

THE ECONOMY NEVER WILL RECOVER AGAIN

2011/9/8

If you would have encountered unprecedented terrible climate hell world in near future, then you shall surely and fatally regret that we should have done bitter counter measure at **that possible time**. Do you really consider **economy now** is more important than your life ??
If nation and people would have gone to where they could go down as soon as possible, then relief might become possible by **new regime**. It might be upside down.

Climate Summary:

From now, a final deadliest struggle (judgement) is to begin, so the former easy going economy favourable for everyone (?) will never recover again. Why could it be irreversible ?!. The first fatal cause is what most economist has been neglecting on and never refer to. That is

Climate Catastrophe Possibility which would cause most global people in food crisis.

Without more than 80% of {CO2 or global population} reduction, none could be saved.

If fail, our planet would become fire ball earth due to about 1000GtC of thermal bomb = methane eruption in Arctic. None could be saved by more 1°C global temperature rise.

Even near 1°C rise from 1750 (industrial revolution), draught and flood increasing in Africa and Australia caused them near hell. In other nations, also they encounter abnormal climate disasters never seen in before. If you look carefully on the world, the sign of hell become evident day by day. An American said Anthropogenic Climate Change Deneyers are astronomically stupid and ignorant, which is not exaggeration, since fireball earth is true.

This is the deadliest reality of Climate Science both in the theory and the observations.

IPCC the most responsible world organization never have declared this most fatal fact.

<http://www.777true.net/IPCC-the-injustice.pdf>

Economy Summary:

The second is the world debt crashes. In those behind, there is what most economist has been neglecting on and never refer to. That is **the zero sum theorem "Total Debt = Total Monetary Asset "** in finance. For example, USA is the most debt nation with about **\$115.7T**, while their year income = GDP is **\$13.6**. The repayment is anymore impossible.

<http://grandfather-economic-report.com/debt-summary-table.htm>

On **the zero sum theorem**, you should try to prove it by yourself for satisfied recognition.

<http://www.777true.net/Zero-Sum-Theorem.pdf>

Without asset crash, none could be saved from debt hell. Or none could accomplish drastic debt reduction without **hyper-inflation**, which would cause most people into livelihood hell.

By anyhow, the final showdown may be a global resetting by **sovereign debt default**.

Or **nation function will not work anymore, on which people and ruler never allow by anyhow.**

Both of climate and economy would become the final judgment. Thus, in anyway, most of us could not go without becoming poor of eating only in best or of deadly in worst.

To tell from beginning, economy will grow with investment (debt = bond), and with huge carbon energy consumption rising earth temperature and **economy never can last forever**. That is, **inevitable market saturation** is to downturn economy in someday. The downturn is to expand widely and quickly by **positive feedback** which enhance cause by result. In this way, economy with livelihood resources shrinking by climate change is to face total corruption. (Then note that an exception may be **agri-business's prosperity**. However agriculture-itself would become a betting in the wilder climate. It becomes a key to surviving for everybody). Debt, then, encounter difficulty of repayment, which is also to enhance downturn. Established policy maker take strategy saving financial crisis in **private sector** (note capitalism downturn is initiated from private capital sector, but not public one) by **debt transfer to public sector** (bailout). Then next is **sovereign crisis** which force budget cutting in public service and social welfare. At semi-last stage, nation could not go without printing money, which enforce **hyperinflation** of disabling paper money. While wealthies were to buy gold for their asset conservation. At the very last stage, nation could not help to declare **default**. The global economy now is a network responding not only totaly, but also simuletaneously. **That is. the problem could not be in a nation, but be in total nations**. This is quite similar in counter measure policy on Climate Catastrophe Possibility Problem. Both could not be nothing without very bitter international effort. Therefore, a global governance could not help to work in. Then they would determine a global resetting in finance system. It might be a **gold standard system** which could stabilize **commodity price** at least in international trading.

Political Power Summary:

Mentioned in above has been wellknown for those few who has been ruling this world from front and behind. A history is not accidental, but conspired one by somebody (T. Roosevelt).

At first, they perceived fatality of Climate Catastrophe Possibility with **a Time Limit** and decided not to continue former economy hegemony struggle anymore. **In 2007, Climate scientists blew severe warning and Lehmann bankruptcy happned in 2008.** Totally to tell, both climate and debt crisis has been accelating to devide people who have from not. (**Anti-Class Struggle** conspired by ultra right wing (NAZIS the reincurnated in USA)).

