

## Quantum CPU by Quantum Device is Hoax, but Classical One is not defeated.

After all, quantum devices ((quantum bits and the coupler between qubits) are **electrical circuits** with **Inputs and Outputs ports**, Author could not find any **singular quantum action inhibiting replacement** from quantum devices to normal circuits. 2026/1/25

(0) Computer IC corporate with the designers may notice the Quantum Hoax.

However Quantum CPU design ideology might be useful.

☞: Job invading by the rising AI is terribly hated by almost the people, a possible rapid and strong solution is **Income Redistribution** such as **BI with Holiday Increasing** the New age political ideology.

(1) **Heat Hell** in developing IC in Quantum CPU.

Those are almost desperate trying to implement Large scale IC, the due to awful heat condition of  $T=0.01K$  by heat in circuit power consuming.

$T \text{ rise} = (\text{heat resistance between junction to case} = 0.5K/w) \times (\text{power consuming} = 0.02W)$ ,  $0.5K/w$  is best performance in Power Transistor in Si chip.

☞: **Increasing IC chip area** by the many paralleling with strongest cooling units, with many plumbings, with many cables, would become one large hell building ?.

(2) **quantum entanglement(QE)**  
**the trade mark hoax.**

So called **quantum entanglement=QE** may be hoax making non experts trust quantum the something super (such as *at once giant calculation by  $2^N$  bits*). The historical origin [EPR paradox](#) is entirely a hoax to deceive the nothing interaction to something strong one between separated anti-symmetric  $A^+$  and  $A^-$ . However coupler the deterministic action between qubits are actual as controlled electromagnetic and optical coupler, etc. However quantum devices are too vulnerable in the actual environments.

☞: **Novel prize(2022) CERN researchers deeply related with the QE hoax.**

<https://www.nobelprize.org/uploads/2022/10/popular-physicsprize2022.pdf>

Also Higgs boson is a hoax by CERN with Novel prize(2013).

<https://www.home.cern/science/physics/higgs-boson>

The evidence of the hoax is here by author..

<http://www.777true.net/Troublesome-Illusion-of-Elementary-Particle-Physics.pdf>

## APPENDIX1:EPR Experiment and the Interpretation(QE hoax).

<below knowledge is necessary >

<http://www.777true.net/Schroedinger's-Cat-the-Quantum-Theory-Cleaned-Up.pdf>

① Free particle of no interactions.

\*Interactions occur at one point in space-time, and other points are free particles with no interactions. **exception**):longitudinal scalar force by dipole chains,Coulomb,Gravity Forces.

## ② Passive(a) and Active Measurement(b)

(a)conserved physical quantities<energy state,momentum,...>

Unique being of predetermined without super-position state.

→ resolving Schroedinger Cat Paradox !.

(b)non-conserved physical quantities

Wave packet convergence determined at a time of measurement

<active measurement of **non-conserved physical quantities**

=electron position measurement.>:

<http://www.777true.net/Schroedinger's-Cat-the-Quantum-Theory-Cleaned-Up.pdf>

electron position measurement is a non-conserved physical quantity

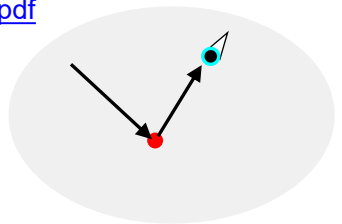

that exists simultaneously at multiple points = a superposition of eigen states,,

\*electron instantaneously and randomly moves through dipole chain tunnels.

→ resolving Paradox of 2 slit passing by an electron !.

In active measurement by searching incident particle is to collide with

target an electron when the wave packet converges as reflected wave observation.

③ EPR papers are not simple to understand, so let's consider the simple reaction {gamma rays → electron + positron}, which is said to be equivalent to it.

In short, it's an **isolated energy-momentum conserved system**.

If the gamma ray (determined input) and electron (observed left output)

are known, the positron (right output) is determined immediately

after the reaction. Everything except the reaction space-time point is a

free particle with a definite energy and momentum.

(2) EPR claim: Same as the author.

(3) Anti-EPR:This is completely wrong !!!.

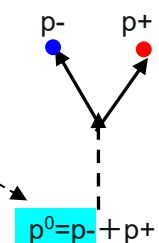

Before measurement,physical quantity can no be determined,but uncertain by the possible

eigen superpositon states<this is completely wrong,conserved variables are

predetermined as unique being>,When the electron's physical quantity is determined by

observation, then instantly also that of positron is determined, there is quantum

entanglement (interaction) between the two <the Big Hoax>.

## APPENDIX2:Quantum XXX.

By a month learning,author can not be the terminology writer,but a dog biting them.

### ①Quantum Superposition.

They eagerly tell Qubits can have multi-state at a time which enable giant calculation at a time.However the inputs and the outputs of Qubits circuits respectively are certainly **random**,but one at a time..

### ②Quantum Entanglement<APPENDIX1>.

They defined as **deterministic** coupling between both Qubits.

Those are actually implemented by magnetic coupling of Qubits.

\*Google AI answered QE was verified as Quantum Field Theory as **Reeh-Schlieder Theorem**,however it is frightening hoax.

<http://www.777true.net/Reeh-Schlieder-Theorem-is-Hoax.pdf>

### ③Quantum Interference.

In Glover algorithm(not physics)for quick searching,it is a focusing criteria.

### ④Quantum Information Science far from the actuality of Quantum World.

Author read only two author thesis.They fashioned by beautiful mathematics dress,but they seem far from the truth with actual battle field of the dark invisible quantum hegemony war.

**PS:**5 month ago,my cat Chiyo who lived with author for 18 years long was substantially kidnapped and now has been being prisoned.It is torture for us.Now the police will not assist author,but the criminal <bodyguard of corrupted physical society>in **the upside down Japan**(the top war criminal emperor family) who substantially has been being illegally occupied,politically ruled and even silently attacked(earthquake weapon) by US CIA-military complex with obedient Japanese officials in Japan after the war.

50 years ago,author once joined Hewlett-Packard Co in Japan and had become person non favorable for USA **the top upside down nation(NAZIS reincarnated one)** in the world.For long,American were sleeping due to their top prosperity before **Kennedy assassination 1963**,but in 2020,the world had drastically changed into Dystopia one.Corona outbreak,Ukraine war,Gaza,war,....due to the hidden NAZIS power.Now almost people will not talk on Climate Worsening the fatal failure of the world.Now we are heading toward global extinction 2040 in coming foods shortage world.Then the top ruler entirely fear for outbreak of **Political Revolution**,so they planed how to crack down on, deceive mass people by divide and rule in calculated and insidious operation to make the people weaken by poorer and disable.Then most important matter is that one should not say easily *I have understood*,but pursue complete one from **bottom of own logic** and **confirm by discussion with colleague toward effective united actions** .
