**Abstract:**

*In a Time of Universal Deceit —*

*Telling the Truth Is a Revolutionary Act..... George Orwell*

If it related with keeping life, a science without truth would be fatal. Covid19 is bio-weapon, the Ukraine war is filled with lies, and **climate worsened** has been substantially being neglected. All of those are fatal for all of us in keeping life. While the scientists society has been doing what ?? Only the war is certainly political problem.

Once also author engaged R&D in Quantum Stochastic Mechanics(QSM1991), Quantum Gravity Dynamics(QGD1993), and Economy Network Dynamics(END1998),.....

Those are decent theory with fully debugged at least in the very fundamentals.

However nothing had been published in authorized academy magazines, but he had to encounter insidious economy sanctions to intercept activities in science and business. Once he was engineer of US inc who had caused him person unfavorable.

Note those physics might have no direct effect in keeping life, due to such reasons, he was to change working field(1995) into energy technology with climate science(2007). After all, the situation would not be changed, but the suppression against his activities had more increased as times goes on. It is evident that the origin of evil was caused from the physics society. Now the time had become terrible emergency, thereby he do not wish penalty on you, but something strong support against the worsened world. It is rapid job change recommendation for certain field. This is his task of finishing remaining business.

**[ 1 ] : The Top Physics the Hidden and Decadence.**

Followings are high degree of the completeness.

**① QGD**

QGD had been completed, while some are still playing such super-string theory the decadent,

**② QSM**

Old lecture on Quantum Mechanics has fatal defects on observable(Hermitian)Hamiltonian, While really time dependent Hamiltonian is non observable singular causing 0 time state transition. General quantum process is Markovian yielding the Master equation with evolution by energy fluctuation. Application of the master eqn is almost untouched, but isolated system, opened system with constant flow.

## [ 1 ] : The Top Physics the Hidden and Decadence.

It is emergent your task to declare physics the righteous and delete the wrong physics research especially in elementary particle theory.

### ① QGD

QGD had been completed ,while some are still playing such super-string theory the decadent, This is authors initial work with poor descriptions, but the conclusion is right.

[http://777true.net/Quantum-Stochastic-Mechanics\\_QSM\\_the-Hidden.pdf](http://777true.net/Quantum-Stochastic-Mechanics_QSM_the-Hidden.pdf)

This is general theory of time evolution in quantum ensemble.  $\Delta t \Delta E = \hbar$  is proved by non Ergodic Wiener Khichin theorem.  $\Delta t$  is a reaction time,  $\Delta E$  is energy fluctuation in ensemble.

$(d/dt) \omega(t) = (\Delta E(t)/\hbar) [\mathbf{T} - \mathbf{1}] \omega(t) \dots$  < $\omega(t)$ =state density vector,  $\mathbf{T}$ =transition matrix>

→ 2<sup>nd</sup> law of thermodynamics in closed system is proved as general relaxation process.

$\omega(\infty) = \mathbf{T} \cdot \omega(\infty) \dots$  <equilibrium state in closed system>.

$(d/dt) \omega(t) = (\Delta E(t)/\hbar) [\mathbf{T} - \mathbf{1}] \omega(t) + \mathbf{j}_0 \dots$  < $\mathbf{j}_0$ =sconstant flow in opened system>

→ constant frequency vibration by constant flow in opened system by the equation..

$\omega(\infty) = \Delta t(\infty) [\mathbf{1} - \mathbf{T}]^{-1} \cdot \mathbf{j}_0$ . <non equilibrium state created by external flow>

Escapist research will no longer be allowed in the ivory tower,now is the time of do or die.

Following field are decisive,while the man power seems weak really to win.

### ① Climate Fixing Technology

Climate is overwhelming ruling factor on destiny of life on this planet,while the countermeasure is overwhelmingly irresponsible.*Before climate had become wild, they indicate climate is rather uncertain,while the after,they indicate it's too late.*

(3)This is Nares Strait Inlet(width=20km),to where massive colder(water&ice)flow are coming in toward the outlet→Davis strait→Pacific Ocean.This acts deadly Arctic Warming by( $\sim 7W/m^2?$ ).

Because *something colder output=something warmer input*.Now Arctic Warming by Heat Debt= $4W/m^2$  has been heading to massive Methane Eruption causing Global Extinction.

This method enable no becoming worry on *too late in climate fixing*,however it never be final salvation,but needs *more rapid fixing by "too late time long"*.

