global hazardous Climate Change Crisis (CCC) growing against people's living due to extravagant competition consuming huge energy with emitting GHG. CCC causes the shortage of resident homeland, foods, water etc for living.
- (e) Hatred among people growing due to above mentioned kernel factors which tend to cause global conflicts among peoples unless option for something co-operative route.

☞: **satanization** is the most serious political-psychological concept in political and economical relation in society. Satan who refused kneeling for Adam by God's order and was thrown down to the earth is considered a symbol of being **discriminatory with hatred against religious people** (lower class people).

(a) Actually and especially high status person has fear for their own decline due to people's demand for equal distribution of wealth (**democratization as class struggle**). Thus invisible dictatorship the hereditary in now world has been conspiring to make people-themselves around them also majority of Satan by economical prosperity of capitalism by the competition acceleration.

(b) Then total sum of wealth is always finite, therefore making certain class of people more rich could not help to make simultaneously more poor people in own nation and foreign nations (**zero sum law**).

(c) **Ruling by plutocrat or money politics:**

In order to win government in voting, a politician is used to need excess money which might be secured not by oneself, but by someone spending money to get favour of candidate. Thus a **plutocrat** nation takes election system which enforces candidate to need much money which is sometime connected with so called establishment class of the nation. The solution is proportional representation system of competition only on **policy** of each party.

(d) As for the problem, answer is obvious that people's equality is universal, since the refusing promptly makes ugly struggle and might become hatred as a whole.

Then notice that give is doing of grown up and take is that of child.

A grown up is the being who accepts their decline. Then **social welfare** is to ensure livelihood of everybody. Such realization is possible due to sufficient total productivity of the now world.

Summary ④: Becoming rich causes extravagance especially on their superficial livelihood which causes their arrogance and caution on their status (**class struggle**). Or **satanization** (nobilitism with privilege, dictatorship) in mythical saying. After all, the evil is to destroy the world unless change had realized by people.

A2: The mad philosophy and their destiny:

(1) **The mad philosophy**—G. W. F. Hoegel—:
(a) The world history is not a stage of happiness, but an era of peace is mere a white page of human history. Since such era without conflict is too tedious to live. It is not suitable for human being⁽¹⁰⁾.
(b) People and the nation is a being exploited by nobility the hereditary.
The above mentioned is written in relating with Skull & Bonds⁽¹¹⁾.

(2) **Military Expenditures in 2006** <<http://www.infoplease.com/ipa/A0904504.html>>

RANK	Country	Spending level (B\$)	World share (%)
1	USA	528.7	46%
2	UK	59.2	5
3	France	53.1	5
4	China	49.5	4
5	Japan	43.7	4

As is seen, USA is prominently dominant. For what aim, is it so extremely expensive?. It's for themselves called military industry the complex (MIC). Hence, their needs is enemy, who was made up even by subtle conspiracy such as 9/11⁽¹²⁾⁽¹³⁾. Thus, by both the philosophy and the actuality, you can recognize essence of the evil—their stubborn instinct of military capitalism **the death merchant**. They are those who have been spreading unhappiness in the world. Without the frank recognition⁽¹⁷⁾, you never can establish any normal sound society at all, which was foretold by [Eisenhower's warning on the MIC \(1961\)](#).

(3) **The Most Optimal Strategy:**

None should make struggle for any aim by **armed force**, but by making democrat majority such as movement by the reverend M. Gandhi and Baptist minister M. L. King Jr the principle of non-violence and insubordination. Thus they shall be destined to self-ruin, since then they tend to eagerly make trap by violent provocation, which shall induce their self ruin at last.

(4) **The necessity of bureaucrat democratization in police, judicial and military:**

Monopolism is not only in corporate activity, but also that in bureaucrat. Especially security and judicial authority become important.

(5) After all, judge on the game is to depend on monitoring on truths by people.

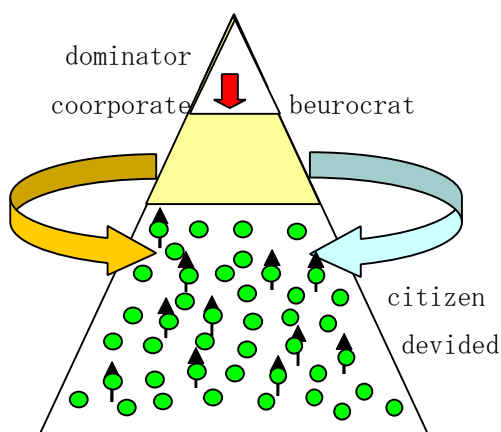

A3: The decisive democrat victory by recognition on truths:

(1) Nobilitism hereditary vs Democracy (as the most optimal strategy):

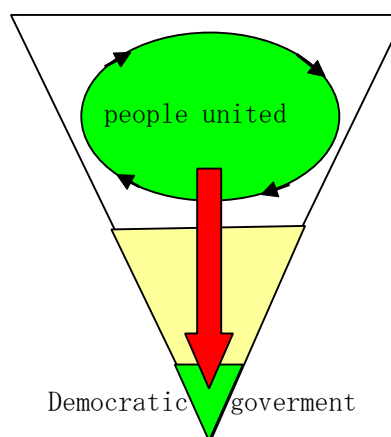

To accomplish maximum betterness of organization, the leader must be adopted only by their ability with equal opportunity, not by their status such as hereditary. Then the leader had been to be grown up in majority of people. Therefore the matrix of leader must be most important in politics.