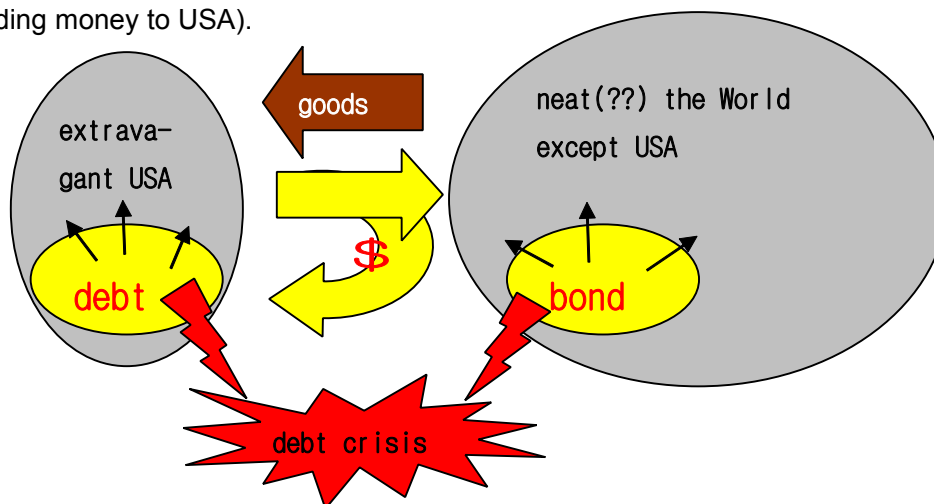

At now, to colive with many others, or not is the final and fatal question.

Whether it might be **by democracy**, or **by dictatorship**, both of climate and economy never be settle down by **an extremely bitter international effort**. Then narrow minded of rightists would be nothing without mere trouble maker. Any nation people should make tight international friendship as first as possible without useless vanity, but with **truth**.

[1]:Non-Recoverable USA Economy = Non-Recoverable World Economy.

(1) USA had been unique nation pushing up world economy by the biggest debt.

For long time, USA had been buying and buying many goods from the world by increasing their debt, **by which**, the world economy could grow with their surplus increasing (which had turned lending money to USA).

(a) <http://temi.repubblica.it/limes-heartland/who-holds-the-american-debt/827>

(b) <http://grandfather-economic-report.com/summary.htm>

(c) <http://www.treasury.gov/resource-center/data-chart-center/tic/Documents/mfh.txt>

(2) The world economy without pulling power (by debt) of USA could not recover.

The **Capitalism Economy** has opposite two mode of **growing** (increasing asset = bond) and **shrinking** (decreasing asset = bond → **bankrupt !**).

(a) As you could see in [1](b), the USA total debt is far beyond their income.

See Appendix 1 : DEPT TABLE. **The repayment is evidently impossible by anyhow.**

Similar situation could be also seen in another nation's **sovereign debt crises**.

(b) **The final stage of the crisis would become nation(government) default.**

Because they has been entirely transferring private sector's debt into public one.

The debt amount is far beyond their repayment ability.

(c) Then what could happen ? **a discontinuous transition by government decision.**

A nation default could be alone, but driving global nation into crisis. Today's economy had become a total (global) network system which respond in totally and simultaneously.

(d) Losing government function could not be allowed by anyhow.

(e) A **semi-war(emergent) time regime** could not help to be employed to evade the crisis.

A strong power of government regulation (with **equivalent duty**) on nation economy and people's livelihood would be, then, a relief people in very poverty. Total productivity could manage livelihood supply to all people "for the time being" by appropriate rationing.

[2]:Result has already been determined.The problem is **the time limit !!!**.

①**Stop the stupid civilization(the current economy regime) causing own extinction.**

Why is it **"for the time being"** ?!, It's Climate Change that would cause agri-products ruin.

Author could not help to mention what people would hate for.Because he shall mention that the global economic crash must be settled down as first as possible.And then they must face the fatal reality of emergent Climate Catastrophe Possibility=Arctic Methane one(=AMC).

COP16 in Mexico agreeded to allow more global 1°C rise,which is fatal for Arctic thermal bomb.Because then Arctic temperature(= T) would be more than 3°C,which would trigger the bomb.Saving possibility is unique as more than 80% CO2 **emergent** reduction.

