

Paris Agreement(COP21)is toward climate hell !!!

2015/12/15

Turning this is the deadly climate fact declaring by global scientists.

(2015/12/13←11/13 is the Paris Attack which banned climate action in Paris streets!)

COP meeting has been being nonsense at all due to **absent of the deadly climate fact**.Policy makers has been excluding climate scientists who know the fact,and entirely pushing responsibility with each others between **advanced nations** and **advancing nations** for long years and making specious agreements which is without salvation.

In the beginning must be **the deadly climate fact at now**,however which has been ignoring since COP's beginning,thereby,it is entirely impossible to establish **salvation regime** by COP.Therefore,above all,**at first**,we need **the climate fact confirmation in global.**

By the fact,necessary cilmate policy could be determined at once !!!!!.Those are ..

I : **Urgent more than 80%CO2 cut in global policy.**

II : **Urgent implementing of Arctic Cooling Technology to stop Methane Extinction.**

All is determined from **fact with logic**,which are nothing but excluding fake and sham.

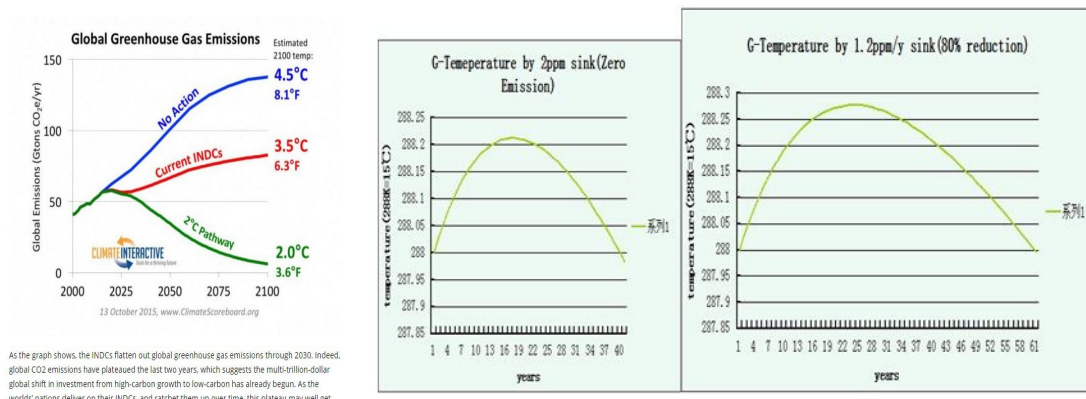

(1)**James Hansen, father of climate change awareness, calls Paris talks 'a fraud'**
The former NASA scientist criticizes the talks, intended to reach a new global deal on cutting carbon emissions beyond 2020, as 'action, not just promises'

(2)Following left graph is also a sham !!!,while right one is!!!.

<http://thinkprogress.org/climate/2015/12/12/3731236/paris-deal-fossil-fuels/>

Vertical axis is not temperature,but CO2 gas emission amount/year.

(3) **Nothing, but only Declaration of the Deadly Climate Fact by Climate Scientists Chorus could urgently convert the World *Business as usual* into *Climate Wartime Regime* !.**

(a) Once climate fact had become clear, climate policy could be determined at once !!.

FACT-1:

To **turn down temperature** need **more than 80% CO2 cut**.

Temperature rise hereafter must be **minimized** to secure climate stability.

FACT-2:

Already Arctic ice vanishing has become **positive feedback process** !!. Which could not be intercepted by **natural**, but only by **man-made Arctic Cooling Technology**.

***positive feedback**: Ice vanishing increases Arctic heat input into the ocean. Sun heat input into the ocean surface increases sea water temperature, which accelerates more ice melting.

(b) It is very curious that COP sessions have been going on without scientists. Only by **Policy makers** (they are delegated from *business as usual societies* and may be **deceived** in **actual climate fact**), they always had been **putting responsibility** with each other between advanced nations and advancing nations for long years and making specious agreements which is without salvation ability at all.

(c) Now very lucky to us all, there emerged strong reliable engineer ensemble who declare **possibility of 100% renewable energy** !!.

<https://www.popularresistance.org/cop21-technology-for-100-renewable-energy-future-already-in-place/>

And also **fossil fuel** can be converted to **liquid H2** by easy way !!.

(4) **Urgent Test Implementing of Arctic Cooling Technology** !!!.

Now author has been trying to call for urgent Test Implementing of Arctic Cooling Technology (=ACT) for many relative researchers and institutions.

However at now, nothing good results are gotten. Thereby he asks also you to try.

The difficulty (**nothing support**) is due to apathy in Governments !!!.

Maybe there is rare person who could admit possibility ACT, even who may know Arctic Methane Extinction Risk. Thereby, also for this problem, pushing government by **scientists chorus** is decisive !!!.

(5) **Conclusion at here:**

Whoever tell whatever, from beginning to end, the decisive main leading factor is nothing, but **climate fact**, as for which, **climate scientists** had known it best by anyone else. Thereby we should have been encouraging them !!!.

APPENDIX: Author will urge France government to held urgent re-conference.

Urgent Holding another COP21 combined Science and Civil Society Site again to Declare the Deadly Climate Fact !!!.

Then note

declaring the deadly climate fact could determine climate policy at once!!.

As for those who know the deadly climate fact, **COP** has been **absurd enough** toward global suicide. Since the global emperor (**prosperity obsessionner at now**, but also unconscious or conscious **suicide wisher at last climate catastrophic stage**) hate fact tellers. Most global people might be the same due to the **deceptions**. Maybe the main cite participants don't know (or silent) absolute necessity of **80%CO2 cut to turn down into stable temperature and deadly Methane Extinction Risk**. For long years, COP debates has been **putting responsibility one another to avert fact**. As is such confused situation, we could not be saved. This is **COP's** absurd reality since the start. Now time left for salvation has become less, so the government are to be death penalty final commander to **humanity**. With rational judgment, **France government** had better admit the deadly facts that also author points out.

by scientists and civil society in main session.
