

## **The Most Stupidity in All Universe History\_Arctic Methane Catastrophe Risk at now !**

*Reality is the master. Reality is not likely to bend over to charismatic promises, programs and ideology. -Peter Drucker.*

[ 1 ]: **UN IPCC-COP1~26** has been being not likely to disclose the most risk in climate task.

Simple, but clear modeling indicates **rapid sea ice vanishing** toward extinction disaster(author).

[ 2 ]:**Climate Waritime General( President)**the conscience autocrat ruling.

COP26 devates are ugly & stupid enough by being far from deadly climate fact.

rapid Climate Worsening(2021/10/14).***

By probability 99.9%,also author acknowleges that the climate extinction risk will not be saved due to **the unchanged overwhelming global apathy**,while **the technological salvation impossibility** is not such high probability 99.9% even at now !!

\*for an example,**cloud making machine** could realize rapid temperature down in order to intercept deadly climate feedback caused by temperature rise at now.

That is,something conscience autocrat ruling is necessary to accomplish the emergent task.

It is Climate Waritime General or President elected by democrat way by the world poeple.

The candidate with their expert cooperators must decler their plan for urgent climate salvation policy. \*this task must be accomplished in a year.

In a fact,once an Australian climate scinentist had proposed such option,who faced worsend climate reality for the first time in advanced nation.