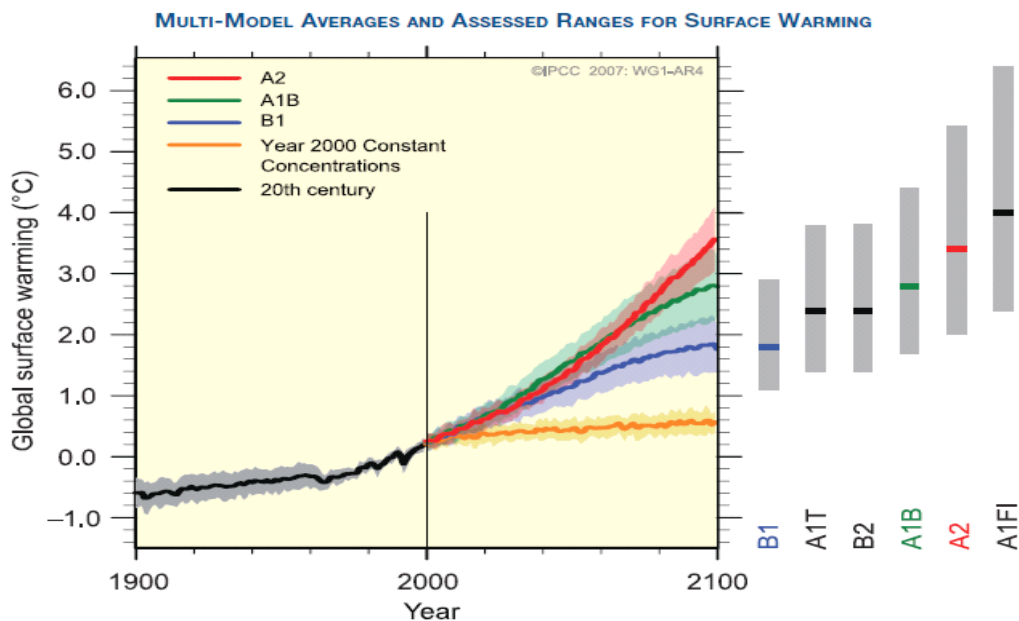

<http://www.777true.net/suffer-for-perishing-or-for-surviving.pdf>

Even the ideal nothing emission regime could take more than 30 years to stop T rise.

Then the estimated upper T rise would be about 0.3°C,even which is critical to avoid **AMC**.

http://www.777true.net/Bering_Strait.pdf

Japan Ministry of Enviroment has a program of **80% cutting CO2 in 2050**.But it would be too late.The current global carbon consumption regime would cause more than 1°C rise in 2050.So long as people are emitting CO2,global temeprature shall rise quickly as time goes on.Therefore the current global radical regime must be settle down as first as possible.To tell from very beggining,**a civilization causing own perishing is nothing without fatal error**, so it must be emergently changed to stabilized another one as first as possible.

[http://www.ipcc.ch/pdf/assessment-report/ar4/wg1/ar4-wg1-spm.pdf#search='policy maker summary,IPCC'](http://www.ipcc.ch/pdf/assessment-report/ar4/wg1/ar4-wg1-spm.pdf#search='policy%20maker%20summary,IPCC')

②The absurd idling years of juggling on the debt crises.

However the current econo-political state of the world has been only juggling on debt crisis.

So long as they entirely has been keeping wealthie's bonds,debts never be vanished.

That is entirely prolonging time of final descion,while the climate become **wilder and wilder**

The financial end stage is descisive,default(**bankrupcy**) or not.

(1)The latter is **debt transfer** from **private sector**(original household or bussiness)to **public sector**(**national bail out**).

(2)In facing default,emergent additional lending is possible,however it is to cause more debt to prolong bad state unless drastic situation change.

(3)As the consequence,so called **soverign risk** with **public service and social welfare cutting** become higher and higher as time goes on.That is,domestic decline and ((nation people such as Greece etc become poorer and poorer)).

(4)A creditor never wish debtor's default,because it is junk-nization of bond.

Wealthies are to lose their asset and to become rather poor.

So long as those bond were,those debt never be vanished.

(5)Thus the last edge stage woud be **money printing machine of national central bank**.

Huge money flow without **value reservation** would cause **hyperinflation**.

((nation people become poorer and poorer))

(6)So wealthies forseeing those would buy and buy **gold**,so the price are skyrocketing.

(7)**Final stage of sovereign crisis of a nation = default would cause global catastrophe.**

Today's world economy become far tightly connecting than that of 1929 in each other nations,so a nation default never could be alone.but be global and simuletaneously.

(8)However it is told that central bank forseeing those would conspire **international condemnation of gold**. → **New money printing by gold standard(RESETTING!!!)**.