(2) Evident fact is that people in general is the most major in a nation. Their dominator is minor segment in a nation. Although, they has been under circumstance of suppressions the invisible. The cause is ruling by deivide. Government is dominated by the minor establishment in political privilege.

(a) situation people devided:

(b) situation people united:

(a) represents situation people devided by tempting and threatening on their selfishness which seek only own benefit and neglect care for others.

(b) represents **situation people united** in co-operation with recognition of strategy for optimiing total betterness with care for others.

(3) strategy for optimizing total betterness:

Method for **optimizing certain values in certain restrictions**

possibility of yeilding **unique solution** if **the principle** could be established.

The supremely simple examample may be as follows. Total income S and equal wage= w distribution for P persons are the supposed restriction, the optimized solution is $w=S/P$. In anyway, first of all is **determining the principle for optimizing as democracy by people**. Then the work in following could become that of econo-metricians. That is, political phylosophy is work for people, the computable answer is that of speciallist in coorporate and administration. Then politics becomes competition on policy of **principle for optimizing**.

A4:Warning for mass deception method:

It is not that people do not know facts, but that they know rather well of them, still they accomplish nothing remarkable good results.

Even though they live in the situation becoming worse, they do nothing, Why not?.

(1)Then "feeling too much difficulty" make people tend not to do anything !.

(2)"Feeling too much that most of others do also nothing" make people tend not to do anything !.

(3)Therefore, above all, answer for how to make them "ease" is necessary.

①Low of game:There would be nothing defeat even in onehundred battle, if we had accomplished to know "enemy and ownself"...Sun tzu.

(1){Rock, paper, scissors} is wellknown game and has all of the features of game. To win or defeat is entirely depends on probababilical selcting tactics. If one could estimate better probability of enemie's tactics, win become more possible. Therefore reducing loss of information is decisive. Thus we must endeavor to survey informations on enemy and **ownself** thoroughly. Enemy also do so !.

(2)Estimating enemy's response:<All is changing as time goes on>

Executing our tactics never fail to cause enemy's response, which might be harmful. Thus sequential estimating on progress in struggle is necessary.

Above all, to guess enemy's mind thoroughly is also extremely important.

(3)Fail is frequently due to wrong estimation for ownself:

(4)People can be grown to be tough by trainings.

②How to make large scale deception against people<the general principles>.

(1)Making upside down in commonsense.

"In conspiracycal world, everything becomes upside down"...Allen Daress.

☞:caution that upside down of upside down is not upside down.

(2)"Feeling too much difficulty" make people tend not to do anything !.

(a)Therefore, they do make extraordinary abnormal happening in order to make people' mind confusional and desperate such as 9/11. In other words, It's enemy's very wish, and is being catched in their trap.

(b)Desensitizing treatment method:

At first, information is to be leaked to minor people, who becomes state mentioned in (a). This situation is gradually to propagate, which makes the situation (3). This is callled desensitizing treatment in allergy ill.

(3) "Feeling too much that most of others do also nothing" make people tend not to do anything !?.

(a) People generally tend to be influenced or to accord with movements of the major around them without verifying truths. Though, they are gradually to recognize whole truths.

(b) Then without mass-media propaganda, they are rather in difficult to recognize how many know so as a whole. Thus you know the actual role of mass media now.

☞: Today, people are to have many same informations simultaneously by mass media.

It is so to say **gigantic common recognitions on the world**, which activate them and society. **Thus people's relying on mass media might make them their marionets**. What in the world, who pay their incomes!

☞: Therefore, above all, answer for how to make them "ease" is necessary.

(c) Devide and rule people is their basic strategy, so people never be alone.

Above all, to make reliable friends as many as possible is the best.

Trusting friends is more precious than guarding ownself against betray.

(d) Similar discussion could be seen in this site (COMMON DREAM).

(4) Enemy will attack on our weakpoints thoroughly.

☞: Everyone has own peculiar weakpoints, so self-recognition is necessary.

egocentric, money, sex, health, beneficial & powered position in society, vanity, fame, jealousy, hatred, ignorance, secret, fear, anger, grief, drink & drug, poor, rich, ideology fighting, anything competitive, anything heavy in mind has danger for being utilized in conspiracy when it is known to enemy.

☞: Why such as this report is allowable to disclose ?, since there is nothing for them to take in from this report. They are evil specialists on these problems.

In general, it is people who are not familiar with these problems.

(5) Example analysis <The problem of independence movement of Tibet from China>.

Now the independence movement of Tibet from China is activated at every nations in the world by foreigner Tibetians. A cause is reasonable hostility against Chinese monopoly in commerce, politics, culture in Tibet. Another may be bashing on upstart force as China by the established western world powers.
