

## Dear Science and Religious Climate Leaders. 2017/1/19,20

Now many people **deceived by the media** has been worrying coming Trump presidency.

Businessman Trump's presidency may be ***it is up to us***(Paul Craig Roberts).

So far in authors survey,the businessman character may be summarized as**( I )( II )**.

It could become comprehensible by asking **who had made America worst !!**.This is too serious essential problem not only for American,but also for people in the world.

### **( I )He is not ruled by the Established Regime=**

**(military-industry-media-CIA complex the cursed reincarnated NAZIS=the globalists).**

(1)He is independent rich not to seek getting money from the Establishment.

<http://www.paulcraigroberts.org/2016/11/14/trump-im-reopening-911-investigation/>

☞: This is the most notable chance & risk of their presidency against NAZI power.

(2)**beginning must be establishing global peace for coming big good business.**

Thanks to the fake 9/11 terror ,the world had become **chaos with frequent violence.**

Now NAZI has been plotting operation EndGame=**WWIII** to conceal **Climate Catastrophe** caused by the Oil Emperor.Because his fatal failure is hiding climate collapse toward global catastrophe(none will tell,..).Now both Trump & Putin merely and entirely have been endeavoring to intercept **WWIII**. Above all,establishing global peace is highest priority desire of us all,without which,we could not start building anything big good !!

(3)So long as **WWIII** risk,also Russia will not cease oil business dependency to save huge military budget !.Both Trump and Putin may have known about **imminent methane catastrophe risk in East Siberian Arctic Shelf !!**.

(4)**The Schematic Summary.**

### **( II )He sells what people want !(the populism).**

(1)**Thereby, it is up to us**(Paul Craig Roberts).

<http://www.paulcraigroberts.org/2016/11/23/it-is-up-to-us-paul-craig-roberts/>

Trump the businessman presidency would do anything what people really want, **thereby, it is up to us at all !!**.

(2)**The Populist Politicians are hated by NAZI. Why ?,they are not tail wagging !!.**

Muamar Muhamad Abu-minyar el Gaddafi; Hugo Rafael Chávez Frías; Alberto Fujimori; Dilma Vana Rousseff; Rodrigo Roa Duterte; Nelson Rolihlahla Mandela, Bashar Hafetz al-Assad; Jose Alberto Mujica Cordano; Vladimir Putin;

### (3) **Trump Paradox.**

<http://www.prisonplanet.com/heres-why-trump-picked-reince-priebus-as-chief-of-staff.html>

*By selecting Reince Priebus as his Chief of Staff, President-elect Donald Trump is using an age-old strategy to keep former enemies close so they don't rebel.*

\*Frequently, he makes intentional own *errors(upside down)* in order to indicate for correcting opposer opinion.

**example(a):** Mr John Lewis **the prominent civil right activist** who *rejected* to join coming inauguration ceremony. *Trump rips 'all talk,' 'no action' civil rights icon Lewis*

<http://edition.cnn.com/2017/01/14/politics/john-lewis-donald-trump/>

**example(b):** He is, in fact, not climate denier, but had known it well than anyone.

On the other hand, he told outrageous plan to build *boarder walls*.

*\*Despite his public stance as a politician, there is evidence that Trump the billionaire businessman was already hedging his bets. Earlier this year, the Trump International Golf Links and Hotel in Ireland cited the threat of sea-level rise in a permit application to build a nearly two-mile-long stone wall between it and the Atlantic Ocean.*

Obama presidency once urged(APPENDIX-1)

**overwhelming judgement of (climate) science !!.**

However the scientists still will not declare **the deadly climate facts** toward global revolution !!. Not only Trump presidency, but also science society are wrong !!. **So long as science society would be wrong, also the presidency would be wrong. Thereby it is up to us at all !!.**

[http://www.777true.net/It-is-not-politician\\_but-doctor\\_scientists\\_only-who-can-declare-patient\\_climate-worsened\\_to-urgently-go-hospital.pdf](http://www.777true.net/It-is-not-politician_but-doctor_scientists_only-who-can-declare-patient_climate-worsened_to-urgently-go-hospital.pdf)

**(1)urgent more than 80%CO<sub>2</sub> cut to stop the rise of more than 0.5°C(in the average value).**

In very coarse estimation by Suzuki, this is not impossible, however it could not help, but be bitter life for people for the time being, **however it is the bitter life that could accelerate rapid, good and many inventions.**

(2)Urgent Arctic Cooling Engineering to stop Methane Catastrophe in the Ocean.  
**Just do NOT tell them the monster exists:The Arctic Methane Monster.**

<http://arctic-news.blogspot.jp/2013/10/just-do-not-tell-them-the-monster-exists.html>

**Save the Arctic sea ice while we still can!** 2015/03/06

<http://arctic-news.blogspot.jp/2015/03/save-the-arctic-sea-ice-while-we-still-can.html>

Fortunately researchers are increasingly confident that a stratospheric aerosol haze, produced from sulphur dioxide, SO<sub>2</sub>, could provide significant cooling of the Arctic for modest expenditure of the order of **a few billion dollars per year.**

This type of cooling could be replaced by cloud brightening using ultra-fine seawater droplets when the technology is ready for large-scale deployment **within a year or two.**

Note World military budget= **1.7T \$/y**, World Oil spending= **26T \$/y** !!

(b)**1 dimensional thick ice wall building intercepting Arctic sea warming**(author).

The full area wide spreading is impossible and may be not necessary. Author has been thinking of **1dimensional lines spreading at where necessary** to stop ice melt invasion. For an example, 7000Km line would be accomplished 100 troops with each 70Km duty in winter Arctic. Circle is an idea, other many variation would be possible.

The surrounding length might be about  
 $= 2\pi(3.4 \times 10^6 \text{Km}^2 / \pi)^{(1/2)} \sim 7000 \text{Km}..$

**70Km/troop = 7000Km/100troops.**

It is **sea water pumping & spreading** for ice building in sever cold winter operation.

The most danger area which needs urgent insolation input cut may be **shallow** as **East Siberian Arctic Shelf**. Such area is most ice thin one. Something effective water **spreading strategy** at that area is necessary. The fundamental idea of ice making by spreading water is that spreading amount could make **delay time** in ice extent melting, which turn to make earlier beginning of ice freezing toward more extent(also thickness) recovery in winter.

with TRUTH.

*“Or we can choose to believe in the overwhelming judgment of science – and act before it’s too late.....But if Congress won’t act soon to protect future generations, I will. I will, I will direct my Cabinet to come up with executive actions we can take, now and in the future, to reduce pollution, prepare our communities for the consequences of climate change, and speed the transition to more sustainable sources of energy.”*

*If the Trump administration and an emboldened Congress further attack scientists, misrepresent science, or push legislation that cuts science out of existing public health and environmental laws, we’ ll be ready to fight back with your support.*

On 2017/01/18 5:31, Catholic Climate Covenant wrote:

*Scott Pruitt’s nomination raises many questions for those who care deeply about care of creation.*

*1) Denial of the scientific consensus that human produced greenhouse gas emissions cause climate change.*

*2) Efforts to dismantle important EPA regulations and work with other states to sue the EPA over the Clean Power Plan which would reduce carbon pollution.*

PS: Attacks against Trump presidency at now is remarkable and threat. Then note they entirely has been neglecting favorable their global policy, but accusing local and individual matters only. People must be awoken against fake news by the established corrupted media. **This would be final chance to turn the upside down world. Their success or failure is entirely up to us all !!.**
