

## **-Three biggest lies on now world-**

2010/10/12, 13

The US government was behind the 9/11 attacks. Without biggest extravagant and debt nation(USA), global economic growing is impossible(total debt=total current asset). The extravagances(increasing GHG) caused global climate change crisis. Now the leaders in USA, Japan,.. has been concealing the facts(the liars).

### **[1]:Ahmadinejad UN speech sparks walk-outs**

US and EU delegates walk out during President Ahmadinejad's UN address

The US and other Western delegations walked out in protest during a speech by Iran's president at the UN, in which he said most people believed the US government was behind the 9/11 attacks.

(2)<http://kenya.world-countries.net/archives/28895>

The Iranian president said there was a theory that "some segments within the US government orchestrated the attack to reverse the declining American economy and its grips on the Middle East, in order also to save the Zionist regime.

"The majority of the American people as well as other nations and politicians agree with this view," he declared to the astonished chamber.

(3)Not the Zionist, but the military-industry-CIA-complex(the Nazist).

In Middle East, Palestinian has been against Israel the Zionist since end of world war the 2nd, so they misunderstand their real enemy(the Nazist historically and severely suppressed the Zionist in Europe in order to deport them and make a device of Israel in Middle East). The Nazist conspired to make wars among peoples of the old testament (Israel and Arab). Both Israel and Iran misunderstand their real enemy.

(4) Being of the virtue in European (how to conquer mutual hatred).

Israel was made by the hateful European (the NAZIst), but it's also true that suppressed Jewish people could survive and could get higher status in today due to European who loved them. Above all, Christianity (Jewish culture) has been longly and widely accepted in Europe and many other nations. Certainly European persecuted them, while they generously allowed assimilation in European, so therefore also Israeli must do assimilate with Arabian by mutual exchanging in Middle East.

(7)President Obama who tell lie on the most serious historical disaster never could be genuine leader,which indicates something collapse not only for American,but for all.Above all, suppressing on liberty right of speech & writing became more severe since beginning of the democrats government in both USA and Japan.Now it become easier to comprehend that the outrageous tyranny of Bush goverment(9/11 and the Middle East illegal invasional wars)might be aimed real exchange of the world regime by right wing ?.But it is that Obama(Hatoyama and Kan)governments who had destroyed the rare big chance of exchanging the world.In conspiracy world, fact frequently become upside down in order to conspire mass deception in amateure people who tend to believe stubbornly mass opinion. It is them who belong to **the actual conservative hereditary regime(Rockefeller and EU-Japan imperials)**.

#### **[4]:Global economic collapse facts(Who are actual liars !):**

(1)**Total debts=Total current assets**:The zero sum theorem in account.

This is a pure theorem in account.Buyer's payment=seller's income,debtor's cash income=own debt account,so any commercial dealing never increase or decrease total currency asset.Cash supply by a central bank is own proper debt which must be cancelled to **zero** by debtor repayments in someday.

☞:Yes,central bank could cause "hyper-inflation" by printing mess cashes.

(2)**Economic growing never could be without increasing debt=asset**,or economic collapse never could be without decreasing debt=asset(the world state now).

(3) **To decrease debt, evidently rich must be also decreased.**

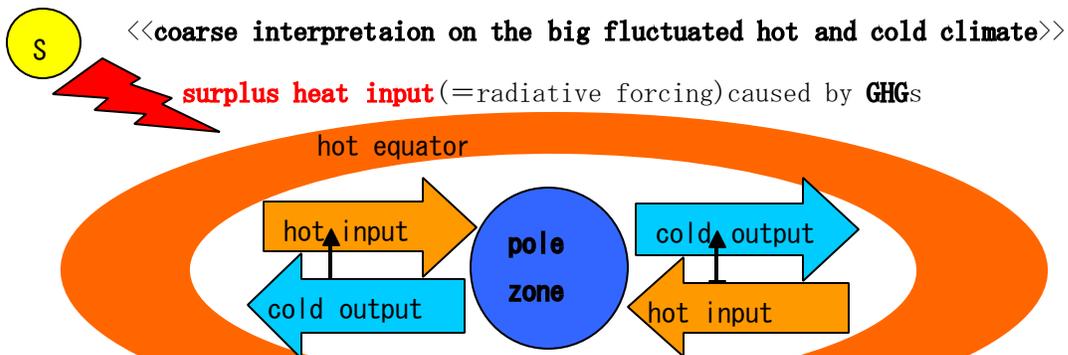

But a plutocratic nation used to increase government's debt, which would cause more difficulty in relieving people in future livelihood panic by government payment.

