

Vaccine the Upside Down=vaccinated people help infection rise?!!

The unprecedented outrageous COVID pandemic is caused only by **people infected but without symptom**.,Now it has revealed that vaccine could help to increase such vaccinated people infected but without symptom.,Thus Vaccine Passport has become of no use,but person who needs testing.Once again ,we must call for **ALL PEOPLE TESTING !!!**. Some may say it is good to **prevent aggravation**,however long time keeping infection without symptom is likely to become **HIV(ADE~AIDS)?!**. 2021/07/24,29,8/10

[1] : More Infection Rise by the Global Massive Vaccination.

As Evidence Grows That Vaccines Do Not Protect Against Infection, the Case For Granting Privileges to the Vaccinated Collapses

<https://dailysceptic.org/2021/07/06/as-evidence-grows-that-vaccines-do-not-protect-against-infection-the-case-for-granting-privileges-to-the-vaccinated-collapses/>

COVID Expert: Vaccinated People Can Spread the Delta Variant

<https://www.businessinsider.com/covid-expert-vaccinated-people-can-spread-the-delta-variant-2021-7>

2021/07/07 — A leading US disease expert says there's 'no doubt in my mind' that vaccinated people are helping spread Delta.

On the contrary, the vaccine can suppress the unexpected possibility of "spreading the infection" and its aggravation, but the decrease in infectivity is subtle<Japanese>.

<https://toyokeizai.net/articles/-/396367>

I would like to tell you about the situation in the UK where the threat of the virus has not disappeared even if the inoculation rate is extremely high.More than 80% of adults have been vaccinated in the UK, the infection has spread again even though the vaccination has progressed. Overconfidence in the vaccine?<Japanese>.

<https://www.asahi.com/articles/ASP6P5RSTP6MUHBI013.html>

Commentary from a person once developing a drug at a pharmaceutical company The clinical trial of COVID is out of the ordinary. The inoculation is the same as the suicide attack<Japanese>.

<http://www.asyura2.com/21/iryo7/msg/102.html>

Massive amateur people **very easily believe** that vaccination can protect from infection ,however **actual vaccine developing** is very difficult for the experts at that laboratory. For an example,**no success in mRNA vaccine in the past**.He told **the ordinal developing** needs long years **many times test steps** to confirm **effectiveness and safety**.While the developing at this time is very singular to neglect the process,That is ,**the unprecedented global vaccination** at this time is simply a **vivid human body test** step to detect effectivity and safety.The result is not good to prevent infection rise.

The serious problem is not only it,but also **Long Time Risk Rise** by various cause.

[2] : The Vaccinated Silent Carriers<the long time risk rise ?!!>.

COVID outstanding feature is **Rapid and Stronger Mutant Generation** causing ordinal medical treatment of no effective. Another problems are onset of disease after a short or long **incubation period in Silent Carriers** the Vaccinated, or the not Vaccinated.. It is called **ADE**(antibody dependent enhancement=**bad antibody generation** causing immune failure in twice time infection), This chapter is out region of authors ability without Medical Dr license.

①**"Selective Pressure" = Mechanism of Emergence of Resistant Mutant.**

Bacteria compete with each other for food, which is a limited amount of human cells, and when a strong is annihilated by drugs, etc. The territory of minority-resistant increases, and it works in favor of their growth.

<http://amr.ncgm.go.jp/general/1-2-1.html>

Author's personal opinion: If the conventional type is suppressed by the appearance of a more greedy infectivity <stronger infectivity> mutant in **the food competition relationship**, it would be a generational change. , Alpha → Delta looks like this. Lambda in South America is said to be stronger than Delta.

The reason why a large amount of vaccination produces a monster virus that cannot be suppressed. And there are already signs of a more catastrophic event worldwide.

<Japanese>.

<https://indeep.jp/why-mass-vaccination-creates-a-monster-virus/>

By the way, the confirmed "named mutants" are not limited to the Delta strain, but also in the papers by scientists at New York University and the papers published in the scientific journal Science, in addition to the Delta strain. , Alpha strain, Lambda strain, Iota strain, and Epsilon strain have also been confirmed,

A study in the United States finds out that corona-spiked proteins may "cause long-term changes in gene expression in humans." Then, what is the effect of the vaccine that produces spike proteins in the body?