(9)**Gold Standard World in Severe Climate Declend One.**

In order to stabilize **necessary livellhood commodity(especially foods) price**, gold standard might be recommended and agreed by all ?!.

☞:The total amount of handy gold in the world is told **165600**ton,then the current price is

56\$/gram(2011/8/25),so the world total price of gold now is

$56\$ \times 1000 \times 1000 \times 165600 = \$9.3 \times 10^{12} \doteq \10 Trillion.

This is about the same otder of USA GDP = **\$13.6 T**,while the global GDP \doteq **\$63T**

☞:In gold standard regime,the former radical monetary operation become impossible and it is told economy would become retro style one.

In another hand,people now(2011)are entirely expecting the economy recovery,but it would be in vain.

[3] : The Global Depression is Final Showdown in the Hegemony Struggle.

(1) The overview on the current state.

The kernel problem is CCP (climate catastrophe possibility) constrain the time limit^{*}. In the other hand, the outrageous global debt will not go on without a global resetting. Both could not help to be irreversible, that is no recovery in the former sweet economics. Behind the CCP, **the affordable time is up** for global economy hegemony struggle.

A final gong was ringed Lehman bankruptcy shocking 2008/9. The overflowed USA debt was not a topic in yesterday, but had already been indicated before 10 years ago.

The triggering was 2006 when housing price turned-down (~the sub-prime mortgage).

A History of Home Value (in USA) :

<http://my.opera.com/ux50/blog/show.dml/2655111>

Bankers had been entirely lending **the overflowed surplus money** to those who original had not enough repayment ability, but except chance of resaling with higher house price in future. Many poorer people were agitated with the gambling. This outrageous result had been anticipated before. So it may be a conspiracy not only for USA, also for the world. Housing loan problem is not only in USA, but also in Europe and in Asia. By the event, over cooled water of the Financial and Business Sector had become suddenly frozen = bankruptcy by **mass scale of positive feedback chain reactions (the 2nd great depression)** in 2008 ~ 2011. The Obama administration emergently extinguished fires (bailout) by huge budget, which turned to become more **sovereign crisis** in modification on low of debt upper limit (2011/8/2). After all, policy makers in the world took same strategy to **transfer private debt into public one**. In these process " **total debt = total monetary asset**" are invalid for the wealthies. That is, nothing **essential settlement** and those has been entirely postponing final decision in future with none taking final responsibility.

^{*}) If current regime were conserved, more radicalized climate would attack within few years or a decade. Not only Japan, also USA had recorded highest temperature etc at even **now**.

Weather gone wild.

<http://www.newsbusters.org/blogs/scott-whitlock/2011/08/16/diane-sawyer-uses-wind-disaster-hype-global-warming-weather-gone-wild>

At first, wild climate shall attack **agri-product**, so it directly shall cause **global foods crisis**. So, in USA, they are told to be taking refuge action against the crisis by hearsay. Because established media has been concealing the serious fact. It might be a sign that Mrs Obama made **garden farm** in White house soon after the inauguration.

(3) **Who rules the world !!**, Survey on **Rockefeller vs Rothschild**.

Following is a method to recognize global power politics trends, however the reality is not so simple, but is confusing due to mixing of their power of **ally and hostility**.

A modern invisible history might can be said struggle between the white supremacism of aggressive right (king-nativists) = **the NAZIS** and **anti-the NAZIS powers** of liberal(?) globalists. The former is essentially atheism.

(a) **The method ,by utilizing the central bank(FRB),causing inflation and deflation alternately to suppress nation people's huge profit,had already become a science by the international bankers**(re-translation by Japanese edition p76)..

(b) They made inflation of FRB monetary supply up to 62% form 1922 to 1929, of which new printing money were used for **outrageous rising price in stock market**(p77).

(c) They could re-get their original stocks by cheap as 10% of the original price(p77)

(d) **Ruling the world in the behind(the global finance in the dark) .**

<http://mscience.jp/truth/?p=84>

By the established {**academic society, education institution + the mass media**}, nothing essential real aspects of economy is informed to people. Then, by those ignorance, the global robber nobility could operate the plutocracy. history. Nobel prize is distributed to power obedient scientists wishing own honor by the Imperial Sweden. Who are the big sponsor of the established mass media capitalism ? Those are wealths ruling the world.

Their supreme dirty mission is not reveal the facts of boss the ruler.

(e) **Insider dealing :**

Leaking company **insider information** on investment is forbidden by market rule.