(4) Basically, advanced nation has no market growing. Because, due to its definition, an advanced nation is rich enough for their essential supply and demand. Thus they endeavor to make **junk market** (for empty but harmful vanity competition). The global capitalism today has been floundering for their life extension by inertia and pride of the past glory. Global economic growing became possible by the biggest USA debt <<(2)>>. However the unique kernel traction power of USA had been lost in 2008 (Lehman bankruptcy, etc). Now no nation wants to be the biggest debtor.

**[5]: Global climate crisis facts (Who are actual liars !):**

Above mentioned empty and harmful junk market has been increasing Green House effect Gas (GHG). In 2007 Valencia, IPCC announced final warning toward the world. Risk of abrupt or irreversible changes Anthropogenic warming could lead to some impacts that are abrupt or irreversible, depending upon the rate and magnitude of the climate change {p53}. [http://www.ipcc.ch/pdf/assessment-report/ar4/svr/ar4\\_svr.pdf](http://www.ipcc.ch/pdf/assessment-report/ar4/svr/ar4_svr.pdf)

In this 2010, global people encountered abnormal hot and cold climate change which caused terrible disasters in many nations (big fires in Russia, big floods in China & Pakistan, outrageous cold winter in South America). These are caused by increasing heat exchange between hotter equator and colder north & south pole. Heat up ocean fluid flows from higher temperature zone to lower one (both poles) by thermodynamics 2nd law. Then the both pole must push-out cold fluid to outer zone (fluid amount balance). Note that climate is dominated mainly by ocean surface temperature.

Push & pull fluctuating forces are generated among hot input and cold output.

Even though co-being of hot and cold climate, global averaged temperature is rising.

And then who are causing boiling oceans(=the 99% global heat capacity)?  
Yes we are !!.GHG increasing has been causing global **heat surplus**, therefore, at first, GHG must be decreased(or solar ray input-itself must be decreased, or...)  
And GHG could be absorbed by land and marine(alga<sup>1</sup>) forestization.

### **[6]:Option on the capitalisim to hell,or on life the first strategy.**

For global relieving, at least, discussion on the facts must be made. Many leaders in the world will not discuss on the facts. Maybe, they fear the difficulty of exchanging the world regime dominated by {rich the hereditary and his subordinate}. Especially the powerful leaders of USA and Japan must be responsible for the facts. Because, they hand known, but on the contrary, they endeavor to conceal the facts. Then established mass-media & research-education society(scientist on economy and on climate)with them are mass deception device for people.They are mere subs of **malicious conspiracical plutocracy the hereditary**<emperor Rockefeller with their friends)and worry own status now, but not on huge people's livelihood in near future. Conclusionary to tell, the global capitalism regime must be exchanged to way for co-living for all(life the first). If not so, the world would cause hell by struggles among peoples in disasterous future state(operation END GAME).

**The next COP16 in Mexico** would be a final chance to turn the dying world. Also military men should join, observe and disucuss the final relieving methods for global co-live in Mexico.

**[7]:All people should become "soldier" under renewed UN Global Army.**

, however not for making wars, on the contrary, but for against the climate change crisis for global peace. A soldier is certificated to eat, sleep, and join enjoyment by nation and serve emergent necessary works without fee. This may be most effective regime against the crisis. The International General Head Quater (IGHQ) should research and make operations against the crisis.

**Abobe all, emergent recovery of the great mother nature(land, marine & atomosphere) is necessary by anyhow.** Because disasters are entirely caused from man-made destructions on nature. A man made something(modern civilization) is always **lifeless**(except agriculture). Mankind must recognize it from bottom of their heart.