### (4)**Recovering Process of Global Temperature by Pulling Down CO2.**

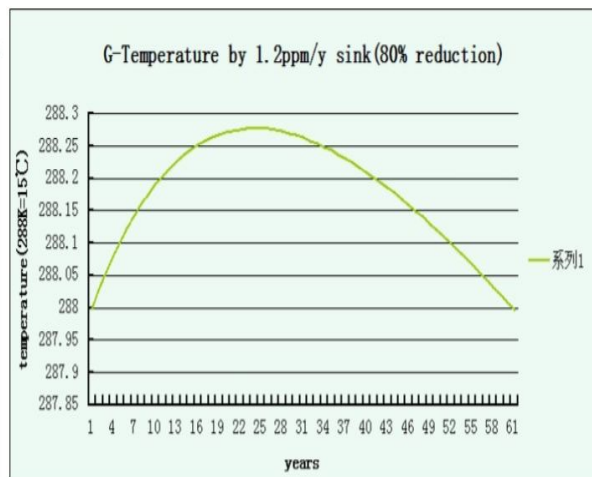

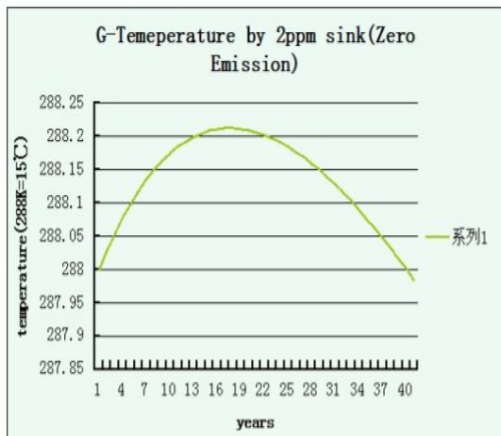

It takes decades long years,so needs global climate wartime regime<Climate Revolution>.

*This is validity of possibility in recovering climate by drastic renewable energy change.*

<http://www.777true.net/Accounting-principle-verify-reconstruction-the-Past-Climate-Records.pdf>

The method is very primitive,while the result verify actual records.This method substantially assumes natural massive CO2 absorption power of VEGITATION and OCEAN.

☞ : **IPCC and the scientists** seem not disclosing such data .

(5)<http://www.777true.net/Rapid-CO2-Absorption-with-Mineralisation-of-CO2-by-OLIVINE.pdf>  
 Olivine is a common and inexpensive stone that can be crushed to increase surface area for increased absorption and the product is harmless.

## ② Economy Network Dynamics,

The most trouble factors in economy may be market instability of demand-supply and person's position in economy policy. Others are generally ruled in **accounting principle**.

END is fully(?) described in simultaneous equations of variables in the principle.

Author wish you to find defects and improve toward becoming really useful tool.

(1)<http://www.777true.net/Quick-Guide-to-Economy-Network-Dynamics.pdf>

This method may become economy simulation without modeling, Predictable economics is also becoming planned economics such in climate wartime regime.

(2)<http://www.777true.net/Life-Assurance-by-National-Strategy-in-coming-climate-WAR-TIME.pdf>

This was done by the necessity, however could not be sufficiently exact ?

## ③ Theology the Physical Logic

Once also author was atheist, but turned theist by this finding. Then he learned the holy scriptures, which enabled solving philosophy. People must colive in *justice, truth, philanthropy*.

In **the unprecedented universal deceit times**, those are very foundation to recover an order for people's life in peace.

Stunning truth is physical vacuum world is proved to be almighty one !!! Logic theorem proves realizing contradiction (simultaneous realization of A and not A) enabling everything true (realization), which is justly almighty. Vacuum polarization reaction is creation (annihilation) from (into) nothing, which is proved contradiction. As you could see that creating something from nothing itself is out of normal common sense (contradiction)

(1)<http://www.777true.net/Proof-on-God.pdf>

**Resonance** between this world and the other almighty one by Charge Density Wave.

This is empirically recognized in world wide report on so called telepathy. Especially, examples of twin are remarkable.

(2)<http://www.777true.net/Scientifical-Mechanism-of-Prophecy-by-Paranormalities.pdf>

## ④Energy Technology

This is not discussion of so called “renewable energy”,but very singular one.

Creation energy from nothing is possible by generating negative one at first,which generate positive one due to energy conservation law.  $0 = +E - E$ .

The general theory was written in (1),however it needs verification.

(1)<http://www.777true.net/Energy-Creation-Process-from-QED-to-QGD.pdf>

(2)<http://www.777true.net/BWG.pdf>

This is due to original work by N.Tesla of so called scalar wave generator.

Once author succeeded to accomplish so called over unity,  $1 < \eta \equiv \text{output energy/input one}$ .

The employed dielectric wave guide with H2O is cheap,but attenuates energy to output,

In the principle,capacitive antenna(impedance=reactive)do not consume energy,while it

radiates charge density wave(CDW)  $\square \phi = -\rho / \epsilon$ . In plane wave  $\phi = \phi \exp(j(kx - \omega t))$ ,

$\mathcal{H}_s = -(\epsilon / 2c^2)(\partial_t \phi)^2 - \frac{1}{2} \mathbf{E} \cdot \mathbf{D} + \rho^B \phi = 0$ .....total field energy density of CDW..

$\mathcal{H}_s = -E + E = 0$ .....the details is shown in (2).

(3)<http://777true.net/Growing-Electric-Power-by-Tesla-Tornado-Circuit-2.pdf>

This is cheap method??,but difficult in exact design at least as for author now.

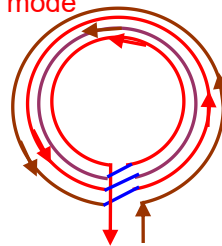

The 2 remarkable essence may be as follows,

### (a) Parallel running currents generate negative energy field.

It may be realized by **linearly rising(ramp)current mode** in **bi-filer** winding Spiral Coil(SPC).