However is 100% watching really possible ?, or market price could be controlled by **bigger capital operation**. Can market really give equal chance for every participants ? Those has been evident for everybody, but nobody condemn ?!

(5) **Even 1929 had become conspiracycal, then, is economy now nonconspiracycal ?**

(a) They determined 2008 was maximum point of their global grasping in economy struggle. Therefore they declared Lehmann bankruptcy and America decline with the world in order to freeze their status rank in the world.

(b) Their competitors with employee were to be wiped out by the 2008 ~ Great Depression. These theme should be verified by economy data such as jobless rate soaring.

(c) The bailout by government huge budget for private sectors turned to weaken more government red finance, which simultaneously forced budget cut on social welfare.

(d) Unless their **solidarity** with **correct world recognition**, jobless people would become selfish by losing their margin. It is not good becoming poor is becoming not wise. .

(e) **Operation ENDGAME.** <<Total productivity could supply all people to co-live>>

Now the time when the strong become stronger, and the weak become more weak.

Above signs are all of **anti-class struggle**, so what dose people need?.

[4] : **Could Great Depression be a Possibility Causing World War ???.**

(1)**The official history vies.**

The Depression and the outcome of WWI were major contributing factors to the Second World War.

<http://www.essortment.com/causes-world-war-ii-21938.html>

The Great depression(1929)caused bitter economy decline in every nations,so they could not help to take strategy making own-supplying & consuming nation without foreign trading(**the block economy regime**). As the consequence,it caused nations those who have and who have not ,which consequently caused world war the 2nd between those.

(2)**The fact behind the official view.**

From [3](2),we derive

In politics,nothing would happen by accident,but something happened,it would be right to consider that it would have been conspired to happen so....F.D.Roosevelt.

Hence we should consider that {world war the 1st,(1914),the Great Depression(1929),and world war the 2nd(1939)}were all intentional(**conspirations**).Then why and who did it ??.

The war was between **NAZIS(anti-theism)** and those not and the result was NAZIS defeated.The answer may be what had realized after the war.The hostile regime of capitalism nations and communism ones(**the cold war regime in the world**).Then note that The defeated NAZIS refuged to USA and they had recovered **the NAZI-lized USA** in today. The cold war had done great role for USA becoming **the outstanding military power nation with CIA**(the invisible facsim with lowless).It's an intention of **Rockefeller with Bush** (the global rightis wing=**monopoly by the nobility supremacism**).

(3)**Destruction destiny of their atheism ideology ?!**

(a)**The USA NAZIS regime might be a mission for perishing mankind ?!**

If you surveyed history of countermeasure on Climate Catastrophe in IPCC,you could find the evil of Exxon-Mobil(the Rockefeller's oil company),who had broken the IPCC justice.

<http://www.777true.net/IPCC-the-injustice>

(b)**The glory of showindown nation of USA capitalism drove the world decadances.**

After the war,the ecomic growth of USA with their ambition and ability were remarkable and established USA the No1 in everything,and foreign nation people were following them.Now, as the consequence,they had come to a point of catastrophe both in economy and the climate.

(c)**The Bible had known well on "corrupted mankind destiny".<see A3:(6)>**

Therefore,the Bible has been entirely preaching **people's repentance**.

Note also Italian(the Catholic nation) warned those by the Rome Report(1972).

A2 : Finance Account Theory: Total Debt = Total monetary Asset (O sum theorem).

Economy growth (market size rise) is increasing money flow, and is also increasing debt (bond asset).
 But economy decline cause **debtor bankruptcy**, which cause **positive feedback chain reaction** to shrink economy with market size and with monetary asset.

<http://www.777true.net/Zero-Sum-Theorem.pdf>

Note following is a very primitive model of monetary flow and stock with no concern on interest.

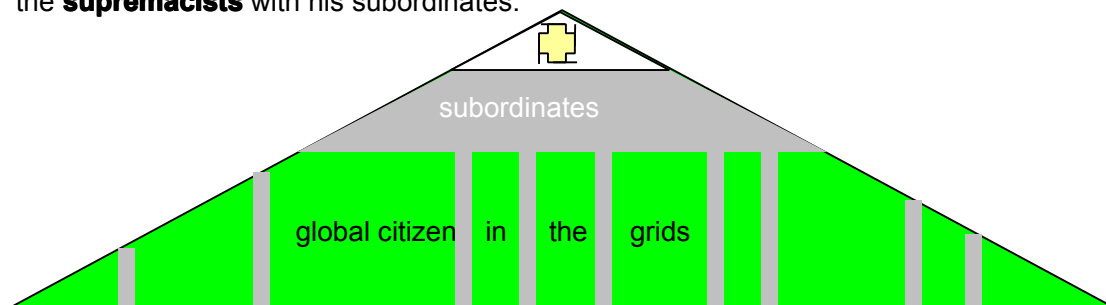

M_1 is payment by deposit transfer or another. Note anyone don't wish having many cash without gaining interest .