<https://indeep.jp/coronavirus-spike-protein-brings-long-term-human-gene-changes/>

Inventor of mRNA Interviewed About Injection Dangers

<https://comendonchisciotte.org/linventore-dei-vaccini-mrna-parla-dei-pericoli-dei-vaccini-covid/>

The developers have pointed out that the above S protein for vaccine mRNA induction is harmful

② Incomplete Antibody toward Immunity Destroying.

At 2021/07/29, in advanced nations (UK, USA, EU, south America, etc., ...), Covid vaccination had already popularized, however infection rate once again rise. Then note it indicated to protect us against becoming aggravation, however hide virus carrier without symptom.

Decreased preventive effect of corona vaccine. However aggravation is effective, Israel<Japanese>.

<https://www.tokyo-np.co.jp/article/114886>

In evil telling, vaccination would allow silent carriers without onset of aggravation.

Mutant type, effective in preventing infection even after vaccination<Japanese>.

<https://www.nikkei.com/article/DGXZQOUC05BD90V00C21A7000000/>

What about the after effects even if you can avoid the aggravation? ??

Approaching ADE. How Vaccinated People Should Address His ADE, An Imminent Medium-Term Risk<Japanese>.

<https://indeep.jp/how-to-deal-with-the-looming-medium-term-risk-of-ade/>

According to a June 25 British government report, "60%" of recent deaths in the United Kingdom are "vaccinated."

Summary by Not Licensed Amateur Author<you should find error to correct>.

(1) It is impossible to make **weakened COVID virus for the antibody generator** by cheap egg.

(2) Some employ **covid spike protein** as the antibody generator<mRNA vaccine>. By injecting mRNA into body, **generated spike protein(GSP)** is to make **antibody(AB) against GSP**, but not COVID itself. Though, GSP is to attack covid with NSP (natural spike protein).

* human body(=hb) + mRNA → GSP. Generated GSP may be not unique, but many kind

(3) GSP + hb → AB, AB₂, AB₃,

it is not that the **unstable reaction** does generate unique normal AB, but many kind of **minor mutant AB_{2,3,4,5,...}**. Because GSP is not COVID itself, but substituted something.

* mRNA storing needs strong cooling to keep stable mRNA ⇔ **the unstable reaction in hot hb**.

(3) Righteous antibody attacking against COVID

covid with (NSP + AB(good)) → no attack human body → eaten by immune cell (in hb)

Some time passing necessary. Then what is happening in covid with (NSP + AB(bad))?*

Already bad AB the very minor begin attacking immune cell toward own proliferation ?!

This long time process is very similar with HIV(ADE) process.

Maybe researchers had noticed the similarity, so named the process ADE ~ AIDS??!!.

(4) Wrong antibody attacking hb immune cell <Trojan Virus = ADE>

..... toward twice time infection causing ADE (Trojan Virus destroying immune cell)

covid with (NSP + AB_{2,3,...}(bad)) → invade immune cell by pretending dying

→ **eat immune cell** by covid with (NSP + AB(bad)) toward own proliferation

APPENDIX_1: No Symptom, but Keeping the Virus.

Normal Recovery:

A1: virus invasion → natural immune system eat virus to eliminate it and no antibody making
 A2: → natural immune system fail, however onset start up acquired immune system making
good antibody against virus → no binding to receptor (ACE2) = toward cure → once again natural
 immune cell <eat virus with antibody> to completely eliminate it.

ADE0 (antibody deceiving entry = Trojan Virus) = No Symptom, but Breeding the Virus.

B2: → no binding to receptor (ACE2) = toward cure → once again natural immune cell try to eat
virus with ADE-antibody, but it is natural immune cell that are eaten by not dead virus = Trojan
 Virus > to invisibly destroy immune system. Then especially note that proliferated virus has
 not antigen with spike, but COVID virus itself = No Symptom, but Breeding the Virus.

