The Open Letter to APS

selecting able person of court witness for authenticity determination on physics.

The past serious important events and the cause of civil trial at this time.

<1>:Once also I was a Prog. Theo. Phys contributor.

No3423// Renormalizable Gravity Field as Guage one in Linear Coordinate. submitted to Prog.Theo.Phys(1993/4/15,Kyoto University ,apan).

*Head title is not complete, but the last conclusion by the calculation is completely right.

<2>:12billion\$ the elementary particle experiment device=SSC was canceled in halfway through construction in US congress<1993/10/22>.

https://lss.fnal.gov/archive/other/ssc/sscl-sr-1235.pdf

*In the later,I had noticed the cause that thesis<1>could have made no use of SSC, that is the completion of elementary particle physic as the unified quantum gravitational dynamics(QGD). Thereby I decided to claim damages from the USA for unauthorized theft of copyright information. The result is quite upside down, After that, he lived in terrible poverty for 30 years long due to the insidious economic blockade conspiracy<CIA in Japan>. Japan is not genuine independent nation, but having been being ruled by USA after the war.

<3>:Once also I was a APS contributor<DJ6420 DIS-1 DN,received 19,September.1997> QUAUTUM GRAVITATIONAL DYNAMICS AS THE UNIFIED FIELD THEORY IN LNEAR COORDINATES,

*but not published by following message by the editor.

Dear Dr Suzuki,we regret to inform you that your manuscript is not considered suitable for publication in the Physical Review,We are therefore returning your manuscript.

Yours sincerely, D.Nordstrom Editor Physical Review D.

*Head title is not complete, but the last conclusions by the calculations are completely right.

The cause of civil trial at this time<2023/08/23 in Japan>

As the result of the poverty(now income is about pension 200\$/month), I was sued in a lawsuit for handing over my resident land due to long year delinquency in land rent, which was caused by no income in my business the physics, and was due to the illegal business interference<no publication of serious important physics by the injustice>.

In order to save both I the victims and the chain victim realtor, the physics truth is necessary. Now I need court witness for authenticity determination on the physics for a civil trial, please help me select able and honest researchers.

In 2018,I filed a civil suit for damages compensation in order to get income in my business the physics truth(the high price goods of the business).A 60 million yen civil damages lawsuit was filed in 2018 due to the injustice reviewer on thesis<1>, and the result was that the defendant physicist's perjury was employed by the judge's mistake and the case was lost. The witness (the reviewer physicist) has now become a fraud criminal by making a profit as a result of perjury.
