Title: Sound analysis proves that the self-made gun of Yamagami, who allegedly assassinated former Prime Minister Abe, was highly likely to be a blank gun: Why are the media silent?

1. Now, the suspect in Mr. Abe's assassination, who has been arrested by the Nara Prefectural Police, may no longer be a murderer!

From the beginning of the assassination of Mr. Abe (former Prime Minister) on July 8, 2022, major suspicions have been pointed out mainly in the Internet, but this suspicion has now been scientifically proven.

By the way, in a video (Note 1) recently uploaded to YouTube, two silenced guns were fired between the first and second self-made guns of Yamagami, who is believed to be the assassin of Mr. Abe. It has been clarified from the audio data analysis of the video recorded at the scene of the incident at the time.

As a result, it is highly likely that the self-made gun that Yamagami shot was blank.

In the future, when Yamagami's trial is held, the results of this sound analysis will be presented by the defense, and the national court will likely not be able to charge Yamagami with murder.

2. If Yamagami's self-made gun is proven to be a blank gun, we will have no choice but to regard Mr. Abe's assassination as a large-scale organized crime.

What we learned from the audio analysis of the video that recorded the moment of Mr. Abe's assassination was that another two gunshots were recorded that were different from the gun of Yamagami's. And this mysterious two shots in a row hit Mr. Abe's throat.

As a result, these two gunshots claimed Mr. Abe's life, and Yamagami, who merely shot the blank gun, was not the culprit of Mr. Abe's assassination.

In that case, Yamagami is one of the crisis actors in large-scale organized crime.

Furthermore, the Nara Prefectural Police, who guarded Mr. Abe, knew of Mr. Abe's assassination plan in advance.

By the way, there are many people on the Internet who have carefully analyzed the images that recorded Mr. Abe's assassination, and it is known that some of the people who were guarding Mr. Abe's surroundings were acting strangely. . This person is taking steps to secure his own safety just before Abe's sniper attack.

3. It is eerie that the Japanese mass media are completely ignoring many suspicions about Mr. Abe's assassination on the Internet.

Since the beginning of the incident, many suspicions related to Mr. Abe's assassination have been pointed out on the Internet, but the Japanese mass media have completely ignored them.

Japanese media people should be checking the internet, so they should be aware of the suspicions about Mr. Abe's assassination flying around the internet.

"Nevertheless, it's eerie that all the mass media are ignoring the allegations that are making noise on the Internet."

From this, it can be imagined that the Japanese media is under considerable pressure.

When we realize the existence of such invisible pressure, it becomes more and more unnatural that the Kishida administration is trying to force Mr. Abe's state funeral.

From the beginning of the Unification Church(=UC)after the war,Abe ancestor family strongly connected with them(UC) as Korean compatriots.

They take in gullible Japanese's anguish, turns them into fanatics, and collects enough donations to bankrupt their households<many tragedies were generated,however the established media were strangely silent on those at all>.

The essence of the **Unification Church** is a fraudulent and corrupt quasi-church that uses that money to take over the political world(not only in Japan,but also USA), raise the authority of the church, and increase the number of gullible donors. They are strong agent of CIA the psychological manipulation expert.In order to hide Abe's ten years long collapsed politics,Kishida is to force Abe's international state funeral even in massive people's calling for "No state funeral".

It would have become worst for them that Abe's surviving by blank gun shot !!.
Even by a blank gun shot event,the news would become to expose the terribly corrupt Unification Church with strong tie with long years Abe family connection(the Korean agents).

Coming international state funeral is to act raising Abe's authority for gullible Japanese.

In Japan,there is another strong cult religious organization the Soka Gakkai, Their leader is also an agent of Korean.Once one of Japanese believer told that he believe the church,because the leader is always welcomed by famous international VIP politician, scholar,and talents in all over the world.

In Japan,there is another strong cult of physics researcher organization who were sometimes awarded the international famous Nobel prize,even in now useless elementary particle physics that had substantially been completed by SSC abortion 1993 due to completion of the unified gravity field theory.SSC is 12billion \$ elementary particle experiment faculty in USA.

Former Prime Minister Abe shot dead

It is almost certain that there was another sniper 2022/6/10

<http://www.asyura2.com/22/senkyo287/msg/225.html>

Former Prime Minister Abe was shot dead, but the hospital interview on the 8th and the judicial autopsy results announced on the following 9th, those are completely different.

At the hospital press conference, there were two gunshot wounds on the right front of the neck, and ammunition entered the body from the neck to the heart and chest. They explained that he had damaged a large blood vessel, The result of the judicial autopsy the next day was that the ammunition that entered the body from the upper left arm They explained that he had damaged the arteries under the left and right clavicle.

.....

Perhaps the first hospital interview is correct. In other words, another sniper shoots the head of former Prime Minister Abe from a fairly high place, it is highly possible that the bullet reached the lungs and heart.

Was there a problem with the security system? Asking former Prime Minister Abe's security veteran, "I can't think of such case even at a moment."

Finally they (the traitor organization) are being cornered.

Eventually he was assassinated by a fellow organization due to rising his notoriety.

Former Prime Minister Abe (Korean descendant) was a typical and the worst traitor (the CIA agent) against Japan,

In his 10 years ruling times, they made **300 trillion yen** national debts (now the total **1000? trillion yen**) to make stock price higher only. In the times, Japan had become terribly corrupted in politics and social general with many suspicious crime events. Note Kishida (Korean descendant) now prime minister is almost the same type as Abe.

In UK, Johnson (also the traitor against UK people) was to retire due to rising his notoriety. Similar circumstances apply to USA, France and Canada (also Russia and Ukraine with USA-EU).

PS: Now the serious, but also serious important court witness Yamagami is told to be detained for psychiatric evaluation. Author calls on the authorities to stop illegal and brutal brainwashing torture like **Julian Assange in UK** !!.