ADE (antibody dependence enhancement = Trojan Virus):

As time goes on, natural immune cells are eaten by the virus. Thus the virus are silently to
 proliferate as time goes on (How much long in incubation periods ?).
 Thus the 2nd time infection become fatal. Without natural immune system, antibody
 production ordering signal do not work.

“Review on Immune Process and Immune Trouble(by Trojan virus).”

① **Innate Immunity** are **eliminating foreign substances** by **phagocytosis** of {macrophages, neutrophils, **dendritic cells**} and **attacking** by {Natural Killer cells}.

How Immunity Works

https://www.obunsha.co.jp/pdf/support/9784010340004-p130_147.pdf

If they failed, then following system ② is to attack COVID with making and using weapon (**antibody**).

*virus with antibody disable to cause ill is to be eaten by natural immune cell as **final cure process**, this final process become serious in ADE problem

② Adaptive immunity (acquired immunity)

https://www.obunsha.co.jp/pdf/support/9784010340004-p130_147.pdf

① **Dendritic cells(etc)** the virus police arresting to eat and **excrete virus mark**.

Encountering virus → eating and digesting in Dendritic cells → output **antigen presentation**

② **T cells** the Messenger to **missile maker and the launcher(B cells)**

→ helper T cells (**virus mark messenger**) → **B cells** (memory & production)

③ **B cells** (**read virus mark and memory** → **production**) → **antibody release to attack virus**

*memory=lasting immunity ability for a time?.

COVID with antibody can not bind with receptor(ACE2)

→ **No Onset, or at least No Aggravation.** However there is **final eliminating process** ④-③.

④ Good Eliminating Process:

Normal adaptive immunity <**binding of antibody and antigen**> kill virus completely toward **final eliminating** by **phagocytosis** of {macrophages, neutrophils, dendritic cells}.

Final elimination of Virus with (good)antigen by natural immune cell **phagocytosis**.

③ **ADE0=the Immunity Failure**(by Incomplete Vaccine)=**Trojan Virus**.

(1) **No Symptom, but Breeding the Virus**=Antibody Deceiving Entry Phenomena,
Bad(ADE)antibody intercepts binding ACE2 with virus by **antigen-spike binding**.
Thus, for the time being, this reaction evades onset, or aggravation by at least.
.....but in bad **ADE antibody** binding with antigen **can not completely kill virus**, then it is
natural immune cells that are eaten by virus.

*Immune cell eat the virus by considering it dead,
But, at the final stage, it is they who are eaten by
Trojan Virus to proliferate by mRNA copying.*

Virus pretending dead=Trojan Virus

The eaten natural cells are to turn the virus proliferated by RNA copying.
They have no antibody with the spike anymore. It is **genuine virus reincarnated**.
This may be nothing, but the explosion of **No Symptom, but Breeding the Virus**.

(2) **ADE=the Immunity Failure**(by Incomplete Vaccine)=**Trojan Virus**.

Antibody Dependence Enhancement=**No Protection against Reinfection**.

Note **the natural immune cells** are not organ-itself to keep life activity in our body,
Thereby no visible symptom of ill for the first time being, however their vanishing would
become fatal when they become weaker and encounter another invaders into body,
without natural immune system, antibody production ordering signal do not work.
Thus **destroying immune system** is to cause stronger ill symptom.

Mechanism and function of immunity

<http://plaza.umin.ac.jp/~histsite/3immuntxt.pdf>

"Inoculators are spreading delta infections and vaccines are no longer functioning."

: The Washington Post publishes internal CDC material. In the future, it seems inevitable that infection explosions between vaccinated people will become uncontrolled in various countries around the world.

<https://indeep.jp/the-corona-vaccine-is-not-working-already/>

*"In the end, the infection is exploding only in highly vaccinated countries."
: The world's first inventor of the mRNA vaccine expresses his concerns.
And the ultimate chaos coming also to Japan
<https://indeep.jp/infections-are-exploding-in-highly-vaccinated-countries/>*