A3 : Modern History as Conspired One.

<<The Hereditary Noble and SuperWealthy Families Ruling the now World>>

A validity for no more economy recovery is due to high class will of **conserving status quo** at this time and the other is the Climate Catastrophe Possibility(≡**CCP**).That is **the final showdon in survibal struggling(≡operation END GAME)** both in economy and wars due to the time limit(**CCP**).This is the invisible hegemony struggle against **global citizen** by the **supremacists** with his subordinates.

In the below,some real examples are shown as conspired histories,which are familiar with some world pundits,but not with people educated by **established school and mass media**.

(1)The Imperialism by UK and secret society.

Industrial revolution(1750)in UK was an epoch in way as mass production by heat engine, etc.As the consequence UK gained advantage in the worl hegemony in capital and armed force(the imperialism nation without sun set).This method was transfered many Europe nations.Thus imperialism competition history was initiated toward today of the world.

In these process,nobility and capitalist fomed ruling elite class in consious of supremacism (the secret society of FEE MASON).**Their aim was ruling history by elite's conspiracy.**

(2)Meiji-retro revolution and T.Glaber(UK)the secret missionary with the conspiracy.

<http://www.777true.net/JapanUK.pdf>

Tokugawa shogunte allied with republic French was defeated by Satsuma-Choushyu-district ally with UK & USA(Anglo saxon ally)back support .Since then modern Japan had become a mappet supporter nation for world history manipulation by UK and USA.Today,Japan has been supplying more than half of the total asset \$15Trillion to USA the CIA rogue nation.

(3)Russian Revolution.

One of the most secret in **upside down modern history** may be the Russian communism revolution backed by the super capitalists Rockfeller & Rosschild.The aim was setting up outer enemy nation in order to avoid own inner struggle within capitalism western nations.

(4) **Establishing CIA = NAZIS-Hitler Germany and the operation paper clipp.**

Before the war, those who supported NAZIS Hitler are Wall Street and Bush Family.

Bush is kinship with Imperial UK (Hanoubour family in old name). Also after the war, they secretly imported NAZIS important persons and engineers to establish **CIA**. Consequently they formed so called **military and industry complex the NAZIS reincarnation in USA**.

Note that the imperial USA = **Rockefeller** family is German and his sub **Bush** is the secret society skull & bonds initiated from the illuminati in Germany. **People consider USA is nation of Anglo-Saxon, but substantial major is German American**.

We face a hostile ideology global in scope, atheistic in character, ruthless in purpose, and insidious in method..... D. Eisenhower = German American (1961).

(5) **Destruction inevitability of synerchism/skull & bonds established 1833 in Yale U.**

The secret society skull & bond was established by W.H. Russel and Alfonso Taft in Yale university 1833 for gain hegemony for the ruler elites by their secret solidarity. Their adopted formalized ideology (world recognition) was **anachronism** of F.W. Hoegel's tail wagging philology in feudalism Prussian dictatorship..

(6) **Hypocrisy of upside down Religion in the Apocalypticized Now World.**

John's revelation (**apocalypse = the final judgement**) is placed in the end chapter of the new testament.

The most of previous chapters are entirely devoting to preach **repentance**

(in author's view). That is, **without repentance would cause the doomsday**. However some

preachers insist that the apocalypse at now era is the very evidence of righteousness of the

Bible. This may be hypocrisy. Because the Bible has been preaching **global revolution**

to repent upside down world. The modern civilization causing own perishing is nothing

without **upside down something** being against God's road (substantial righteousness).

Note that God never perish people, but people ownself perish themselves. The doomsday teach's actual aim is entirely goodwill to save people by repentance as a global revolution. In this sense, the Bible is not a narcotism, but a revolution text same as that of Marxism.

* **Ephesians, 6:12** For we wrestle not against flesh and blood, but against **principalties**, against powers, against **the rulers of the darkness of this world**, against **spiritual wickedness in high places**.

a truth is universally true whether who may say so. Thus you don't care on what he is.

If what he said was not correct, you don't care what he said. In anyway, you don't care him.
