COP15 is disturbed substantially by the US, and intend to impress serious disappointment for who are awakening (operation END GAME).

If someone made an extremely serious debt, his responsibility must be proportional to his portion. If someone made delicious food, the other should not easily request to be dined on, but they could accuse wasteful CO2 emission in the cooking. To tell the fact, the delicious food is simultaneously poison.

Now COP15 encounter deadlock on whether advancing nations should take carbon responsibility or not. It had been a conspiracy to destroy global consensus on tackling climate change crisis (CCC) by USA the worst pollution accumulator.

Why is it so ?. In common sense, none would want to die by CCC catastrophe. However there are certain power who has been entirely conspiring and accelerating global catastrophe for own surviving with perishing too many others (operation END GAME). It's evident action for against God who entirely persuade equal life with many others. CCC is also just **the Final Judgement** on mankind, predicted by the holy bible, myths in many races, etc.

[1]: The current status entirely orients mass extinction of species.

Note that geo-scientists indicate **the final warning** for global people. The meaning of "irreversible or abrupt" is nothing relieve if those were realized.

IPCC SYNTHESIS REPORT (2007/11/17 in Valencia announcement)

3.4 Risk of abrupt or irreversible changes: Anthropogenic warming could lead to some impacts that are abrupt or irreversible, depending upon the rate and magnitude of the climate change. {p53}.

Key Message 1: Climatic Trends

Recent observations show that greenhouse gas emissions and many aspects of the climate are changing near the upper boundary of the IPCC range of projections. With unabated emissions, many trends in climate will likely accelerate, leading to an increasing risk of abrupt or irreversible climatic shifts {p6/39}.

[2]: What is abrupt/irreversible climate impacts?(global methane catastrophe !).

To our serious disappointment, they could not disclose actuality of the concrete phenomena. A reason may be due to scientific uncertainty of those.

Or conspiracical suppression on speech and writing on those facts. They made serious mistake on the judging. They might become too nervous on the realizing probability. The methane catastrophe actually had caused more than 90% mass extinction of global species at **end of Permian** and **PETM** (Paleocene Eocene Thermal Maximum). The judgement should not be made by realizing probability value itself, but by expectation value = (realizing worth value) x (realizing probability).

Worth value of evading perishing of species must be greater than anything else.

[3]: Evil of Nobility Capitalism the supreme with military-industry-CIA complex:

We face a hostile ideology global in scope, atheistic in character, ruthless in purpose, and insidious in method. <<Eisenhower's Farewell Address to the Nation January 17, 1961>>: <http://www.informationclearinghouse.info/article5407.htm>

In it, he disclosed the military-industry complex, which is connecting with **NAZIS** persons secretly imported by operation paper clipp.

In order to comprehend the deep actuality of USA, the concept military-industry complex with CIA is a kernel. Their 1st philosophy is that **a nation and people are being exploited** by nobility superior. Then 2nd one is **perpetual struggling** to compete and perish those who are considered enemy by them. An exploitation could not be realized without conspiracy and threatening. Then a **conspiracy world usually become up side down one**, because its purpose is deceiving people by making them consider truth (falsehood) as not true (false). By anyhow, they are those who reject co-living different others (atheism).

[4]: Operation END GAME would be ended by own defeating.

A serious mistake in their conspiracy is that they consider possibility of their own surviving in 2C temperature rise world. See the site

[4]:Prediction by professor Jucelino N L:<http://www.jucelinodaluz.com.br/>

GLOBAL WARMING (Greenhouse effect)

World Will be hotter... World Will be hotter ...

1 - According to the premonitory dream of JNL, until December 26, 2023 will be the planet with a climate of **63 degrees** in some regions of the world.

Increased Level of the sea ...

Sea level up... Sea level up ...

2-According to JNL predictions until, September 10 of 2021, sea level will reach **7 meters up.**

Also he said that our future could be changed by our will !!!.