\*A resonance mode of stationary wave is observable due to line length of SPC,

However by considering following fact, resonance mode may be not available??

### (b) Positive Feedback by “Tornado Effect?”.

This is not a having proved fact on SPC circuit,but a possible optimistic hypothesis at now.

Tornado eddy line is just Spiral Coil,in which a **positive feedback mechanism** is acting on to grow the strength,This is explicitly provable fact due to the eddy equation.

$$\text{NS Eqn: } \rho (D\mathbf{V}/Dt) = \rho [\partial \mathbf{V} / \partial t + (\nabla \mathbf{V}^2 / 2) - \mathbf{V} \times \boldsymbol{\omega}] = -\nabla p + \mu \nabla^2 \mathbf{V} \dots \langle \boldsymbol{\omega} \equiv \nabla \times \mathbf{V} \rangle$$

$$D\boldsymbol{\omega}/Dt = (\boldsymbol{\omega} \cdot \nabla) \mathbf{V} + \nu \nabla^2 \boldsymbol{\omega} = \langle \text{stretch growing term of eddy} \rangle + \text{attenuation term}$$

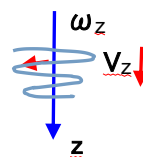

Spiral growing is caused by the down bursting(z axis).

[https://www.youtube.com/watch?v=lmWh9jV\\_1ac&list=RDCMUCsooa4yRKGN\\_zEE8iknghZA&start\\_radio=1&rv=lmWh9jV\\_1ac&t=12](https://www.youtube.com/watch?v=lmWh9jV_1ac&list=RDCMUCsooa4yRKGN_zEE8iknghZA&start_radio=1&rv=lmWh9jV_1ac&t=12)

An exponential growing is a result of positive feedback.

$$d\omega(t)/dt = k\omega(t), \rightarrow \omega(t) = \omega(0)\exp(kt),, k > 0.$$

☞: This is explosive growing to encounter something **catastrophic** at the endtime.

(c) Simple estimation on the field intensity with the current one.

$$\text{curl} \mathbf{H} = \mathbf{j} + \partial_t \mathbf{D} \dots \dots \dots \langle \square \mathbf{H} = -\text{curl} \mathbf{j} \rangle$$

$$\text{curl}(\mathbf{kH}) = \mathbf{kj} + \partial_t(\mathbf{kD}).$$

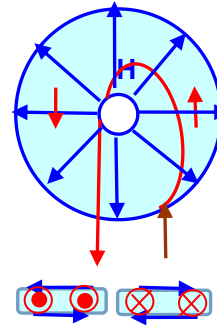

Field intensity is proportional to current one.

As radius  $r \rightarrow 0$ ,  $\{\mathbf{H} \rightarrow \text{stronger}, \mathbf{j} \rightarrow \text{stronger}\}$

Tornado center falling of current may be positive feedback causing spontaneous growing of current (positive energy !).

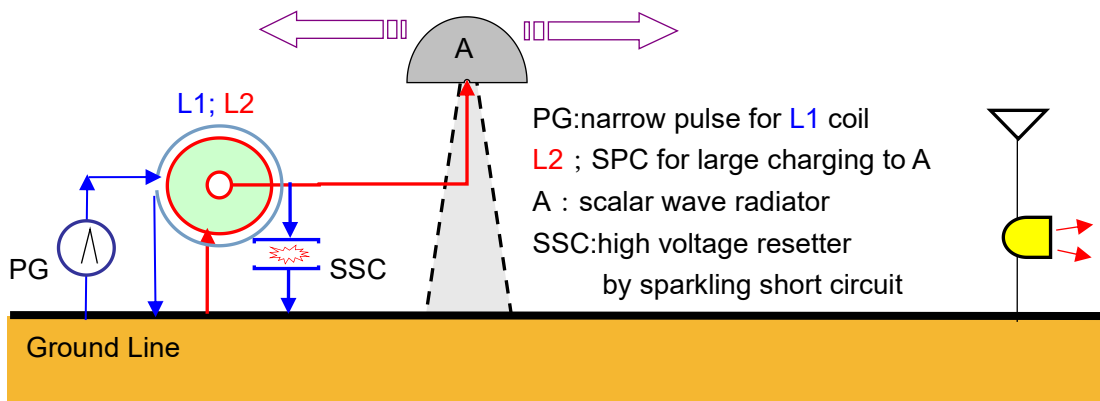

$\text{div} \mathbf{B} = 0$ : conservation law of magnetic field line number.

Those are always one continuous ring.

(d) **Charge current generation in Tesla magnifying transmitter(TMT) .**

The famous tower with top capacitive antenna may be secondary role. The hidden, but main function is generating pulse current for the larger charging with following spark discharging .

Tesla may have employed **ramp charging current** of self-exponential growing in SPC. In order to stop **the explosive growing**, SSC is employed to realize short circuit. PG could not generate such large current, but only trigger L2 current by EM induction.

(e) **The Modern Version of TMT.**

Now author shall try to build the Modern Version of TMT.

Also you should try it !!!
